Information From _____

Remarks 766 - 12/2/02

This image shows a full page of blank graph paper. The grid consists of 10 columns and 10 rows of squares, created by thin black lines. A thicker border surrounds the entire grid area. There are no markings or text on the paper.

Ditch was first built about 1902 taking water
out of river in sec 11. This RARE ^{til river changed course} ditch was later
extended and water was taken out at present
headgate in sec 22. Ditch system was never
very successful below present Robinson ranch
was worked on to there by W.P.A. labor.
Mr. Hotchkiss irrigated a few acres last year but
has not irrigated this year due to rundown
condition of ditch and difficulty in getting
water as far down as his place.

1 AS SOON

There is about 98 acres of potentially
irrigable land but due to filling in at
the headgate most of this can only be irrigated
when river is at high stage. needs dam in
at headgate. Mr. Winters only irrigated
between 24 and 30 acres this year.

Winters started to put in pump (see pic 28 192) but hasn't finished
putting it in yet.
