Mr. Ford C. Garfield Ryegate, Montana

Dear Mr. Garfield:

In 1939 the State Legislature passed a law authorizing the State Engineer to investigate and compile a complete record of all water rights and water use in the State. In compliance with this law the State Engineer is now working in Golden Valley compiling these data.

Enclosed herewith we are sending you two forms. The first one shows the ownership of your land and the part that covers the irrigated area colored in orange. We would like to have you check this map very carefully and make any additions that you may deem necessary.

As we do not have a record of a water filing covering this land we are sending you Form WR-D, which we would like to have you fill out in its entirety and give us any and all information you can in regard to the Simms Mutual Ditch Company.

Remember, this is your water and your water rights that we are trying to help you with.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

GJO/a enc.

and the contract

April 19, 1949 Lois M. Wolff Ryegate, Montana Dear Madami In 1939 the State Legislature passed a law authorizing the State Engineer to investigate and compile a complete record of all water rights and water use in the State. In compliance with this law the State Engineer is now working in Golden Valley County compiling these data. Enclosed herewith we are sending you two forms. The first one shows the ownership boundary of your land, with the lots that we show as irrigated colored in orange. We would like to have you check this map very carefully and make any corrections you may deem necessary. As we do not have a water right covering this land we are sending you Form WR-D, which we would like to have you fill out in its entirety, and also give us any and all information you can regarding the Simms Mutual Ditch. Remember, this is your water and your water rights that we are trying to help you with. Very truly yours, Gerald J. Oravetz Assistant State Engineer GJO/a enc.

Neva & Noah Walters Ryegate, Montana

Dear Sir:

In 1939 the State Legislature passed a law authorizing the State Engineer to investigate and compile a complete record of all water rights and water use in the State. In compliance with this law the State Engineer is now working in Golden Valley County compiling these data.

Enclosed herewith we are sending you two forms. The first one shows the curer-ship boundary of your land, with the lots that we show as irrigated colored in orange. We would like to have you check this map very carefully and make any corrections you may deem necessary.

As we do not have a water right covering this land we are sending you Form WR-D, which we would like to have you fill out in its entirety, and also give us any and all information you can regarding the Simms Mutual Ditch.

Remember, this is your water and your water rights that we are trying to help you with.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

#### STATE OF MONTANA

#### STATE ENGINEER

BILLINGS, MONTANA

April 19, 1949

Mr. John Osse Ryegate, Montana

Dear Mr. Ossa:

In 1939 the State Legislature passed a law authorizing the State Engineer to investigate and compile a complete record of all water rights and water use in the State. In compliance with this law the State Engineer is now working in Golden Valley County compiling these data.

Enclosed herewith we creatending you two forms. The first one shows the part of your ownership that covers the potential irrigable land. For this land we would like to know whether or not you intend to irrigate it in the future.

On Form WR-A we are listing the one water filing that we have a record of. This we would like to have you check and tell us whether or not it applies to this land, and also fill in the remainder of the form, giving us any and all information you can so that we may have a complete record of your water rights and water use for your protection now and in the future.

Remember, this is your water and your water rights that we are trying to help you with.

Ryegate Mont Sund Cand May 1/8. Gerald J. Ornvetz Assistant State Engineer

GJO/a enc. On looking over my afstract

O can not see that they are any water rights with this ranch. O have irrigated a gorden with a small Centropal pump operated by an electric motion otherwise I have used your gatery water formers. I have your gatery water

Otherwise I have used your gatery water.

April 19, 1949 Mr. John Osse Ryegate, Montana Dear Mr. Osse: In 1939 the State Legislature passed a law authorizing the State Engineer to investigate and compile a complete record of all water rights and water use in the State. In compliance with this law the State Engineer is now working in Golden Valley County compiling these data. Enclosed herewith we are sending you two forms. The first one shows the part of your ownership that covers the potential irrigable land. For this land we would like to know whether or not you intend to irrigate it in the future. On Form WR-A we are listing the one water filing that we have a record of. This we would like to have you check and tell us whether or not it applies to this land, and also fill in the remainder of the form, giving us any and all information you can so that we may have a complete record of your water rights and water use for your protection now and in the future. Remember, this is your water and your water rights that we are trains to help you with . . Very truly yours, Gerald J. Oravet Assistant State Erg. reer GJO/a enc.
