Condition of System	Topography	River Basin	Columbia River
1. The condition of the system is generally good, with no major problems identified. 2. The system is well maintained and operates efficiently. 3. The system is in good working order and meets all requirements.	1. The topography is generally flat, with some minor variations in elevation. 2. The terrain is mostly level, with some slight slopes. 3. The topography is suitable for the proposed system.	1. The river basin is generally well defined, with clear boundaries. 2. The basin is well managed and operates efficiently. 3. The basin is in good working order and meets all requirements.	1. The Columbia River is generally well managed and operates efficiently. 2. The river is well maintained and meets all requirements. 3. The river is in good working order and meets all requirements.

Adequate Supply: Yes No Explain
Remarks Was going to irrigate A. C. M. land. Cost too much to put ditch over rock bars to warrant expense.
