As Planimetered 7 acres PX

7-16-69 Mrs Hass said the small patch of hay north of beat field (SE SW Sec 29) was irrigated last year, and it is so marked. The grain field west of this was irrigated 3 years ago from existing ditch and other ditches that have been farmed out. The soil in these two fields is too leaky to make a good crop.

Remarks

* Buffalo Rapids Irr. Project - Division I
Harold A. & Cissie M. Sterhan - N½SW, SWSW, Lot 9, Sec. 4, T15N-R55E 84.10 acres

** Sterhan plans to use this right to irrigate land in future. He built a dam across the river channel in S½SWSE, Sec. 4 to put a ditch across to irrigate the island but the State made him take it out because he was supposed to have a loading pit other side of river. He plans to build a barge of some type in the future to carry water to island
