Legal Land Owner. Edward F. Borden, 112 Railway Co. Address. Charlton, Hartford

Operator Robert E. Gibson Address Alhambra, Montana

Water is delivered by:— 1. Private System; 2. Ditch Company; 3. State Project; 4. Federal Project; 5. Irrigation District

[illegible]

NOTE: R—Denotes Regular Irrigation. F—Flood Irrigation.

Adequate Supply: Yes..... No..... Explain.....

Remarks: When with Ethel Bonner. He told me that she owns and operates the land. She said that the reason that no animals are on the property with her is that they own the land that the tracks are on. It is on property that Bonner told me that she has no equipment and that this unit was not being used.

Adequate Supply: Yes..... No..... Explain.....

Remarks.....

* Included 3rd Eastwick. He told me that this land is operated by Ray Bestwick (son of William Bestwick). He also told me that both of these appropriations are being used for irrigation and domestic purposes. The spring on the Miller Appropriation (L. 227) is located in the SW 1/4, Sec. 21, T.15N-R.23W. near the town of Bestwick, Utah. The springs referred to in Fortify Appropriation (R. 419) includes the spring described above plus one located in the SE 1/4, Sec. 34, T.15N-R.23W. Also in Bestwick, Utah. Both springs are enclosed in cement tanks and piped together. Then one pipeline goes to irrigation easement (NW 1/4, Sec. 21) while another pipeline (1 1/2" buried) goes to the house. The water is then piped from the reservoir and is used to sprinkle in the W 1/2 SW, Sec. 34, T.15N-R.23W. & in the NE 1/4, SE 1/4, Sec. 33, T.15N-R. 23W.

Remarks.....

There are 2nd Bedrock canyons along the bank. The Bedrock bed was that this land is owned and controlled by the State. A high agent of the State that Charles G. Hall was the name of the man who purchased the land for the State. Why did this land become a pasture? The water at the rest area comes from a well. They do not use the aquifer. The irrigation of the grass in the rest area is done from a well. There is a small dam. The dam is the river.

Remarks

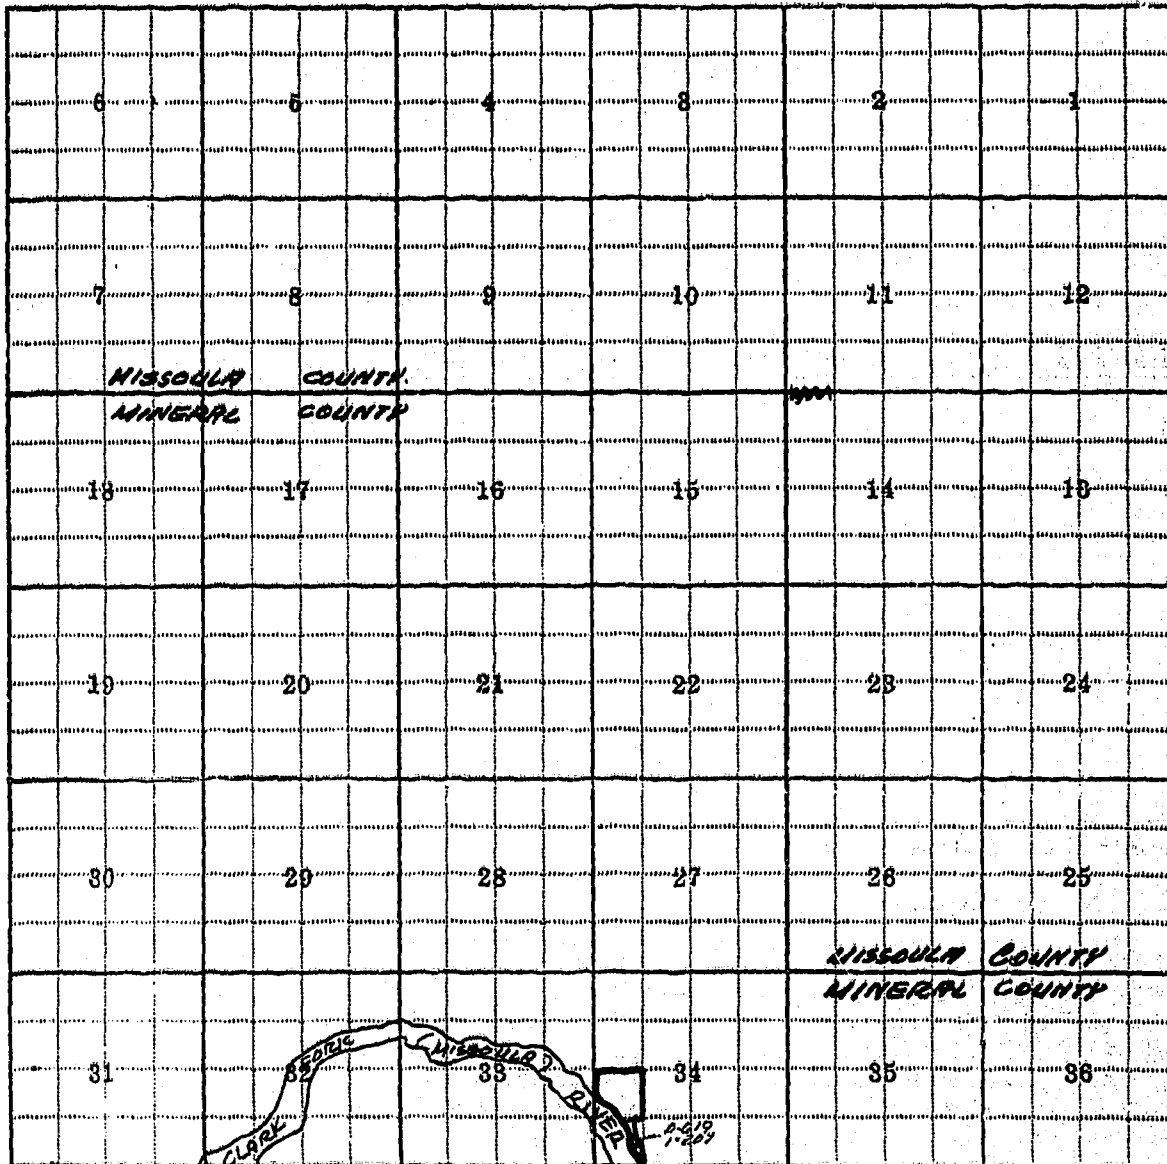

* Connected. Bill Beckwith told me that this land is owned by Ray Beckwith (son of William Beckwith). He also told me that both of these appropriations are being used for irrigation and domestic purposes. The spring on the Miller Appropriation (1-207) is located in the SW SE, Sec. 27, T15N-R23W, near the head of Beckwith Gulch. The springs referred to in Board's Appropriation (A-419) includes the spring described above plus one located in the SE NW, Sec. 28, T15N-R23W. Also in Beckwith Gulch, both springs are enclosed in cement and are cased together. There are pipeline goes to irrigation reservoir (NW SW, Sec. 34) while another, separate line" buried goes to the house. The water is then cased from the reservoir and is used to sprinkle in the W 2 SW, Sec. 34, T15N-R23W & in the NE SE, SE NE, Sec. 25, T15N-R 23W.

Adequate Supply: Yes..... No..... Explain.....
Remarks..... Talked with Bill Bostwick, father of Ray Bostwick and former owner & operator of this land. Mr. Bostwick told me that Apr. 1, 1939, and I did see the same. Mr. Bostwick bought this land from Mrs. Roberts and the Roberts purchased it from Gen. Brown. Mr. Brown had an appropriation on Camp Creek and where Mrs. Roberts bought the land he took out another appropriation with everything the same as Gen. Brown's except instead of on Camp Creek he took it out on Nigger Creek as no one was sure which was the correct name for the creek at that time and Mr. Roberts wanted to make sure he had a right on the correct water over the name may be. Mr. Bostwick showed me location of 1-189 Spring. He also showed the location of Gold Springs. They are not in use as they went dry about 1947. He also told me that Mr. Gardner's appropriation (one) was originally for power plant for the town of Elberton and is not in use.

* This appropriation is being used to irrigate in the E2NW, Section 33, T15N-R23W.

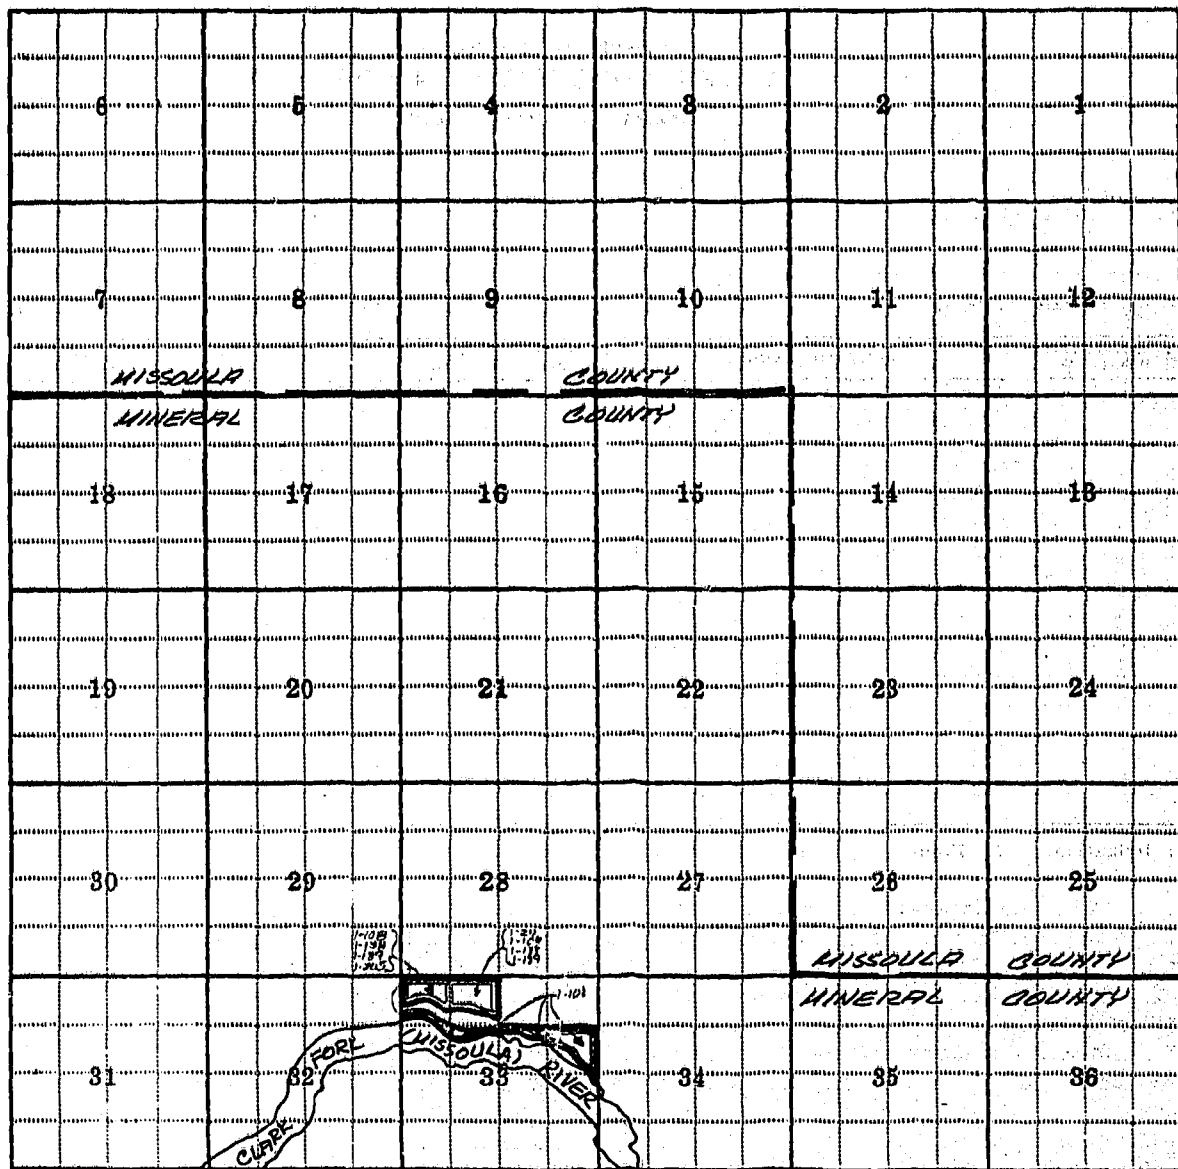

* This appropriation is being used to irrigate in the S2NE, Section 33, T15N-R23W.

Legal Land Owner Charles O'Neil State Highway Department

Address.....

Operator State Highway Department

Address.....

Water is delivered by:— 1. Private System; 2. Ditch Company; 3. State Project; 4. Federal Project; 5. Irrigation District

[illegible]

Adequate Supply: Yes..... No..... Explain.....
Remarks.....

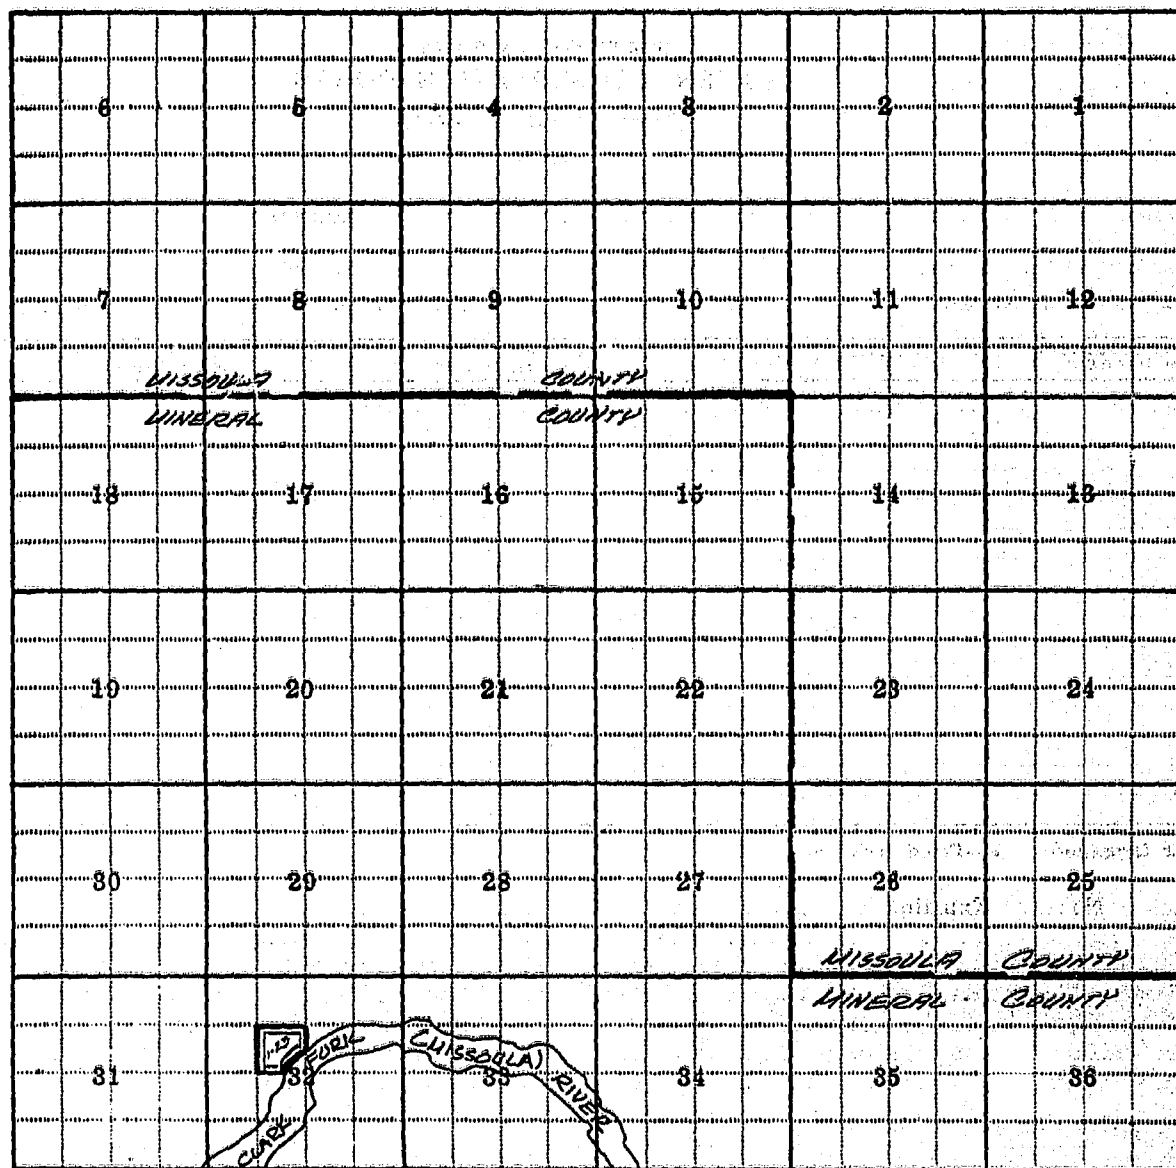

Talked with Bill. Best with concerning this land. He said that this land is owned and operated by the State Highway Dept. He said that Charles A. Neil was the name of the man who purchased this land for the Highway Dept. This land contains a well and the water at the well area comes from a well. They do not use this area for any irrigation. The irrigation of the grass in the rest area is done from a water tank which they fill from the river.
