Information by

Our records show that you have an appropriation made by F. W. Phelps; appropriated Aug. 13, 1895 and filed Aug. 13, 1895 from Stillwater Miver for 1200 miner's inches. Is this appropriation now in use?

Our records show that you have an appropriation made by Sophie Carstens, appropriated June 15, 1915 and filed July 14, 1915 from Rosebud River for 50 miner's inches. Is this appropriation now in use?

Billings,

March 24, 1945

Joe Fox Absarokee, Montana

Dear Mr. Fox:

On February 9th, this office sent the aletter asking for certain information pertaining to your irrigated land in township 3 south, range 18 east. To date we have not heard from you. With the vast post war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Basin in Montans. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unforseen thing happened at the time our first letter was received, and you put it aside to be enswered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Water is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Remember: "United we stand, divided we fall".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

P.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Billings,

April 10, 1945

Joe Yox Absarokee, Montana

Dear Hr. Fox:

On February 9th, we sent you a letter asking for certain information pertaining to your irrigated land in township 3 south, range 18 east. On March 24th we sent you another letter asking you to submit the information to us as soon as possible. To date we have not heard from you regarding this matter.

It is hereby declared to be a policy of the State and necessary for the relfare of the State and its citizens, that the waters of this State, and especially interstate streams arising out of the State, be investigated. The State Engineer shall, either before or after the bringing of such action (to adjudicate the waters of any stream and its tributaries in any county traversed by said stream), upon the direction of the State Water Conservation Board, or upon the direction of the court, do all things, make all surveys, and perform all services required by said board in the securing of all necessary information and make the same available to said board or others who may be interested therein, including the courts of this State.

In order to protect the water rights of the water users in this state it is mendatory that the State Engineer have the information that we have esked you to submit to this office. If you have sold the piece of land about which we wrote you, will you please give us the name and address of the new owner.

We espect to hear from you in the very near future.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

Billings,

April 16, 1945

Elton Sherwood Absarokee, Montana

Dear Mr. Sherwood:

In order that we in Montana will be able to present facts as to the amount of land we are now irrigating, protect our water rights, and keep Montana water in Montana, Session Laws) requiring the State Engineer to investigate and prepare ancomplete record of all water rights in the state. In compliance with this la all water users in the state are being requested to supply information regarding their use of water. We are therefore asking you to help us by answering the questions on the enclosed form which pertain to your land.

The adjoining states have already compiled records of their water use in this basin for the protection of their rights. It is therefore necessary that we do the same in Montana. We have completed our survey in Yellowstone and Carbon Counties and have had 100 percent cooperation from all of the water users in these counties, and I am sure we can expect the same support in Stillwater County. It might interest you to know that before we started our survey it was estimated that there were 162,000 acres of irrigated land in the two counties. We have found that there are 204,674.82 acres being irrigated and 49,422.61 acres of potential land under the existing works. This is a notable difference, and especially so in regard to the forthcoming division of water between states which the Congress of the United States has authorized.

We in Montana must be vigilant and do everything possible to protect the rights we have. These rights are being challenged by interests outside of the State of Montana, particularly the navigation interest of downstream states, and also the water users in the neighboring states through which our interstate streams flow. In order to protect these rights we must have a record of them and their present uses. The only way we can obtain this information is from the water user.

We are therefore depending on you to fill in the enclosed form and mail it to us in the enclosed self-addressed envelope at your earliest possible convenience. If any of the information we have compiled on the enclosed form is not correct we will greatly appreciate your making the necessary corrections.

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us. Our phone number is 3777.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

March 24, 1945

Mrs. Adelia Hart Absarokee, Montana

Dear Mrs. Hart:

On March 1st, this office sent you a letter asking for certain information pertaining to your irrigated land in township 3 south, range 18 east, and in township 4 south, range 18 east. To date we have not heard from you. With the vast post war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Basin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unforment thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Water is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Memember: "United we stand, divided we fall".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on use.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

P. 3. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Our records show that you have an appropriation made by F. W. Phelps, appropriated Aug. 13, 1895 and filed Aug. 13, 1895 from Stillwater River for 1200 miner's inches. Is this appropriation now in use?

Our records show that on Dec. 11, 1911 a water right was decreed under Case No. 0110 for 110 miner's inches from the Stillwater River covering this land with a date of priority as of Aug. 1, 1893 showing the original appropriator as L. E. Stone & Jessie Erb.

Our records show that you have an appropriation made by Thomas W. Hufford, appropriated Aug. 20, 1904 and filed Sep. 10, 1904 from Stillwater River for 100 miner's inches.

Absarokee, Mont.

Apr. 13, 1945.

Mr. Gerald J. Oravetz, Ass't. State Engineer, Billings, Mont.

Dear Mr. Oravetz:-

I have your recent letter regarding irrigated land on my land described as the Sasa of Sec. 30 in Twp. 3 So. Range 18 E.

I want to say that I bought this land sometime ago after it had changed hands many times, and to the best of my knowledge I have 50 acres of land that can be irrigated from the Knause & Becker Ditch and about 20 acres that can be irrigated from the Walter B. Il ditch, these men were to origional owners of the irrigation ditch and I do not know if the water rights were ever filed or what dates the filings were made, but I trust this will give you the desired information.

Yours very truly,

Edna C. Johnson.

Billings,

April 10, 1945

Edna C, Johnson Absaroksa, Montana

Dear Madam:

On March 16th, this office sent you a letter asking for certain information pertaining to your irrigated land in township 3 south, range 18 east. To date we have not heard from you. With the vast poet war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Basin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone also because it is part of your business. It may be that you were busy with your farm work or some unforseen thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Mater is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Hemember: "United we stand, diffided we fall".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Cerald J. Oravetz Assistant State Engineer

P.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

bear ar. orwate.

If you want information concerning the Phelie Tintinger ditch, I ruggest that you write or contact ar. J. Earry Tright, Noute one Absarance. I den't know just shat his title is, but he seems to man age this ditch. There are I belive, some ten or twelve water rose on this ditch bosines me.

Ja, by the Mindental aller Co

Our records show that you have an appropriation made by Kendenhall Ditch Co. appropriated May 1, 1892 and Flied December 12, 1929 from Stillwater River for 2020 miner's inches. Is this appropriation now in use?

Our records show that you have an appropriation made by John C. Tintinger appropriated April 25, 1903 and filed April 28, 1903 from Stillwater River for 100 miner's inches. Is this appropriation now in use?

Our records show that you have an appropriation made by F. W. Phelps, appropriated Aug. 13, 1895 and filed Aug. 13, 1895 from Stillwater River for 1200 miner's inches. Is this appropriation now in use?

Our records show that you have an appropriation made by F. . Tholps, appropriated Aug. 13, 1895 and filed Aug. 13, 1895 from it limiter diver for 1200 miner's inches. Is this appropriation now in use.

Our records show that you have an appropriation made by John C. Tintinger appropriated april 25, 1903 and filed april 28, 1903 from Stillwater Hiver for 100 miner's inches. Is this appropriation new in use?

Our records show that you have an appropriation made by Mendenhall Ditch Co. appropriated May 1, 1892 and filed December 12, 1929 from Stillwater Miver for 2000 miner's inches. Is this appropriation now in use?

March 15, 1945

Albert Johnson Absarokee, Montana

iinger ute one re on

Dear Mr. Johnson:

we wish to take this time to thank your prompt and efficient manner in which you have filled the water resources form for your ranch on the Stillwater River. Since that time we have found that you are the owner of other parts of land which were not included in your first form. We are sorry that this error occurred and that we did not enclose this with the form we sent you previously. On your first form you stated that you had irrigated 500 acres in 1937 and 450 in 1944 and had 60 acres of potential land. If these figures include the land in Section 16 which we are sending to you give us an estimate of how much of that irrigated land is in section 16. If they were not, please give the total irrigated acreage in section 16 if irrigated. If not irrigated, the potential acreage.

Very truly yours,

Gerald J. Oravetz Ass't State Engineer

Billings,

March 24, 1945

J. H. Mendenhall Absarokee, Montana

Dear Mr. Mendenhall:

On February 9th, this office sent you a letter asking for certain information pertaining to your irrigated land in township 3 south, range 18 east. To date we have not heard from you. With the vast post war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Basin in Montana. This information is necessary to protect our prosent water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyons slee because it is part of your business. It may be that you were busy with your farm work or some unforseen thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Water is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Memember: "Whited we stand, divided we fall".

an order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenut North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Orsvets Assistant State Engineer

P. S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Our records show that you have an appropriation made by James R. Mendenhall, appropriated Oct. 15, 1901 and filed Oct. 16, 1901 from Stillwater Creek for 200 miner's inches. Is this appropriation now in use?

Our records show that you have an appropriation made by F. W. Phelps, appropriated Aug. 13, 1895 and filed Aug. 13, 1895 from Stillwater River for 1200 miner's inches. Is this appropriation now in use?

Our records show that you have an appropriation made by Mendenhall Ditch Co., appropriated May 1, 1892 and filed December 12, 1929 from Stillwater hiver for 2020 miner's inches. Is this appropriation now in use?

yer

Our records show that you have an appropriation made by Eliza & John Jackson, appropriated November 5, 1892 and filed November 5, 1892 from Rosebud River for 300 miner's inches. Is this appropriation now in use?

ALSO

Our records show that you have an appropriation made by Peter L. Fuchs, appropriated June 1, 1925 and filed Aug. 1, 1928 from Rosebud River for 100 miner's inches. Is this appropriation now in use?

Fillinge,

April 10, 1945

J. R. Mendenhall Absarokse, Montana

Dear Mr. Mendenhall:

On Vebruary 9th we sent you a letter askingffor certain information pertaining to your irrigated lend in township 3 south range 18 east. On March 24th we sent you another letter asking you to submit the information to us as soon as possible. To date we have not heard from you regarding this matter.

It is hereby declared to be a policy of the State and necessary for the welfare of the State and its citizens, that the waters of this State, and especially interstate streams arising out of the State, be investigated. The State Engineer shall, either before or after the bridging of such action (to adjudicate the vaters of any stream and its tributaries in any county traversed by said stream), upon the direction of the State Mater Conservation Board, or upon the direction of the court, do all things, make all surveys, and perform all services required by said board in the scenning of all necessary information and make the same available to said board or others who may be interested therein, including the courts of this State.

In order to protect the water rights of the water users in this state it is mandatory that the State Engineer have the information that we have asked you to submit to this office. If you have sold the place of land about which we wrote you, will you please give us the name and address of the new owner.

We expect to hear from you in the very near future. We have received a letter from Dean Mendenhall stating that he has a 3 acre tract with 2 acres irrigated. The land that we are interested in is lieted under J. R. Mendenhall.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer Absaroker Montana. March 29,1945.

State of Montana. Utali Engineer. Billings. Montana.

Dear Sin, I am using water out of a private ditch and have been for several years.

The head of the ditch is in Sic 35 T35

R 18 E. I and is located in the North central part of the SW4 of the NW4 of 5,36 T3 S, R.18 E, part of the SW4 of the Way of 5,36 T3 S, R.18 E, and I of this will help your It is a 3 area trach when weeled about a decrease inigated.

3 area trach when yours truly material

	VITNESS:	Information by		
		Place		

Our records show that on Dec. 17, 1908 a water right was decreed under Case No. Oll for 90 miners inches from the Stillwater miver covering this land with a date of priority as of June 23, 1893 showing the original appropriator as John Hiddle.

also
Our records show that you have an appropriation in Stillwater County, Book 3,
Our records show that you have an appropriation in Stillwater County, Book 3,
Page 234, Record Misc., made by F. W. Phelps, appropriated April 1, 1891 and filed
Aug 13, 1895 from Stillwater River for 1200 miners inches. Is this appropriation
now in use?

also Our records show that you have an appropriation in Stillwater County, Book 4, Our records show that you have an appropriation in Stillwater County, Book 4, Page 604, Record Misc., made by John C. Lintinger, appropriated April 25, 1903 and filed April 28, 1903 from the Stillwater River for 100 miners inches. Is this appropriation now in use?

March 24, 1945

Geo. Miller Absarokee,

Doar Mr. Willer:

On March 9th, this office sent you a letter asking for certain information pertaining to your irrigated land in township 3 south, range 16 east; in 3 south, 17 east and in 4 south, 17 east. To date we have not heard from you. With the Vast post war water development in this area as now planned, it is assential that we have this information in order to show the extent of our water use in the Yallowstone Basin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unforseen thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Mater is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We must keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Remember: "United we stard, divided we fall",

In order to facilitate this work a branch office of the State Engineer has been cetablished in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would approximate your calling on us.

Hoping to hear from you in the very near future, I am,

Very traly yours,

Gerald J. Oravetz Assistant State Engineer

P.S. If you cannot supply us with the information requested, it maybbe that you can tell us of someone who can.

### Billings,

April 10, 1945

Geo. Willer Absarokes, Kontana

Dear Mr. Miller:

On March 9th we sent you a letter asking for certain information pertaining to your irrigated fami in township 3 south range 17 east, and in 4 south range 17 east. On March 24th we sent you another letter asking you to sufmit the information to us as soon as possible. To date we have not heard from you regarding this matter.

It is hereby declared to be a policy of the State and necessary for the welfare of the State and its citizens, that the vaters of this State, and especially interstate streams arising out of the State, be investigated. The State angineer shall, either before or after the bringing of such action (to adjudicate the waters of any stream and its tributaries in any county traversed by said stream), upon the direction of the State Water Conservation Board, or upon the direction of the court, do all things, make all surveys, and perform all services required by said board in the securing of all necessary information and make the same available to said board or others who may be interested therein, including the courts of this State.

In order to protect the water rights of the water users in this state it is mandatory that the State Engineer have the information that we have asked you to subsit to this office. If you have sold the place of land about which we wrote you, will you please give us the name and address of the new owner.

We expect to hear from you in the very near future.

Very truly yours,

Gerald J. Cravetz Assistant State Engineer

Our records show that you have an appropriation made by John C. Tintinger, appropriated april 25, 1903 and filed april 28, 1903 from Stillwoter nive. for 100 miner's inches. Is tale appropriation now in use? Our records show that you have an appropriation made by F. W. Phelps, appropriated aug. 13, 1895 and filed aug. 13, 1895 from Stillwater Miver for 1200 miner's inches. Is this appropriation now in use? Our records show that you have an appropriation made by R. R. Hatch, appropriated November 5, 1901 and filed November 5, 1901 from Stillwater River for 200 miner's inches. Is this appropriation now in use? Our records show that you have an appropriation made by Tollif Tekse, appropriated Sept. 9, 1908 and filed Sept. 9, 1908 from Stillwater Miver

for 250 miner's inches. Is this appropriation now in use?

March 24, 1945

Ida Tintinger Moloy Absarokee, Montana

Dear Madami

On February 9th, this office sent you a letter asking for certain information pertaining to your irrigated land in township 3 south, range 18 east. To date we have not heard from you. with the vast post war water development in this area as now planned, it is essential that we have this information in order to show the extent of our water use in the Yellowstone Resin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we real thatsyon are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unforseen thing happened at the time our first letter was received, and you put it aside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only need to record and tabulate the mater use in this area.

Later is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have plenty now and in the future. We sunt keep Montana's water in Montana. The only way we can do this is by having the support of each and every water user so that we have a 100 percent representation of all water users. Remember: "United we stand, divided we fall",

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours.

Gerald J. Oravetz Assistant State Engineer

P. S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Billings,

April 10, 1945

Ida Tintinger Moloy Absarokee, Montana

#### Dear Madam:

iated

On rebruary 9th we sent you a letter asking for certain information pertaining to your irritated land in township 3 south range let east. On Enrice lath we sent you another letter asking you to submit the information to us as soon as possible. To date we have not heard from you regarding this matter.

It is hereby declared to be a policy of the State and necessary for the molfare of the State and its citizens, that the waters of this State, and aspacially interstate streams arising out of the State, be investigated. The State Engineer shall, either before or after the bringing of such action (to adjudicate the naters of any stream and its tributaries in any county traversed by said stream), upon the direction of the State Later Conservation Bound, or upon the direction of the court, do all things, make all surveys, and perform all services required by said board in the securing of all nocessary information and make the same available to said board or others who may be interested therein, including the courts of this State.

In order to protect the water rights of the water users in this state it is mandatory that the State Engineer have the information that we have asked you to submit to this cirics. If you have sold the piece of land shout which we wrote you, will you please give us the name and address of the new owner.

We expect to hear from you in the very near future.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

Billinga, XXXXXXX

April 16, 1945

Krs. Ida Tintinger Absarokee, Montana

Dear Mrs. Tintinger:

In order that we in Montana will be able to present facts as to the amount of land we are now irrigating, protect our water rights, and keep Montana water in Montana, the 1939 Session of Montana State Legislature enacted a law (Sec. 349.68 Montana Session Laws) requiring the State Engineer to investigate and prepare a complete record of all water rights in the state. In compliance with this law all water users in the state are being requested to supply information regarding their use of water. We are therefore asking you to help us by answering the questions on the enclosed form which pertain to your land.

The adjoining states have already compiled records of their water use in this basin for the protection of their rights. It is therefore necessary that we do the same in Montana. We have completed our survey in Yellowstone and Carbon Counties and have had 100 percent cooperation from all of the water users in these counties, and I am sure we can expect the same support in Stillwater County. It might interest you to know that before we started our survey it was estimated that there were 162,000 acres of irrigated land in the two counties. We have found that there are 204,674.82 acres being irrigated and 49,422.51 acres of potential land under the existing works. This is a notable difference, and especially so in regard to the forthcoming division of water between states which the Congress of the United States has authorized.

We in Montana must be bigilant and do everything possible to protect the rights we have. These rights are being challenged by interests outside of the State of Montana, particularly the navigation interest of downstream states, and also the water users in the neighboring states through which our interstate streams flow. In order to protect these rights we must have a record of them and their present uses. The only way we can obtain this information is from the water users.

We are therefore depending on you to fill in the enclosed form and mail it to us in the enclosed self-addressed envelope at your earliest possible convenience. If any of the information we have compiled on the enclosed form is not correct we will greatly appreciate your making the necessary corrections.

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us. Our phone number is 3777.

Very truly yours,

Gerald J. Oravetz

Information by

Our records show that you have an appropriation made by John W. Hufford, appropriated Nov. A, 1911 and filed Nov. 5, 1911 from Buck Greek for 160 miner's inches. Is this appropriation now in use?

Willings,

Karch 24, 1945

Natt Patrich Absarokes, Lontana

Dear Mr. Patricht

On rebruary 9th, this office sent you a letter asking for certain information pertaining to your irrigated land in township 3 south, range 18 east. To date we have not heard from you. With the vast post war water development in this area as now plasmod, it is essential that we have this information in order to show the extent of our water use in the Tellowstone Basin in Montana. This information is necessary to protect our present water users in the rights they have against future irrigation, navigation, power and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. It may be that you were busy with your farm work or some unformant thing happened at the time our first letter was received, and you put it asked to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Water is as necessary to the farmer as the soil in which he plants. Without it no crops will grow; no living thing can survive. It is your water that
we are trying to protect, so that you will have plenty now and in the future.
We must keep wontana's water in Montana. The only way we can do this is by
having the support of each and every water user so that we have a 100 percent
representation of all water users. Memomber: "United we stand, divided we fall".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Hoosevelt School Bullding on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Cerald J. Oravetz Assistant State Engineer

F.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Billings, XXXXIII

April 10, 1945

Matt Patrich Absarokes, Wontama

Dear dr. Astrica:

On Tebreary 7th so sent you a letter asking for certain information pertuicion to your indicated hand in formula, 3 so the range 18 each. In March 24th we sent you another letter asking you to schaft the information to as as seen as possible. To dute we have not heard from you regarding this nation.

It is hereby declared to be a pedicy of the Costs and necessary for the switche of the State and its elignes, that the waters of this State, and repositely interstate streams arising out of the State, be investigated. The State Implaces shall, either before or after the bringing of such action (to adjudicate the vacous of any stream and its tributaries in any county traversed by suid stream, upon the direction of the State Taker borseverion Bosed, or except the direction of the court, do all things, make all surveys, and parties all services required by said board in the securing of all necessary information and make the same available to said board or others who may be interested therein, including the courts of this State.

In order to protect the water rights of the water users in this state it is nareason; that the State Explosur have the information that at have asked yet to minit to this office. If you have sold the piece of land about which we wrote you, will you please give us the name and address of the new owner.

We expect to hear from you in the very near future.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

Jai	ne of Operator John Peters Address Absarones, Montana.
	Part A
	TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM A DITCH COMPANY OR IRRIGATION DISTRICT
1.	Water is delivered by: Mandenhall Ditch Co.  Name of Ditch, Ditch Company or District supplying water
	State the number of acres you irrigate under this system 40 Acres. Shares you hold 80
	If you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks". If you obtain water from a Ditch Company and also have a private system fill in both Part A and Part E.
	Part B 395 - 435
	TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM or those who have a private water right under a Ditch Company
4.	In what year was this land first irrigated? Date
5.	Give the name of the original appropriator (first user): Manda Latt Roll Co.
6.	Give the date appropriated May 1-189 Amount filed on: Miners Inches 2220 C. F. S.
	State the total number of acres irrigated under this system:
8.	Give the point of diversion: All 1/4 Section 32 Township Range 18 6
	Part C
	TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR PART B
9.	Source of Water: Stillwater River Name of stream or lake from which water is originally diverted
0.	Water is obtained by: (Check one) Gravity X Pumping Other
1.	What is the greatest number of acres you have irrigated? 40 Acres Date Season of 1944
2.	How many acres did you irrigate in 1944? (Crop and pasture) 40 3cres
3.	State the total number of additional acres that could be irrigated by increasing the water supply, Lad leveling,
	etc. None This land is under what ditch?
4.	How many acres of seeped land do you have which could be drained and put into production? None
	What is the condition of your irrigation system? Fair
	Is your water supply adequate? Yes X No Explain
	REMARKS: also J. W. Phelper night 120019 J. april 1-1881
	2 W. Philes right 173417 The 18-18 18 18
	000 mm

NOTE: The foreg ag questions apply only to irrigated land shown on this plat.

## STATE OF MONTANA STATE ENGINEERS OFFICE Water Resources Survey

Code No. 32 6
County Stillwater
T. 3.3. R. 18 3.

Nam	e of Land Owner Lloyd Foundstone Address Abserokee, Lontana
Nam	e of OperatorAddress
	Part A
	TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM A DITCH COMPANY OR IRRIGATION DISTRICT
i. \	Water is delivered by: Counces have the Company or District supplying water
2. §	Name of Ditch, Ditch Company or District supplying water  State the number of acres you irrigate uppler this system Shares you hold
3. I	I you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks". If you obtain water from a Ditch Company and also have a private system fill n both Part A and Part B.
	Part B the three
•	TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM or those who have a private water right under a Ditch Company
4. 1	In what year was this land first irrigated? Date word 1853
5. (	Give the name of the original appropriator (first user); 5/20 files
6. (	Give the name of the original appropriator (first user); See Bluege adjudicated.  Give the date appropriated from 1891 Amount filed on: Miners Inches 90 F. F. S.
7. 3	State the total number of acres irrigated under this system: 90
8. (	State the total number of acres irrigated under this system:  Give the point of diversion:  A Section Township Range  Part C
	TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR FART B
()	
	Name of stream or lake from which water is originally diverted
	Water is obtained by: (Check one) Gravity Pumping Other
11.	What is the greatest number of acres you have irrigated? 90 a. Date  How many acres did you irrigate in 1944? (Crop and pasture) 90 q.
12,	How many acres did you irrigate in 1944? (Crop and pasture)
13.	State the total number of additional acres that could be irrigated by increasing the water supply, land leveling,
	etc. Home This land is under what ditch? - Common Auton
14.	How many acres of seeped land do you have which could be drained and put into production? Rose
	What is the condition of your irrigation system?
16.	Is your water supply adequate? Yes No. Explain.
.17.	REMARKS:
	OVER

NOTE: The forego __ questions apply only to irrigated land shown on this plat.

Our records show that you have in a proprietion made by John C. Tintinger appropriated July 1, 1893 and illed April 13, 1903 from Stillwater Tiver for 130 miner's inches. Is take a preprietion now in use?

Our records show that you have on appropriation made by F. J. Thelps, appropriated Aug. 13, 1395 and filed Aug. 13, 1395 from Stillwater Aiver for 1260 miner's inches. Is this appropriation now in use?

Adamani

March 24, 1945

Lloyd Postedetone Abseroken, Mortana

Dear Mr. Powdetone:

On February 3th, this office bent you a letter asking for certain information portaining to your irrigated land in township I south, range 18 cast. To date we have not heard from you. With the vest post war water development in this area as not planned, it is essential that we have this information in order to show the subject of our mater use in the Yellowstone Basin in Montans. This information is necessary to protect our present water users in the rights they have against future irrigateion, navigation, power and flood control enterprises in this area. We are noting you for this information because we feel it is the desocratic way; we also feel that you are more qualified to give us this information about your irrigated land than anyone else because it is part of your business. At may be that you were busy with your farm work or some unforceapt thing happened at the time our first latter was received, and you put it aske to be ensured at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use to this area.

Mater is as accessing to the farmer as the soil in which he plants. Without it so crops will prox; no living thing can survive. It is your rater that we are trying to protect, so that you will have plenty now and an the future. We must knew Wortena's vator in Wortenas. The only way we can do this is by having the support of each and every vator user so that we have a 100 percent representation of all water users. We manber: "United we stand, divided we fail!".

In order to facilitate this work a branch office of the State Engineer has been established in Billings and is located in the Roosevelt School Building on 23rd Street and Fourth Avenue North. Anytime you are in Billings we would approchabe your calling on us.

Royley to hour from you in the very near future, I am,

Very truly yours,

Carald J. Oravetz Assistant State Engineer

P.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Billings,

March 24, 1945

Henry Exidy Mosarokse, Montona

Dear Mr. Eddy:

On February 9th, this office sent you a letter asking for certain Information pertaining to your irrigated land in termship 3 south, range 18 east. To date me have not heard from you. With the vast post wer water development in this area as now plasmed, it is assential that we have this information in order to show the extent of our water use in the Yellowstone basin in Montane. This information is accessory to protect our present water users in the rights they have against fiture irrigation, navigation, your and flood control enterprises in this area. We are asking you for this information because we feel it is the democratic way; we also feel that you are more qualified to give us this information about your irrigated land then anyone class because it is part of your business. It happened at that you were busy with your farm work or some unforeseen thing happened at the time our first letter was received, and you put it uside to be answered at some other time and have forgotten all about it. All information is strictly confidential and is only used to record and tabulate the water use in this area.

Noter is as necessary to the farmer as the soil in which he plants. Without it me cross will grow; no living thing can survive. It is your water that we are trying to protect, so that you will have planty now and in the future. We must keep Mantenn's unter in Somtana. The only way we can do this is by having the support of each and every water user so that we have a NOC percent representation of all water users. Hemember: "United we stand, divided we fall".

In order to facilitate this work a branch office of the State Engineer has been setablished in Billings and is located in the Roosevelt School Building on 23rd Street and Pourth Avenue North. Anytime you are in Billings we would appreciate your calling on us.

Hoping to bear from you in the very near future, I am,

Very truly yours,

Gerald J. Gravetz Assistant State Engineer

P.S. If you cannot supply us with the information requested, it may be that you can tell us of someone who can.

Ž.

April 9, 1945

Henry L. Eddy Absarokee, Montana

Dear Mr. Eddy:

We have your letter stating that you misplaced the first water resources form that we sent you to be filed in the State Engineer's office. Enclosed herewith we are sending you another form which is self explanatory that we would like to have you file. If you cannot answer all of the questions, answer as many as you can and submit the form to us at your earliest possible convenience.

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

30 11 was the state

50 25 Our records show that you have an appropriation made by F. W. Thelps, appropriated Aug. 13, 1395 and filed Aug. 13, 1895 from Stillwater River for 1200 miner's inches. Is this appropriation now in use?

Our records show that you have an appropriation made by Peter L. Fuchs, appropriated June 5, 1930 and filed June 7, 1930 from Sheep Creek for 200 miner's inches. Is this appropriation now in use?

March 9, 1945

Samuel D. Rhymeer Absarokee, Montana

Dear Mr. Mhyneer:

We wisht to take this time to thank you for filing the water resources form we previously sent you. After looking over the previous form we find that you state that you irrigate 100 acres. As we had only given your total acreage as 20, we found that we had made an error and are enclosing a new form with your farm boundaries as they should be. We also found that you are buying your land on contract from the State of Montana and that Henry Eddy is buying land from you on contract. The land we are showing in Section 36 includes all of the above stated land. We therefore would like to have you look over our farm map and see if the boundaries are correct and if all the land we have shown in blue is irrigated. If it is not, please X it out. We are sorry to cause you this added trouble, but it is mandatory that we have this information correct.

Thanking you again for this added trouble, I am

Very truly yours,

Gerald J. Oravetz Assistant State Engineer

Code No. 31 B
County Stillwater
T. 3 3. R. 18 G.

Name of Land Owner Hestern Life ins. Co. Address Holena, Kontana
Name of Operator Mr. M. Coernbs Address About Chec.
Part A
TO BE FILED BY THOSE OBTAINING IRRIGATION WATER FROM A DITCH COMPANY OR IRRIGATION DISTRICT
1. Water is delivered by: 2000 Connect State Company or District supplying water
2. State the number of acres you irrigate under this system 26007 2500 Shares you hold none
3. If you obtain water from more than one Company, give the number of shares, acres irrigated and the name of the Company under "Remarks". If you obtain water from a Ditch Company and also have a private system fill in both Part A and Part B.
Part B
TO BE FILED BY THOSE WHO HAVE A PRIVATE DITCH, PUMP OR IRRIGATION SYSTEM or those who have a private water right under a Ditch Company
4. In what year was this land first irrigated? Date 46007 1893
5. Give the name of the original appropriator (first user) : Andron Larsen, & Peter Larsen
6. Give the date appropriated 7.5.7.3 7.7.7.4 Amount filed on: Miners Inches C. F. S C.
7. State the total number of acres irrigated under this system: 35.00 33.
8. Give the point of diversion: NW 1/4 NE 1/4 Section 2 1 Township 3.50 Range 18 #
Part C
TO BE FILED BY ALL WATER USERS IN ADDITION TO PART A OR PART B
9. Source of Water:
Name of stream or lake from which water is originally diverted  10. Water is obtained by: (Check one) Gravity. Pumping Other.
11. What is the greatest number of acres you have irrigated? About To Date
12. How many acres did you irrigate in 1944? (Crop and pasture)
13. State the total number of additional acres that could be irrigated by increasing the water supply, land leveling
etc. 10-15 This land is under what ditch? both dile hes
14. How many acres of seeped land do you have which could be drained and put into production?
15. What is the condition of your irrigation system? 9000
16. Is your water supply adequate? Yes No Explain
17. REMARKS: 66- No fant 2 miles 12 April 25-1903 - 140 April 25-1903
