**** Carmichael has leveled and developed land to be irr. from the Crowley ditch but other water users will not let him have water. They claim he has no right to water from their ditch as none of his filed rights are for that P.O.D. and that any water he has used prior to developing land was only waste which he can claim no right to now. Remarks.....

Carmichael says that the land involved was first irr under WR 2-234 from old Clancy ditch. In the mid twenties a deal was made with the landowners (then on the Crowley ditch) for the Clancy ditch to be abandoned and that the land could be irr from the Crowley ditch. Their was an agreement contract drawn up in 1926 merging water rights A-426M and 2-42 listing users on ditch. Carmichael says that his land was being irrigated then but that the reason the land wasn't mentioned in the agreement was because the land had just been inherited by Mrs. Dan Crowley and although Dan Crowley was mentioned and that it was he who irrigated Carmichael's land then Mrs. Crowly was not mentioned. Carmichael acquired this land in 1962. He says he can produce witnesses that his land has been irrigated from Crowley ditch from the early 1900's.
