REMARKS: _____

If you cannot answer all of the questions on this form answer as many as you can and return the form to us as soon as possible.

THURBER'S, HELENA

Place

Our records show that you have an appropriation made by Forrest H. Young, appropriated April 1, 1886 and filed April 4, 1890 from Young Creek, for 100 minors inches. Is this appropriation now in use?

Billings,
XXXXXXX

February 19, 1945

Phillip Frickel
Park City, Montana

Dear Mr. Frickel:

On January 19th, this office sent you a letter asking for certain information pertaining to your irrigated land in township 2 south, range 22 east. To date we have not heard from you. With the vast post war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Basin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unforeseen thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Water is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Remember: "United we stand, divided we fall".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Oravetz
Assistant State Engineer

P.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Billings,
XXXXXXXX

March 29, 1945

Phillip Frickel
Park City, Montana

Dear Mr. Frickel:

On January 18th, we sent you a letter asking for certain information pertaining to your irrigated land in township 2 south, range 22 east. On February 19th, we sent you another letter asking you to submit the information to us as soon as possible. To date we have not heard from you regarding this matter.

It is hereby declared to be a policy of the State and necessary for the welfare of the State and its citizens, that the waters of this State, and especially interstate streams arising out of the State, be investigated. The State Engineer shall, either before or after the bringing of such action (to adjudicate the waters of any stream and its tributaries in any county traversed by said stream), upon the direction of the State Water Conservation Board, or upon the direction of the court, do all things, make all surveys, and perform all services required by said board in the securing of all necessary information and make the same available to said board or others who may be interested therein, including the courts of this State.

In order to protect the water rights of the water users in this state it is mandatory that the State Engineer have the information that we have asked you to submit to this office. If you have sold the piece of land about which we wrote you, will you please give us the name and address of the new owner.

We expect to hear from you in the very near future.

Very truly yours,

Gerald J. Gravetz
Assistant State Engineer

EARL V. CLINE

Gerald J. Oravetz
Assistant State Engineer
Box 873
Billings, Montana

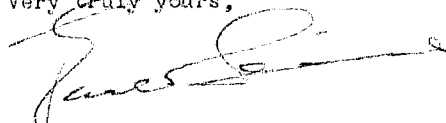

Dear Mr. Oravetz:

Mr. Phillip Frickel has just received a letter addressed to him at Park City, Montana, dated March 29, 1945.

In said letter you advise that you wrote him on January 18th asking for certain information regarding his ranch in Township 2 South, Range 22 East. You further advise that you wrote him again on February 19th. Mr. Frickel never received those letters. If you will kindly mail copies of the letters to me on his behalf I will submit them to Mr. Frickel for his consideration.

Mr. Frickel's correct address is 2614 Fifth Avenue South, Billings, Montana.

Very truly yours,

Earl V. Cline
EVC:lm

April 9, 1945

Earl V. Cline
Billings, Montana

Dear Mr. Cline:

Your letter of April 6th regarding the Phillip Frickel land in township 2 south, range 22 east has been received. We are enclosing a water resources survey form showing a map of the Frickel land with the irrigated portion shown in blue and the ownership boundary in red. On this form we have also shown the source of water, acreage irrigated and the number of shares held in the Big Ditch Company. What we would like to have you do is to verify this form and return it to us. If any of the information we have compiled is not accurate we would like to have you make the necessary changes. As you may know we have conducted this work in Yellowstone and Carbon counties and have about seventy five percent of the work completed in Stillwater.

Very truly yours,

Gerald J. Oravetz
Assistant State Engineer

TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM
A DITCH COMPANY OR IRRIGATION DISTRICT

1. Water is delivered by Big Ditch Co. & Grove Ditch Co., as operators for Yellowstone Ditch Co.
Name of Ditch, Ditch Company or District supplying water
2. State the number of acres you irrigate under this system. _____ shares you hold _____
3. If you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks". If you obtain water from a Ditch Company and also have a private system fill in both Part A and Part B.

Part B

TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM
or those who have a private water right under a Ditch Company

4. In what year was this land first irrigated? Date _____
5. Give the name of the original appropriator (first user): Charles Temple, et al.
6. Give the date appropriated Nov 22-1874 Amount filed on: Miners-Inches 2000 C.F.S.
7. State the total number of acres irrigated under this system: _____
8. Give the point of diversion: 1/4 Section 15 Township 24 N Range 21 E

Part C

TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR PART B

9. Source of Water: Yellowstone River
Name of stream or lake from which water is originally diverted
10. Water is obtained by: (Check one) Gravity ☒ Pumping _____ Other _____
11. What is the greatest number of acres you have irrigated? 153 Date 1944
12. How many acres did you irrigate in 1944? (Crop and pasture) 153
13. State the total number of additional acres that could be irrigated by increasing the water supply, land leveling, etc. 20 This land is under what ditch? Grove (operators of Yellowstone)
14. How many acres of seeped land do you have which could be drained and put into production? None
15. What is the condition of your irrigation system? Excellent
16. Is your water supply adequate? Yes ☒ No _____ Explain _____
17. REMARKS: We own 38 1/2 shares of Big Ditch stock. There are 153 irrigable acres under the Big Ditch, less 13 acres in R.R.R/W (we have irrigated a portion of this R/W in past years) and about 4 acres in Big Ditch R/W. We own either 3.38 or 6.76 shares of Yellowstone ditch stock, enough to irrigate 40 acres. Grove Ditch Co. operates this under agreement, where we pay no O&M charges.

June 20-45

Mrs G. J. Crevettz.
Billings
Mont

Dear Sir:

This is all information
I can give you. As I always
had my tenant take care of
place. Last fall I sold to
Lawrie Hergett. \$45. Custer Ave
And he may help you as he
has known place for some
time. We always had plenty
water. I had 30 shares but
only used 25 for place and
have leased. There I kept
5 shares sold 1. and can
lease other 4. So that leaves
25 with place.

Man that is on now

has only been on 1 yr
But if there is any more
you would like know I
can take it up with my
last tenant. He was on
for 9 years.

The Description is OK

Yours Truly

Billings,
XXXXXX

February 19, 1945

Ralph Story
Park City, Montana

Dear Mr. Story:

On January 18th, this office sent you a letter asking for certain information pertaining to your irrigated land in township 2 south, range 22 east. To date we have not heard from you. With the vast post war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Basin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unforeseen thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Water is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Remember: "United we stand, divided we fall".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Oravetz
Assistant State Engineer

P.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

February 19, 1945

Clarence Tilden
Park City, Montana

Dear Mr. Tilden:

On January 22nd, this office sent you a letter asking for certain information pertaining to your irrigated land in township 2 south, range 22 east, and township 3 south, range 22 east. To date we have not heard from you. With the vast post war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Basin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unforeseen thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Water is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Remember: "United we stand, divided we fall".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Oravetz
Assistant State Engineer

P.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Form WR-1-13M-11-44

Code No. 32 A, 5-B

County Stillwater

T. 2 S. R. 22 E.

Name of Land Owner Walt. Williams Address Park City, Montana

Name of Operator _____ Address _____

Part A

TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM
A DITCH COMPANY OR IRRIGATION DISTRICT

1. Water is delivered by: Central Ditch Co. Stillwater Ditch Co.
Name of Ditch, Ditch Company or District supplying water
2. State the number of acres you irrigate under this system 25 Shares you hold 2
3. If you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks". If you obtain water from a Ditch Company and also have a private system fill in both Part A and Part B.

Part B

TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM
or those who have a private water right under a Ditch Company

4. In what year was this land first irrigated? Date _____
5. Give the name of the original appropriator (first user): Charles Temple, et al.
6. Give the date appropriated Mar. 22-1898 Amount filed on: Miners Inches 5000 C. F. S. _____
7. State the total number of acres irrigated under this system: _____
8. Give the point of diversion: 1/4 1/4 Section 5 Township 24N Range 21E

Part C

TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR PART B

9. Source of Water: Yellowstone River
Name of stream or lake from which water is originally diverted
10. Water is obtained by: (Check one) Gravity ✓ Pumping _____ Other _____
11. What is the greatest number of acres you have irrigated? 55 Date _____
12. How many acres did you irrigate in 1944? (Crop and pasture) 55
13. State the total number of additional acres that could be irrigated by increasing the water supply, land leveling, etc. 0 This land is under what ditch? _____
14. How many acres of seeped land do you have which could be drained and put into production? _____
15. What is the condition of your irrigation system? Good
16. Is your water supply adequate? Yes ✓ No _____ Explain _____
17. REMARKS: _____

NOTE: The foregoing questions apply only to irrigated land shown on this plat.
