1. Jack Hirschy Livestock Inc. of Jackson
(Name of Appropriator) (Address) (Town)

County of Beaverhead State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SW 1/4 NW 1/4 Sec. 20, T. 4 S. R. 15 W.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based domestic water lawn water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been Mar. 1959 continuous

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 25 g.p.m.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof lawn water

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal shallow well pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater started Dec. 12, 1958 finished Dec. 15, 1958

8. The depth of water table static water level 8 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater 5 5/8" casing in drilled well 40 ft deep.

10. The estimated amount of groundwater withdrawn each year 5,000,000 g.p.y.

11. The log of formations encountered in the drilling of each well if available gravel to 25' then clay & sand to 41 ft Finished in coarse at 46'

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner John T. Hirschy
Date Dec. 2, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

ADMINISTRATOR OF GROUNDWATER CODE
STATE WATER CONSERVATION BOARD

Notice of Completion of Groundwater
Appropriation by Means of Well
DEVELOPED AFTER JANUARY 1, 1962

(Under Chapter 237 Montana Session Laws, 1961, as amended)

Top of Ground
(Elev. above sea level.....)

0-14 gravel

14-26 gravel with clay

26-33 clay

35 static water level

33-35 gravel with clay
small amount water no depth

35-58 about 8 g.p.m.
gravel with clay

58-90 clay

90- 96 soft shale gravel

finished at 96 in shale like
gravel

Owner Russell Peterson Address Wisdom, Montana

Driller Carl F. Hollenstainer Address Dillon, Montana

Date of Notice of appropriation of groundwater *****

Date well started July 30, 1969 Date completed Aug. 4, 1969

Type of well Drilled Equipment used Churn drill
(Dug, driven, bored or drilled) (Churn drill, rotary or other)

Water use: Domestic Municipal Stock Irrigation
Industrial Drainage Other

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

Size of Drilled Hole	Size and Weight of Casing	From (Feet)	To (Feet)	PERFORATIONS		
				Kind Size	From (Feet)	To (Feet)
6"	6 5/8" C.D. 17 lb	2' up	93	None		

Static Water Level for non-flowing well 35 feet.

Shut-in Pressure for Flowing Well *****

Pumping Water Level 80 feet
at 12 gal. per minute.

Discharge in gal. per min. of flowing well *****

How Tested Bailer
Length of Test 2 hr.

Remarks: (Gravel packing, cementing, packers, type of shutoff) *****

SE 1/4 SW Sec 28 T. 4 R. 15W

Indicate location of well and place of use, if possible. Each small square represents 40 acres.

(Continue on reverse side)

USE—If used for irrigation, industrial, drainage or other. Explain, state number of acres and location or other data (i.e.: Lot, Block and Addition).

Show exact depth of bottom.

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located, tissue copy to be retained by driller.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

DEC 30 1963
STATE ENGINEER

1. Jack Hirschy Livestock Inc., of Jackson
(Name of Appropriator) (Address) (Town)

County of Beaverhead State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4 Sec 36 T 4 S R 16 W

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based
stock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1940

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 10 g.p.m.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof ***

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
submersible pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater
About 1940

8. The depth of water table
static water level 10 ft

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
unknown

10. The estimated amount of groundwater withdrawn each year
1,500,000 g.p.y.

11. The log of formations encountered in the drilling of each well if available
unavailable

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.....

Signature of Owner

John T Hirschy
Date Dec. 2, 1963

RECEIVED
DEC 30 1963

STATE ENGINEER

1. Carl J. Kambich of Glen
(Name of Appropriator) (Address) (Town)

County of Beaverhead State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NW 1/4 SE 1/4 Sec. 4, T. 4S R. 9W.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based. Stock water.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. 1914.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 2 gal. per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
not apply

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Spring dynamited out and cemented and pipe placed out of cement box to troughs.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Summer of 1914.

8. The depth of water table. Immediately below surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Small seeping spring was blasted to a depth of 6 feet, revealing a constant flow of water. Spring was then cemented and a pipe run out of the cement form running directly into watering troughs.

10. The estimated amount of groundwater withdrawn each year. 1,031,200 gal. per yr. 2 gal. per min.

11. The log of formations encountered in the drilling of each well if available.
not apply

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
not apply

STATE ENGINEER

1. Carl J. Kambich, of Glen
 (Name of Appropriator) (Address) (Town)
 County of Beaverhead State of Montana
 have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

S1/2
NE1/4 Sec. 4 T. 45 R. 9W

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based. Irrigation.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. 1914.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 40 miners inches

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Approximately 10 acres located in the NE1/4 Sec. 4, T. 45 R. 9W.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Trenches and ditches.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Developed in the summer of 1914.

8. The depth of water table. Immediately below surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Numerous seeps located along hillside running through center of Sec. 4, from east to west where dug out and ditched, so that water flows by gravity to approximately 10 acres of ground which is irrigated

10. The estimated amount of groundwater withdrawn each year. 40 acre-feet.

11. The log of formations encountered in the drilling of each well if available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

1. Lazy J Ranch Inc, of Glenn
(Name of Appropriator) (Address) (Town)
County of Beaverhead State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NE 1/4 NE 1/4 Sec 4 T45 R9W

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based for household and one for watering live stock

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1912 and used continually since that date

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 500 gallons

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof not applicable

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal electric pumps NE 1/4 NE 1/4 Sec 4 T45 R9W

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater 1912

8. The depth of water table 80 feet of water

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
well number one drilled with six-inch casing used for household purposes
well number two drilled with six-inch casing used only for watering stock

10. The estimated amount of groundwater withdrawn each year 10,000 gallons

11. The log of formations encountered in the drilling of each well if available information not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner Lazy J Ranch Inc

Date Dec 30, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

1. Minerals Engineering Co. of Box 94, Glen, Montana
(Name of Appropriator) (Address) (Town)

County of Beaverhead State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

S. E. 1/4 of Sec. 5, T. 4 S., R. 9 W.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based primarily domestic water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1954 - continuous since that date.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 100 gal./minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal drilled well - electric driven water pump - Sec. 5, T. 4 S., R. 9 W.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater 1954

8. The depth of water table 5 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater drilled well - 6" casing - appr. 40' deep

10. The estimated amount of groundwater withdrawn each year no information available

11. The log of formations encountered in the drilling of each well if available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

STATE ENGINEER

1. Carl J. Kambich of Glen
(Name of Appropriator) (Address) (Town)
County of Beaverhead State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NE 1/4 NW 1/4 Sec. 9 T. 45 R. 9W
Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based. Stock water.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. 1920

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 15 miners inches.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
Not apply

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Developed flow of spring that was evident from seep. Water ditched for watering livestock.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Summer of 1920.

8. The depth of water table. Immediately below surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Seep was evident at place where spring is now located. It was dug out and additional water developed so that a flow of approximately 15 inches is constantly flowing. Water flows in ditch where cattle can utilize it, and thereafter it sinks in the porous ground.

10. The estimated amount of groundwater withdrawn each year. Constant flow of 15 miners inches each day for 365 days.

11. The log of formations encountered in the drilling of each well if available.
not apply

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
not apply

**Notice of Completion of Groundwater Appropriation
Without Well**

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater June 1953

Owner Rudolph Polish Address Glen, Mont.

Contractor (if any) Walter Hugulet

Address of Contractor Dillon, Montana

Date Started June 1953 Date Completed Oct. 1953

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to

water when applicable. Drain ditch dug 10 ft. deep to pick up sub-surface water. Periodic dams placed in ditch to divert water into irrigation ditches.

..... $\frac{1}{4}$ Sec. 21 T. 45 R. 9W

Indicate point of appropriation and place of use, if possible.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent

estimate approximate lengths of periods of use. Ditch picks up 1,000 inches during months of June, July, August, and slowly decreases until the month of March, to 150 inches. Water used for irrigation during summer months. Approximately one section ground irrigated.
