FORM WR-1-2M-12-47

Code No. 16B-21A

County Rosebud

T. 6N R. 39E

Name of Land Owner Anna B. Armstrong Address Forayth, Mont.

Name of Operator _____ Address _____

Part A

TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM
A DITCH COMPANY OR IRRIGATION DISTRICT

1. Water is delivered by: Yellowstone Irr. dist
Name of Ditch, Ditch Company or District Supplying Water ass. ac
2. State the number of acres you irrigate under this system 38 Shares you hold 80.44
3. If you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks." If you obtain water from a Ditch Company and also have a private system fill in both Part A and Part B.

Part B

TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM
or those who have a private water right under a Ditch Company

4. In what year was this land first irrigated? Date (See attached filing)
5. Give the name of the original appropriator (first user): W. H. Armstrong
6. Give the date appropriated _____ Amount filed on: Miners Inches 7 C. F. S. _____
7. State the total number of acres irrigated under this system: _____
8. Give the point of diversion: 1/4 1/4 Section _____ Township _____ Range _____

Part C

TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR PART B

9. Source of Water: Yellowstone River
Name of stream or lake from which water is originally diverted
10. Water is obtained by: (Check one) Gravity ☒ Pumping ☒ Other _____
11. What is the greatest number of acres you have irrigated? ? Date _____
12. How many acres did you irrigate in 1947 (Crop or pasture) 130
13. State the total number of additional acres that could be irrigated by increasing the water supply, land leveling, etc. 80 This land is under what ditch? Yellowstone
14. How many acres of seeped land do you have which could be drained and put into production? 80
15. What is the condition of your irrigation system? Good
16. Is your water supply adequate? Yes ☒ No ☐ Explain _____
17. REMARKS: 80 acres seeped from Yell. Canal
this is the 80 potential - have drains but
land still wet

Name of Land Owner Clark, Zola M. Address Forsyth, Montana
Flanagan, Pat
Name of Operator Paine, E. W. Address "

Part A

TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM
A DITCH COMPANY OR IRRIGATION DISTRICT.

1. Water is delivered by: Yellowstone Irrigation District
Name of Ditch, Ditch Company or District Supplying Water
2. State the number of acres you irrigate under this system 20 Shares you hold
3. If you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks." If you obtain water from a Ditch Company and also have a private system fill in both Part A and Part B.

Part B

TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM
or those who have a private water right under a Ditch Company

4. In what year was this land first irrigated? Date
5. Give the name of the original appropriator (first user):
6. Give the date appropriated Amount filed on: Miners Inches C. F. S.
7. State the total number of acres irrigated under this system:
8. Give the point of diversion: $\frac{1}{4}$ $\frac{1}{4}$ Section Township Range

Part C

TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR PART B

9. Source of Water: Yellowstone River
Name of stream or lake from which water is originally diverted
10. Water is obtained by: (Check one) Gravity ☒ Pumping Other
11. What is the greatest number of acres you have irrigated? 20 Date 1947
12. How many acres did you irrigate in 1947? (Crop and pasture) 20
13. State the total number of additional acres that could be irrigated by increasing the water supply, land leveling, etc. 15 This land is under what ditch? Yellowstone Irrigation Dist.
14. How many acres of seeped land do you have which could be drained and put into production? None
15. What is the condition of your irrigation system? Good
16. Is your water supply adequate? Yes ☒ No Explain
17. REMARKS:

STATE OF MONTANA

STATE ENGINEER

BILLINGS, MONTANA

March 3, 1948

Mr. Otto Krueger
Forsyth, Montana

Re: Water Rights on Irrigated Land.

Dear Sir:

In order that we in Montana will be able to present facts as to the amount of land we are now irrigating, protect our water rights, and keep Montana water in Montana, the Montana State Legislature enacted a law (Section 349.68 Montana Session Laws) requiring the State Engineer to investigate and prepare a complete record and maps of all water rights in the state. In compliance with this law all water users in Rosebud County are being requested to supply information regarding their use of water, whether or not they are under a ditch company, irrigation district, or have a private water right and diversion system.

Our field party, during the summer of 1947, classified your land and mapped your irrigation facilities as shown on the enclosed form. Before we accept this survey as final there are a few questions on the enclosed form that we would like to have you answer. We are, therefore, asking you to help us by answering these questions which pertain to the land shown thereon.

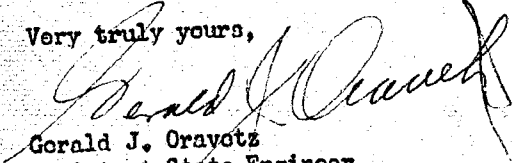

The adjoining states have already compiled records of their water use in the Missouri River Basin for the protection of their water rights. It is, therefore, necessary that we do the same in Montana. To date we have completed our survey in Yellowstone, Carbon, Stillwater, and Big Horn counties, and have had 100% cooperation from all of the water users in these counties. I am certain that we can expect the same support in Rosebud County. As Montana is the only western state which has not provided by statute for a centralized state control over the appropriation and the administration of water, we in Montana must be vigilant and do everything possible to protect the rights we have against outside infringement. These rights have been challenged by interests outside the State of Montana--particularly the navigation interests of down stream states and also the water users in neighboring states through which our interstate streams flow. In order to protect our water rights we must have a record of them and of their present uses. We feel that the only way we can obtain this information

page two

accurately is by a field survey and from the water users or the man that is on the land. We have been working for the past eight months in Rosebud County checking farm by farm. The results of this survey are shown on the map on the enclosed form. In order to have a further check we want you to verify our classification of the land you irrigate and of the land we have shown as potential irrigable land. If there is any information that we have compiled on this form which is not correct we would like to have you change it. We are also depending on you to fill in the questions on this form and mail it to us in the self-addressed envelope at your earliest possible convenience so that we will have the necessary information in the State Engineer's Office to protect your water right in case of litigation.

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and 4th Avenue North. If there is anything that is not clear, or if you should seek further information we would appreciate your calling on us.

Very truly yours,

Gerald J. Oravetz
Assistant State Engineer

GJO/a
enc.

P.S. If you cannot supply us with the information we requested, it may be that you can tell us of someone who can. These forms are the property of the State of Montana and must be returned to the State Engineer's Office in Billings.

Forsyth, Mont
March 11, 1948

Mr. S. J. Oravetz
State Engineer
Billings, Mont.

Dear Sir,

The land you have described here in
was sold to Merle R. Krueger ^{Forsyth, Mont.} in Feb. of
1947. In order to help keep the records straight
I'm returning the papers to you.

After selling the above mentioned land
I bought under contract the following
described land in Rosebud Co.:

W $\frac{1}{2}$ NE $\frac{1}{4}$ and lot 5 Sec. 9

lots 3, 7, 8, 9, 10, 11 and 12 of Sec 9

lots 7, 8, 9, + 10 and SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 10

lot 4 of Sec. 15. All in township 6 N range 39E

Would you please send me similar papers
for this land. It is listed in the name of

Herman Weber of Roundup Mont. Thank You!

Yours truly

Otto L. Krueger
Forsyth, Mont.

(Show date of appropriation under Remarks)

Is the system an extension of another system?

Yes _____ No ☒

Is all land irrigated from one system?

Yes _____ No ☒

(If No, show break down on map)

Source of Water. Big Porcupine Crk & has pump out of Hammered ditch

Acres Irrigated 19 47, 90 a

Potential Acres 2,000,000 Seeped 0

Explain.

Condition of System good

Adequate Supply Yes No ☒

Explain depends on rain water filling B.P. Crk

Topography Abottom land

Information From D. L. Loveff

Remarks 489-4/8/93

Sec 3 T6N R39E

McCain put pump system in in 1992 has used it every year since (out of Hammond ditch)

The small 4" pump out of Porcupine irrigates small garden only. The flood system consists of dikes to hold the water out on the hay land. There is no dam in the crk. to make it flood so the crk. which has a deep channel (10' to 15') must be bank full to flood.

Address

Part A

TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM
A DITCH COMPANY OR IRRIGATION DISTRICT

1. Water is delivered by: Hammond Irrigation Company
Name of Ditch, Ditch Company or District Supplying Water
2. State the number of acres you irrigate under this system 70 Shares you hold 3 1/2 (all share)
3. If you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks." If you obtain water from a Ditch Company and also have a private system fill in both Part A and Part B.

Part B

TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM
or those who have a private water right under a Ditch Company

4. In what year was this land first irrigated? Date
5. Give the name of the original appropriator (first user):
6. Give the date appropriated Amount filed on: Miners Inches C. F. S.
7. State the total number of acres irrigated under this system:
8. Give the point of diversion: 1/4 1/4 Section Township Range

Part C

TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR PART B

9. Source of Water: Yellowstone River
Name of stream or lake from which water is originally diverted
10. Water is obtained by: (Check one) Gravity ☐ Pumping ☒ Other ☐
11. What is the greatest number of acres you have irrigated? 70 Date 1947
12. How many acres did you irrigate in 1947? (Crop and pasture) 70
13. State the total number of additional acres that could be irrigated by increasing the water supply, land leveling, etc. 30 This land is under what ditch? Hammond Irrigation Co.
14. How many acres of seeped land do you have which could be drained and put into production? 2 or 3 acres
15. What is the condition of your irrigation system? Good
16. Is your water supply adequate? Yes ☒ No ☐ Explain

OFFICE OF
COUNTY ASSESSOR

ROSEBUD COUNTY
FORSYTH, MONTANA

ARTHUR E. POOCK, Assessor

April 2, 1948.

Dear Sir:

Pardon the lack of salutation, but I do not know your name, nor your official designation, so will have to do the best that I can.

I am writing this letter at the request of Katherine E. Reichert who has been in this office, trying to get her land straightened out. She claims that you told her that she was being assessed for land that belongs to Mr. Cartwright. We have made a careful check of the land that is assessed to Mrs. Reichert, also that assessed to Cartwright, and I can frankly say that I do not see where we are in error. We checked the deeds, the Hammond Irrigation District assessment for water, and our assessment lists, and still find no error.

Kindly write to me, or call, if you prefer, and advise where our assessment is wrong. Listed below is a copy of the land description, as assessed to Mrs. Reichert:- NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, that part of SE $\frac{1}{4}$ NE $\frac{1}{4}$ south of Porc. Creek, and Lots 1-2-3-4, Section 10-6N-39E.

Assessed to Cartwright is-NE $\frac{1}{4}$ NE $\frac{1}{4}$, and that part of SE $\frac{1}{4}$ NE $\frac{1}{4}$ north of Porc. Creek, Section 10-6N-39E. Also NW $\frac{1}{4}$ NW $\frac{1}{4}$, and that part of SW $\frac{1}{4}$ NW $\frac{1}{4}$, north of Porc. Creek, Sec. 11-6-39.

Also assessed to Mrs. Reichert is -Part of SW $\frac{1}{4}$ NW $\frac{1}{4}$, so. of Porc. Creek, and Part of NW $\frac{1}{4}$ SW $\frac{1}{4}$, west of Creek, Section 11-6-39.

The Hammond Irrigation District lists 157 acres of land under water, for Mrs. Reichert. We have 156 acres classified as ~~irrigable~~ irrigable.

Would appreciate hearing from you, as we try to have our land descriptions, and our assessments correct.

Yours truly

Arthur E. Poock
Arthur E. Poock,
Assessor, Rosebud County.

April 7, 1948

Mr. Arthur Poock
County Assessor
Forsyth, Montana

Dear Mr. Poock:

Katherine E. Reichert was just in the office and brought in a letter, evidently written to me by you, in regard to county assessments covering her land.

I was extremely glad to get your letter as it straightened out our records pertaining to Mrs. Reichert's land and also the adjoining land. Sometime ago Mrs. Reichert was in the office and we found that we had a discrepancy someplace in our records, as we showed the NE $\frac{1}{4}$ of Section 10, T. 6N., R. 39E., being assessed to Mr. Cartwright and also to Mrs. Reichert. At the time she was in the office I asked her if she would, the next time she was in Forsyth, check with the County Assessor to see where this discrepancy was, as it appeared from our records she was being assessed 39.1 acres in the NE $\frac{1}{4}$, and Mr. Cartwright was also being assessed for this same land. The discrepancy was evidently in the transcription of the Hammond Irrigation District records, as in these records we had the NE $\frac{1}{4}$ for both Mrs. Reichert and Mr. Cartwright. Upon receipt of your letter I find that Mrs. Reichert should have been assessed for the NE $\frac{1}{4}$, which straightened out the entire discrepancy.

I wish to thank you again for writing this letter straightening out this matter and also wish to emphasize that we in no way meant to infer that your records were not accurate or up-to-date in your County Courthouse. As you no doubt know, since the original land survey was made along the Yellowstone River the river channel has changed considerably, thus making it very difficult to correctly plot the land as it now is today. I might further state that when the work that we are doing in Rosebud County is completed, a write-up and set of maps in book form, showing all irrigated land, streams, roads, etc. as they exist today will be made available to you and anyone in Rosebud County who might have use of these publications.

Page two

We are enclosing a plat of Mrs. Reichert's land as we have it mapped, showing the part that is now irrigated or was irrigated in 1947. For each farm or farm unit in Rosebud County these same individual maps have been made. According to our survey we show 109.9 acres being irrigated by Mrs. Reichert in 1947.

Very truly yours,

Gerald S. Oravetz
Assistant State Engineer
