Re: Flood Irrigation Great Porcupine Creek

Dear Sir:

In accordance with the 1939 Session Law (Section 349.58 Montana Session Laws) requiring the State Engineer to investigate and prepare a complete record of all water rights in Montana, the State Engineer has been conducting a water resources survey in Rosebud County.

We are unable to find a recorded water filing for the land that you irrigate in $W\frac{1}{2}$ Sec. 28, T. 10N., R. 37E.

If a filing was made for this land we would like to have you send us the name of the appropriator, the date filed on, and the number of inches filed on. If no recorded filing was made we would like to have you send us the name of the first user and the date, or the approximate date, that the land was first irrigated so that we may establish a date of priority for this land.

We would like to have you make this a first on your agenda and send this information to us as soon as possible in the enclosed, stamped, self-addressed envelope.

Very truly yours,

Gerald J. Oravetz
Assistant State Engineer

In accordance with the 1939 Session Law (Section 349.68 Montana Session Laws) requiring the State Engineer to investigate and prepare a complete record of all water rights in Montana, the State Engineer has been conducting a water resources survey in Rosebud County.

We are unable to find a recorded water filing for the land that you irrigate in Sec. 29, T. 10N., R. 37E.
If a filing was made for this land we would like to have you send us the name of the appropriator, the date filed on, and the number of inches filed on. If no recorded filing was made we would like to have you send us the name of the first user and the date, or the approximate date, that the land was first irrigated so that we may establish a date of priority for this land.

We would like to have you make this a first on your agenda and send this information to us as soon as possible in the enclosed, stamped, self-addressed envelope.

April 25-48

Very truly yours,

Dear Sir - In answer to this letter will inform you that we have never filled any water right on sec. 29, T. 37E. and it's never been irrigated we use it only for

Gerald J. Oravetz
Assistant State Engineer

Pasture whenever there is any water on it, a creek runs through the land but it has been dry for nearly year, it seldom rains or snows enof to make any water. It's rather a dry Country

Re: Potential Irrigable Land,
Tributary Great Porcupine Creek

Dear Sir:

In accordance with the 1939 Session Law (Section 349.68 Montana Session Laws) requiring the State Engineer to investigate and prepare a complete record of all water rights in Montana, the State Engineer has been conducting a water resources survey in Rosebud County.

We are unable to find a recorded water filing for the land that you irrigate in S $\frac{1}{2}$ Sec. 4, T. 8N., R. 38E. If a filing was made for this land we would like to have you send us the name of the appropriator, the date filed on, and the number of inches filed on. If no recorded filing was made we would like to have you send us the name of the first user and the date, or the approximate date, that the land was first irrigated so that we may establish a date of priority for this land.

We would like to have you make this a first on your agenda and send this information to us as soon as possible in the enclosed, stamped, self-addressed envelope.

Very truly yours,

Gerald J. Oravetz

in reply to your request I do not know
hardly know to answer it as I have been inform-

water rights on those W.P.A. Projects. any how
I am paying toward the Water Conservation
Every year; all the I am not irrigating as a
Person. can't irrigate with all water in the
18 here this Reservoir has been in at least given
me a little head water but not enough to
Encourage a fellow much as most all of
the Excess Water went through the Spillway
into the Reservoir below mine. there is all the
Three Reservoirs above mine that hold up
the water; so I fear my part don't see no use
in filing as a Dry Creek there has not run
water in this Creek since June 16-1947 and
my Reservoir is dry has been for quite awhile
If I am to file water right let me know all the where
to file as we have no Land Commissioner in Roubid

Very truly yours,

Dear Sir - In answer to this letter will inform you that

Gerald J. Oravetz
Assistant State Engineer

we have never filled any water right on sec. 29, T. 10N., R. 37E. and it's never been irrigated we use it only for

Pasture whenever there is any water on it, a creek runs through the land but it has been dry for nearly year, it seldom rains or snows enough to make any water. It's rather a dry country.

Re: Potential Irrigable Land,
Tributary Great Porcupine Creek

Dear Sir:

In accordance with the 1939 Session Law (Section 349.68 Montana Session Laws) requiring the State Engineer to investigate and prepare a complete record of all water rights in Montana, the State Engineer has been conducting a water resources survey in Rosebud County.

We are unable to find a recorded water filing for the land that you irrigate in $S\frac{1}{2}$ Sec. 4, T. 8N., R. 38E.

If a filing was made for this land we would like to have you send us the name of the appropriator, the date filed on, and the number of inches filed on. If no recorded filing was made we would like to have you send us the name of the first user and the date, or the approximate date, that the land was first irrigated so that we may establish a date of priority for this land.

We would like to have you make this a first on your agenda and send this information to us as soon as possible in the enclosed, stamped, self-addressed envelope.

Very truly yours,

Gerald J. Oravetz
