Mr. G. Cravety
Billings Mont.
Dear Sir

I have not been able at present to get an accurate acreage of either the total irrigated land under the ditch or either of the two classes of land however from your map the boys must have a pretty good survey on it and if you will fill in what figures your office has into the places I have left blank I believe it will be as accurate as it is possible to get at the present time

Sincerely
W. C. Cravety

Mr. G. Cravely

Dear Sir:

I have not been able at present to get an accurate acreage of either the total irrigated land under the ditch or either of the two classes of land however from your map the boys must have a pretty good survey on it and if you will fill in what figures your office has into the places I have left blank I believe it will be as accurate as it is possible to get at the present time.

Sincerely
W. C. Crick
