Phil - Phil

1892 Clyde Durand (Clyde's Park), drained small lake and used lake bottom for hay land.

Carl Durand bought the Geo. Nequa Ranch, rebuilt and enlarged the ditches and then sold to Bain Co. Carb. Retained all the water rights on this land.

Carl Durand at one time owned John Oxness's place and may still maintain the J. F. Allen water right.

Nequa ditch, extended from N.E. of Nequa R. not in use. Has been in existence for approx 50 yrs or more.

Res. at ranch Center section 31, supplies water to field in NW 1/4 sec. 31 by means of ditch which is also used for stock water. This ditch and the upper, or S.M. Durand ditch, were rebuilt recently.

The G.A. Cook ditch out of N. Fork Musselshell never carried water to Durand land shown.

No ditch found in sec. 21 other than Holliday ditch.

F.M. + G.A. Cook ditch does not cover land in sec. 29.

No ditch found out of Whitetail Creek.

Ditch diverting from Spring Creek near the center of sec. 31 T10N R10E, was built by Sanford Holliday in 1927. Holliday made no filing on this ditch but he has records of payments to contractor who done work on ditch for him. This ditch irrigated land on point between Spring Creek & the East Fork of Spring Creek.

This ditch has not been used for several years due to disrepair of the ditch. Another ditch filed on by Sanford Holliday ^{see App. No. 1966} of the East Fork of Spring Creek is used as a flood supply supplemental to the above ditch.

Holliday uses the Fern Creek ditch which diverts from the west side of Spring Creek near the north line of sec. 33 T10N R10E. He also uses the Elbow in Woodward ditch (see App. No. 2001) which diverts from the west side of Spring Creek in the NE 1/4 sec. 3 T9N R10E.

Trail Cr.

rd

Ricka Orness probably built ditch in Sec. 34 (Her Homestead)

ditches out of Coulee tributary to Trail Creek in SE 1/4 Sec 18 (10N10E) were built by Wm F Newman. Inderland says he is using all these ditches to irrigate hay. (upper ditch on East side of Cr. is silted full, however Inderland will probably repair and use this ditch as soon as possible. Newman ditches built about 1917-18

Inderland has land under the J.F. Allen ditch and the Lawrence ditch on the West side of Trail Creek in Secs 18 & 19 but he uses neither of these because the J.F. Allen ditch is owned by John Orness & the Lawrence ditch is nearly obliterated.

only one ditch found in SE 1/4 Sec. 34. This is the Holliday ditch out of the East Fork of Spring Crk

6-1950

1 Allen ditch Filed on later by Frisbie.

Allen ditch taken out in center of Sec 18
used to irrigate land in S 1/2 of the Sec 18
in Sec 18 now used by John O'Connell
Allen Ditch, now deep (enlarged & extended)
about 4 years ago by O'Connell. GORT DURAN
MAY HAVE THIS WATER RIGHT or part of it
Lee Lawrence tried to get land in Sec 18 at the same time
O'Connell Filed, probably did not have ditch

Ditches in S 1/2 of Sec 19 & N 1/2 of Sec 20
were built by Clyde Durand
Dam in Sec 19 from built in 1946 or
by O'Connell & new diversion built near
the dam for the upper ditch

O'Connell also has a small ditch out of Trail Creek
to his house, used to irrigate garden and yard
and for stock supply.

Old G.C. Creek ditch extended to section 19 but was
never used on this section to my O'Connell's knowledge.

Ditch from Swamp is using return flow
water from Trail Creek ditch.
