Land Owners in the Algeo Lateral SubDivision

There are 36 water users in this sub-division which comprises about 40 acres. They are all city lots and the water users use water for their gardens and lawns which is diverted from the main B. L. & I. canal. Some of these people own stock in the ditch company while the majority just have water on a rental basis.

From the records of Mr. E. E. Tiffany, Sec. of the B. L. & I. Ditch Co.

Land Owners in the Burnstead Sub-Division

Mr. Burnstead pays for water for all the property in the Burnstead Sub-Division. Then each tenant pays him. He owns 66 shares in the B. L. & I. Ditch Company. Karl Blaesius is the only exception. He dowsn't pay for water as he holds over from an old deal. At one time Austin North gave the land for the B. L. & I. Ditch to run thru and was to get a certain amount of water. Karl Blaesius bought his land from Mr. North and while he should be paying now, he doesn't. Until the last few years stock was not sold west of the tunnel but inches of water were sold or rented.

This information given by Mr. E. E. Tiffany, Sec. of the B. L. & I. Ditch Co.

By M. E. Kosko, February 25, 1943

WRITTEN FROM,—

Mrs S. J. Oraretz
Billings Montana

Dear Mrs Oraretz:

The land you have written me about a couple of times I think was sold a year ago. If this is the 8 A just north of the city then this land is owned by the Broadway Realty Co. If I am not correct in my thots will gladly sign for land I may be interested in

Sincerely

L. P. Babcock

Mr. Gerald J. Oravetz
Billings, Montana

Dear Sir:

Your letter of the 23d inst is at hand.

I have filled out the form in part. I cannot say (No. 5) who first used water on this land. I secured the tract by mortgage two years ago, given by R. B. Ai~her, whose widow lives in Billings. (No. 6) Of course I do not know when the tract was first irrigated.

Mr. R. B. Purviance, living on the Poly Boulevard near this tract, is renting it from me. His Phone No. is 4823.

Yours truly,

(Miss) L. M. Beebe

Mr. G. J. Oravetz
Box 873
Billings, Montana

Dear Sir:

We are referring your letter of February 23rd, last addressed to Mr. Samuel Fawver of this City, to Mr. Ralph G. Wiggenhorn, attorney at law, of your City, as Mr. Samuel Fawver died recently in this City and Mr. Wiggenhorn is attending to the matter of the estate of Mr. Fawver in your State.

We have asked Mr. Wiggenhorn to give you the necessary information and we sent the form which you enclosed to him. We would appreciate it if you would get in touch with Mr. Wiggenhorn in regard to this matter as the Fawvers would like to cooperate with you in regard to the same.

Yours truly,

BRADLEY & BRADLEY

— Eastern Mont. Normal School —
Take water over from the Big ditch
for which they pay — They have 8 shares
of stock in the Big ditch Company, but
the area before they take the water —
the majority of them have not enough
and are not water water will
not carry enough for the right of
the water. They have a total
of 52 acres ~~and~~ counting the buildings.
which leave about 30 acres that could be
and is cultivated, They cannot get the
full benefit of the water any other time
Use water take from Highland and
sometimes from Bald Mountain.

Mr. Walter T. Gray
Virginia Lane
Billings, Montana

Dear Mr. Gray:

The Congress of the United States has granted consent to the States of Montana, North Dakota and Wyoming to negotiate and enter into a compact or agreement for the division of the waters of the Yellowstone River between the respective states. This compact when finally reached will vitally effect each and every water user in the Yellowstone Basin. The adjoining states have already compiled records of their water use in this basin for the protection of their water rights. It is therefore necessary that we do the same in Montana in order to protect the rights of the water users in our state. As much of the information needed to show the extent of our water use must come directly from those using water, we are asking you to help us. This information may also be used to alleviate present irrigation problems through Post War Projects.

First: We would like to know if the information we have compiled in regard to your irrigated farm on the enclosed form is correct. If it is not correct, we will greatly appreciate your making the necessary corrections. The part of your land that is irrigated is shown in blue.

Second: From what ditch is the land described on the enclosed form irrigated and how many shares do you have in said ditch? Please answer as many questions on the enclosed form as possible.

Third: If you have any land that is effected by seepage or land that has been irrigated which is now idle, please indicate the amount on the enclosed form, and mail this information to us as soon as possible in the enclosed self-addressed envelope. Any additional information you may wish to give us regarding irrigation on your farm will be greatly appreciated.

In order to facilitate this work a branch office of the State Engineer has been established in the old Roosevelt School Building in Billings. This is the same building in which the A. A. A. office is located. If any of this is not clear to you, we will appreciate your calling on us the next time you are in Billings, or you may phone us at 3777.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Oravetz

12. Land Description: Frac. W½NW¼, Sec. 25, T.p. 1 N. Range 26 E.
Frac. E½NE¼, Sec. 26

Remarks:

Has 4.44 Acres Lockwood Ditch

Information by ___ Place ___ Date ___

The water is drained across the Coulson ditch from the Lockwood district to irrigate the 4.44 acres, which is more under the Coulson ditch, than the most about 18 acres of the land were in the Lockwood district, When the Coulson ditch crushed out they moved the ditch to higher land and cut thru part of the Lockwood with the Coulson ditch Thus the 4.44 acres watered by the Lockwood on the other side. The Coulson ditch

7. What is the greatest number of acres you have irrigated? 2 Date 1940

8. Present Use: Year 1942 Acres Irrigated ~~10.00~~ 2 irrigated 6 subirrigated from seepage.

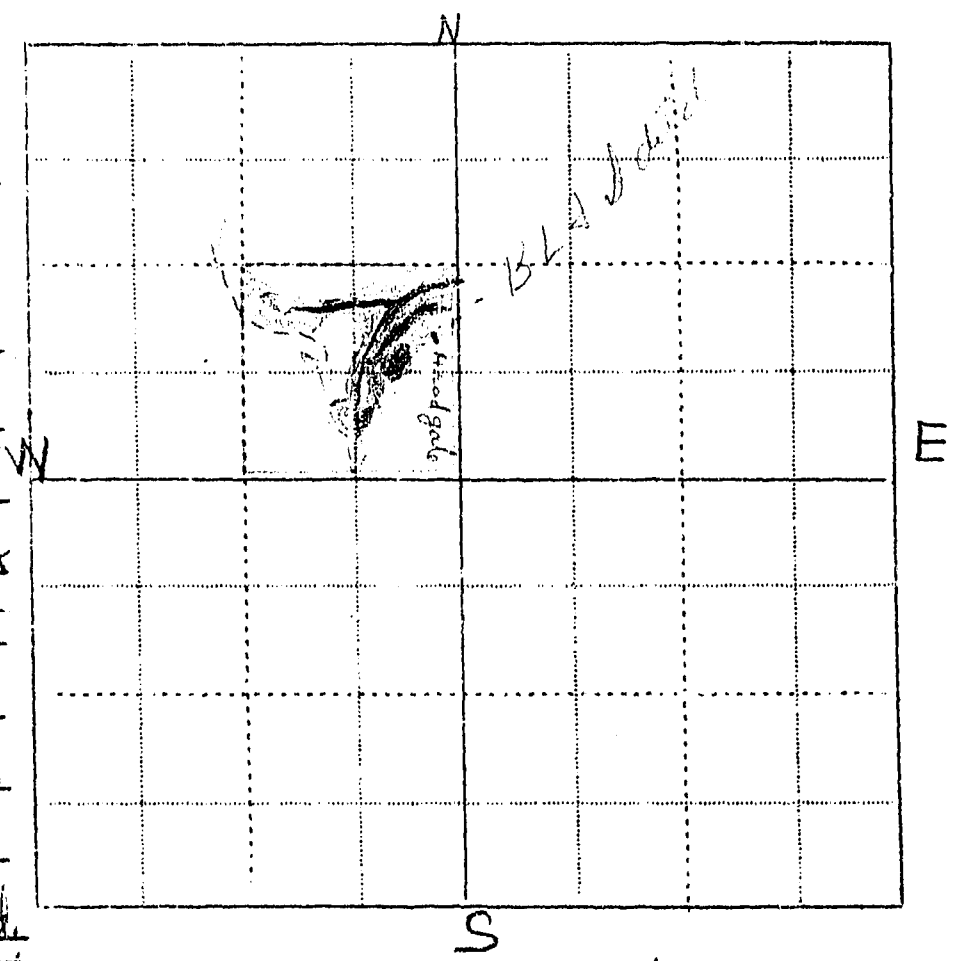

9. If this land is not irrigated now give date of last use ___

10. State the total number of acres that could be irrigated 40 to 50 acres.

11. What is the condition of your irrigation system? Fair for about 5 acres.

12. Land Description: SE¼, Sec. 9, T.p. 1 N. Range 26 E.

Remarks: Possibly this is not irrigated at present. Most of this 10 acres colored has considerable seepage especially in the fall. The east half is not so bad. What I have colored black is mostly a slew what I have left white could be irrigated by cutting in a new headgate and considerable work on the land.

Information by Grover Johnston Place ___ Date Feb. 27, 1943

Bridger Montana
% Ohio Oil Co
Feb. 27, 1943.

Mr. L. J. Crawley.
Box 843, Billings Mont.
Dear Sir—

Just received your letter in regards to irrigation on the SE¼ of Sec. 9. T.W.P. 1 N. R. 26 E. You might get the information of who first owned and who first irrigated said land from Mrs. Florence Morgan as she owned it from 1917 to 1938.

Her address is Mrs. Florence Morgan
Gen. Del. Billings Montana.

She is my mother in law and is living on the place to.

I am staying here temporarily as my wife is teaching school here.

I expect to be in Billings next Saturday, March 6th and will try and see you.

Yours respectfully
Leon Johnston.

STATE OF MONTANA

STATE ENGINEER

Billings
~~HELENA~~, MONTANA
March 11, 1943

Mrs. Clara McCracken
Route 3
Billings, Montana

Dear Mrs. McCracken:

The Congress of the United States has granted consent to the States of Montana, North Dakota and Wyoming to negotiate and enter into a compact or agreement for the division of the waters of the Yellowstone River between the respective states. This compact when finally reached will vitally effect each and every water user in the Yellowstone Basin. The adjoining states have already compiled records of their water use in this basin for the protection of their water rights. It is therefore necessary that we do the same in Montana in order to protect the rights of the water users in our state. As much of the information needed to show the extent of our water use must come directly from those using water, we are asking you to help us. This information may also be used to alleviate present irrigation problems through Post War Projects.

First: We would like to know if the information we have compiled in regard to your irrigated farm on the enclosed form is correct. If it is not correct, we will greatly appreciate your making the necessary corrections. The part of your land that is irrigated is shown in blue.

Second: From what ditch is the land described on the enclosed form irrigated and how many shares do you have in said ditch? Please answer as many questions on the enclosed form as possible.

Third: If you have any land that is effected by seepage or land that has been irrigated which is now idle, please indicate the amount on the enclosed form, and mail this information to us as soon as possible in the enclosed self-addressed envelope. Any additional information you may wish to give us regarding irrigation on your farm will be greatly appreciated.

In order to facilitate this work a branch office of the State Engineer has been established in the old Roosevelt School Building in Billings. This is the same building in which the A. A. A. office is located. If any of this is not clear to you, we will appreciate your calling on us the next time you are in Billings, or you may phone us at 3777.

Hoping to hear from you in the ver[illegible] future, I am,

Very truly yours,

Gerald J. Oravetz
Assistant Engineer

Name of Water User Address

1. Do you own this land? Yes ___ No ___ If not give the owner's name below:

   Owner's name Rosanna R. Neel Address 221 So. 9th St., San Jose, Calif

2. Source of Water Yellowstone River Water delivered by

3. Give point of Diversion ___ ¼ ___ ¼ ___ Section ___ Township ___ Range ___

4. Water is obtained by: (Check one) Gravity ___ Pumping ___ Other ___

5. Who first used water on this land? Address

6. In what year was this land first irrigated? ___ Approximate Acres ___

7. What is the greatest number of acres you have irrigated? ___ Date ___

8. Present Use: Year 1942 Acres Irrigated 5 est.

9. If this land is not irrigated now give date of last use

10. State the total number of acres that could be irrigated ___ acres.

11. What is the condition of your irrigation system?

12. Land Description: Frac. N½NW¼SW¼, Sec. 31, T.p. 1 N. Range 26 E.

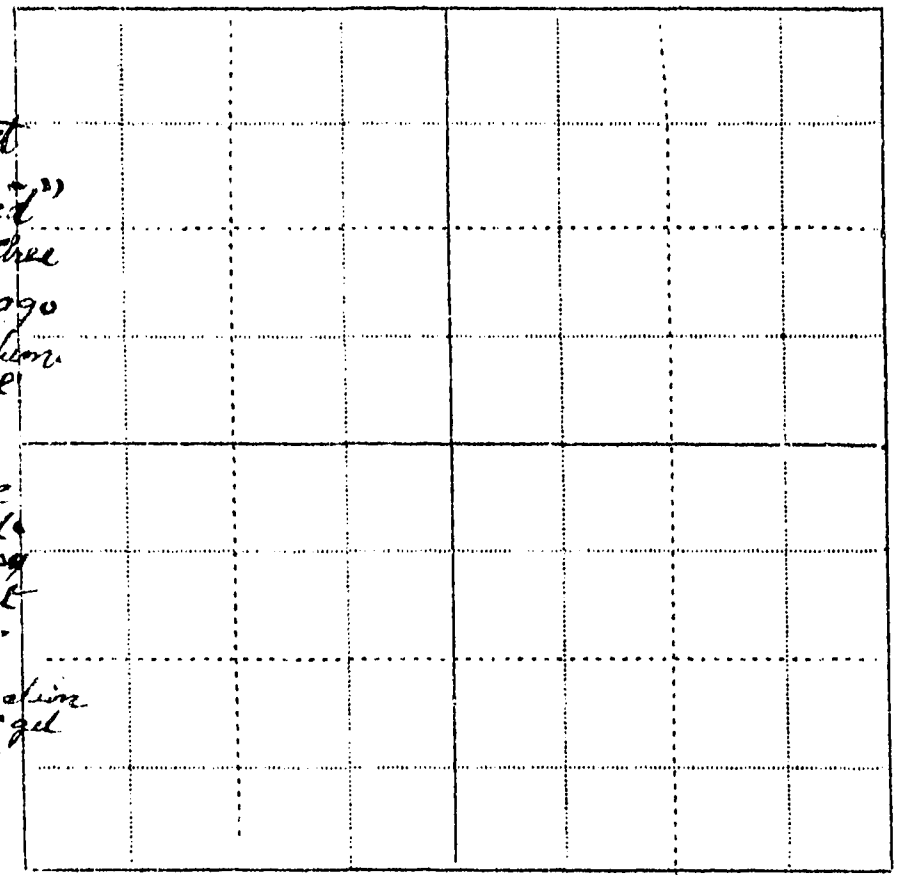

Remarks:

I do not own any land in Montana only a 5 acre tract which is not rented or "irrigated" as you mention. I sold the other 2-1/2 acre tracts a number of years ago a few times I rented & rented them and to the best of my knowledge they were not "irrigated ever - We sold our hotel the Elkhide on 1915 and came to Cody our future home where we were born and reared and I expect to live the rest of my days. Not likely I shall ever visit Billings again. Tho I owned property there

I hope I have made my information clear to you. Sorry that I did not get around to writing sooner

Yours Truly

Roanna Neel.

STATE OF MONTANA

STATE ENGINEER

~~HELENA~~, MONTANA
Billings
April 30, 1943

Mr. E. L. Phelps
Route 3
Billings, Montana

Dear Mr. Phelps:

On February 25, 1943 we sent you a letter asking for certain information pertaining to your irrigated land in Township 1 North, Range 26 East. On April 15, 1943 we sent you another letter asking you to submit the information to us as soon as possible. To date we have not heard from you regarding this matter.

It is hereby declared to be a policy of the State and necessary for the welfare of the State and its citizens, that the waters of this State, and especially interstate streams arising out of the State, be investigated. The State Engineer shall, either before or after the bringing of such action (to adjudicate the waters of any stream and its tributaries in any county traversed by said stream), upon the direction of the State Water Conservation Board, or upon the direction of the court, do all things, make all surveys, and perform all services required by said board in the securing of all necessary information and make the same available to said board or others who may be interested therein, including the courts of this State.

In order to protect the water rights of the water users in this state it is mandatory that the State Engineer have the information that we have asked you to submit to this office.

We expect to hear from you in the very near future.

Very truly yours,

Gerald J. Oravetz
Assistant Engineer

GJO/ rh

Ironsberg, Montana
May 8, 1943.

Gerald J. Oropeta
Billings, Mont.
Dear Sir:

As I have sold my place in Yellowstone county several months ago & will refer you to the new owner for your information. His name is Emmet Rehard, in care of Independent Refining Co. Hart Albin Building, Billings.

Yours truly
E. L. Phelps

First: We would like to know if the information we have compiled in regard to your irrigated farm on the enclosed form is correct. If it is not correct, we will greatly appreciate your making the necessary corrections. The part of your land that is irrigated is shown in blue.

Second: From what ditch is the land described on the enclosed form irrigated and how many shares do you have in said ditch? Please answer as many questions on the enclosed form as possible.

Third: If you have any land that is effected by seepage or land that has been irrigated which is now idle, please indicate the amount on the enclosed form, and mail this information to us as soon as possible in the enclosed self-addressed envelope. Any additional information you may wish to give us regarding irrigation on your farm will be greatly appreciated.

STATE OF MONTANA

STATE ENGINEER

Billings
~~HELENA~~, MONTANA
March 11, 1943

Mrs. Edna Wilkins, % Frank E. Johnson
Route 3
Billings, Montana

Dear Mrs. Wilkins:

The Congress of the United States has granted consent to the States of Montana, North Dakota and Wyoming to negotiate and enter into a compact or agreement for the division of the waters of the Yellowstone River between the respective states. This compact when finally reached will vitally effect each and every water user in the Yellowstone Basin. The adjoining states have already compiled records of their water use in this basin for the protection of their water rights. It is therefore necessary that we do the same in Montana in order to protect the rights of the water users in our state. As much of the information needed to show the extent of our water use must come directly from those using water, we are asking you to help us. This information may also be used to alleviate present irrigation problems through Post War Projects.

First: We would like to know if the information we have compiled in regard to your irrigated farmson the enclosed formsis correct. If it is not correct, we will greatly appreciate your making the necessary corrections. The part of your land that is irrigated is shown in blue.

Second: From what ditch is the land described on the enclosed form irrigated and how many shares do you have in said ditch? Please answer as many questions on the enclosed form as possible.

Third: If you have any land that is effected by seepage or land that has been irrigated which is now idle, please indicate the amount on the enclosed forms, and mail this information to us as soon as possible in the enclosed self-addressed envelope. Any additional information you may wish to give us regarding irrigation on your farm will be greatly appreciated.

In order to facilitate this work a branch office of the State Engineer has been established in the old Roosevelt School Building in Billings. This is the same building in which the A. A. A. office is located. If any of this is not clear to you, we will appreciate your calling on us the next time you are in Billings, or you may phone us at 3777.

Hoping to hear from you in the very near future, I am,

Very truly yours,

Gerald J. Oravetz
Assistant Engineer

GJO/rh
enc.
