## STATE OF MONTANA

#### STATE ENGINEER

BILLINGS, MONTANA

April 15, 1948

Mr. T. W. Carolan Forsyth, Montana

Re: Potential Irrigable Land, Armells Creek

Dear Sir:

In accordance with the 1939 Session Law (Section 349.68 Montann Session Laws) requiring the State Engineer to investigate and prepare a complete record of all water rights in Montana, the State Engineer has been conducting a water resources survey in Rosebud County.

We are unable to find a recorded water filing for the land that you irrigate in All Sec. 11, T. 5N., R. 39E.

If a filing was made for this land we would like to have you send us the name of the appropriator, the date filed on, and the number of inches filed on. If no recorded filing was made we would like to have you send us the name of the first user and the date, or the approximate date, that the land was first irrigated so that we may establish a date of priority for this land.

We would like to have you make this a first on your agenda and send this information to us as soon as possible in the enclosed, stamped, self-addressed envelope.

Very truly yours,

Gerald J. Orevotz Assistant State Engineer

GJO/a

Theor only a drawing dem and have made no appropriation facilities from the mine is struckly a flow inightion project wish no struckly a flow This land man never inighted by anyone for any other memory.

There Survey are not the state of the State
