Notice of Completion of Groundwater Appropriation by Means of Well
(Under Chapter 237, Montana Session Laws, 1961)

Owner: James J. Habich
Address: Dillon, Montana

Driller: Carl F. Hollenstein
Address: Dillon, Montana

Date of Notice of Appropriation of Groundwater: Nov. 5, 1961
Date well started: Nov. 5, 1961
Date Completed: Nov. 7, 1961

Type of well Drilled: Churn, drill, rotary or drilled
Equipment Used: Churn Drill

Water Use: Domestic X Municipal □ Other □ Irrigation □

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which water rises in the well.

DECLARATION OF WATER GROUND WATER RIGHTS

STATE OF MONTANA, County of Beaverhead

I, James J. Reel, hereby declare that I have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. The beneficial use on which the claim is based:
   - Drinking water and livestock water

2. Date of approximate date of earliest beneficial use and any continuous use has been:
   - 1924 Well O 1961 Well @ All Wells Continuous

3. Amount of groundwater claimed in acres is:
   - 500 Gallons

4. Per hour for each well:
   - 25 Acre

5. A map of the area showing the distance from the ground surface and location of each well, or other means of withdrawal, has been given in:
   - Submersible Pumps

6. The date of commencement and completion of the construction of the well, well, or other works for withdrawal: 1924 A 1961 B Well #1 1960 Well #2

7. The depth of water table:
   - 25 ft

8. So far as is available, the type, size, and depth by each well or the general specifications of any other works for the withdrawal of groundwater:
   - Well #1 60 ft six inch casing
   - Well #2 60 ft 11 in

9. The estimated amount of groundwater withdrawn each year:
   - 30,000 Gallons

10. The above information is sworn to in the office of the County Clerk, County of Beaverhead, State of Montana.

Signed: James J. Reel

County Clerk

Date: Dec. 30, 1963
Notice of Completion of Groundwater Appropriation by Means of Well

DEVELOPED AFTER JANUARY 1, 1962
(Under Chapter 237, Montana Session Laws, 1961)

Owner: C. S. Neger
Address: Rural Route 1, Dillon

Driller: C. F. Hollensteiner
Address: Dillon, Montana

Date of Notice of Appropriation of Groundwater: Mar. 18, 1967
Date well started: Mar. 18, 1967
Date completed: Mar. 20, 1967

Type of Well: Drilled
Equipment used: Churn drill

Water use: Domestic □ • Municipal □ • Storage □ • Irrigation □ • Industrial □ • Drainage □ • Other □

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

Notice of Completion of Groundwater Appropriation
Without Well
(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: May 28, 1958
Owner: James Bechtel
Address: Dillon, Mont.
Contractor (if any): None
Address of Contractor: None
Date Started: May 28, 1958
Date Completed: May 28, 1958

Describe means of obtaining groundwater without a well "as by
sub-irrigation and other natural processes". Include depth to
water when applicable. Sub-irrigation and spring
was dug down to a depth of 10'
and 10' wide and 20' long to increase
water which a 4" pump could
be installed for irrigation.

Quantity of water developed and used with explanation of method
used to measure or estimate such amount. If use is intermittent
estimate approximate lengths of periods of use from June 1st
to 250 gallons per minute depending
an amount of water coming in have
been pumping from June 1st to
Sept. 15th.

Signature of Owner: James Bechtel
Date: June 24, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the
works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana
Bureau of Mines and Geology and Quadruplicate for the Appropriator.
STATE OF MONTANA, ss.

County of Beaverhead.

I hereby certify that the within instrument was filed in my office on the ___ day of ___ , A.D. ___ at ___ o'clock ___ M. and recorded on Page ___ of Book ___ of Deeds, Records of Beaverhead County, Montana.

Attest my hand and seal.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Kenneth Eliason of Plt. Boy 14R, Dillon
County of Beaverhead State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Household stock water

3. Date or approximate date of earliest beneficial use: and how continuous the use has been: Since 1947

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 350 gal. per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: Not used for irrigation

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Centrífugal Pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: In the year 1947

8. The depth of water table: 38 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Drift well, cement walled and 40 ft. deep

10. The estimated amount of groundwater withdrawn each year: 150,000 gallons

11. The log of formations encountered in the drilling of each well if available: Not known

Discharge in gal. per min. of flowing well: No test.
How Tested: No test Length of Test: No test.

Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of acres irrigated, if used for irrigation). The above well was drilled to determine depth to ground water and geologic formations. After information was obtained the well was given to Mr. Sporich in exchange for an existing well in order to obtain fluctuation in ground water table and determine effectiveness of asphalt membrane canal lining.

Notice of Completion of Groundwater Appropriation by Means of Well

DEVELOPED AFTER JANUARY 1, 1962

(Under Chapter 97, Montana Session Laws, 1961)

Owner: Edward Sporich  
Address: Dillon, Montana

Driller: Bealgo Delg Co.  
Address: Dillon, Montana

Date of Notice of Appropriation of groundwater:

Date well started Jan. 2nd, 1958  
Date completed Jan. 30, 1958

Type of well: Drilled  
Equipment used: Cable (Drill, driven, bored or drilled)

Water use: Domestic  
Municipal  
Stock  
Irrigation  
Industrial  
Drainage  
Other

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

(Under Chapter 237, Montana Session Laws, 1961)

Edward Sporich  
Name of Appropriator

County of Beaverhead  
State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based  
   Watering stock

3. Date or approximate date of earliest beneficial use; and how continuous the use has been  
   1928  
   Use 17.6 months  
   Just for watering stock

4. The amount of groundwater claimed (in miner's inches or gallons per minute)  
   ____________

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof  

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal  
   Drilled well, then static gas pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater  
   Date well started: 5-23-42  
   Date completed: 6-27-42

8. The depth of water table  
   35 1/2 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater  
   Size of Drilled Hole: 5"  
   Size of Static: 3/4"  
   casing: 7 1/2"  
   Depth of Well: 68 feet

10. The estimated amount of groundwater withdrawn each year  
    18,000

11. The log of formations encountered in the drilling of each well if available  
    Drilled:  
    Equipment used:  
    Core Sample:  
    Sand gravel:  
    Some rock aspect.  
    Static and static gas pump:  
    Drilled: Carl Hallestein

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is for irrigation water.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: Drilled by White and Holstein in 1954.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 2000 gal. per minute, after continuous pumping.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 40 acres of #5 1/4 of Sec. 14 T. 14 R. 9, owned by White.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Has motor and centrifugal pump.

7. The date of commencement or completion of the construction of the well, wells, or other works for withdrawal of groundwater: Spring 1954. Dry well came from salmon sand only. Drilled well.

8. The depth of water table: 60 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: This well has an eight inch casing. 200 feet deep - about 100 feet of water in well at all times.

10. The estimated amount of groundwater withdrawn each year: 900 million gallons.

11. The log of formations encountered in the drilling of each well if available: Mostly gravel from surface to 200 feet deep - a small layer.

Notice of Completion of Groundwater Appropriation
Without Well
(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: Aug. 17, 1965

Owner: EDWARD R. HENRY
Address: 89-18-Box 179
Dillon, Montana

Contractor (if any) ........................................
Address of Contractor ........................................
Date Started........................................ Date Completed........................................

Describe means of obtaining groundwater without a well “as by
sub-irrigation and other natural processes”. Include depth to
water when applicable: Sub-irrigation pond 55' deep

- about 1000-feet wide - and 1000-feet long - will

- use pump

Quantity of water developed and used with explanation of method
used to measure or estimate such amount. If use is intermittent
estimate approximate lengths of periods of use: 5 months

- in the spring - and summer

Indicate point of appropriation and
place of use, if possible.

Signature of Owner: EDWARD R. HENRY
Date: Aug. 17, 1965

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the
works are located.

[Form details]

[Fill in form details]

1. [Name of Appropriator] of [Address], [Town] have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based

3. Date or approximate date of earliest beneficial use; and how continuous the use has been

4. The amount of groundwater claimed (in miner's inches or gallons per minute)

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater

8. The depth of water table

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater

10. The estimated amount of groundwater withdrawn each year

11. The log of formations encountered in the drilling of each well if available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Deputy
STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Tri State Minerals, of Dillon, Mont.
   (Name of Appropriator)
   County of Beaverhead, State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Operation of coal refining plant at Barretts station.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: Feb. 1, 1953, continuous.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 130 g.p.m.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   - 1/4 H.P. turbine

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Aug. 1952
   - Started drilling, Jan. 1953
   - Extended well down. Feb. Installed jet pump capable of withdrawing 100 g.p.m.
   - Sept. 1953 completed.

8. The depth of water table: 45 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 8" std. pipe, slotted with torch for 10' of perforations. Total depth of well 85'. Top of perforations 21 ft of surface. Installed turbine pump in well replacing jet. Tested 132 g.p.m.

10. The estimated amount of groundwater withdrawn each year: 50,000,000 gal.

11. The log of formations encountered in the drilling of each well if available: Gravel & clay to 10', then gravel to 30', then sand to 65'. No water below.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner: [Signature]
Date: Aug. 29, 1962

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the App appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Fine Pigments Division Tri State Minerals
   (Name of Appropriator)  (Address)
   County of Beaverhead  State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: operation of the processing plant at Barretts, etc.

3. Date or approximate date of earliest beneficial use and how continuous the use has been: Aug. or Sept. 1959
   continuous

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 120 g.p.m.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 0 acres

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   deep well, jet, pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Drilling started July 25, 1959. Well test pumped July 28, 1959

8. The depth of water table: Static water level 16 ft

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Well is drilled and cased with 8" and 6" pipe. Casing slotted with torch between 200 & 300 ft. All water is obtained above 300 ft.

10. The estimated amount of groundwater withdrawn each year: 0 to 50 million gallons/yr

11. The log of formations encountered in the drilling of each well if available: Gravel to 30'; then yellow sandy clay to 61 ft. No water at bottom of casing.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

County of Yellowstone. 

I hereby certify that the within instrument was filed in my office on the _____ day of 19__ A.D. 1964, at 9:00 A.M. and received in Book 16, page 533 of Book 16, of records of Yellowstone County, Montana. 

Attest my hand and seal,

DEPUTY
Notice of Completion of Groundwater Appropriation by Means of Well
DEVELOPED AFTER JANUARY 1, 1962
(Under Chapter 237, Montana Session Laws, 1961)

Owner: Montana Highway Commission
Address: Helena, Montana

Driller: Montana Highway Dept.
Address: Helena, Montana

Date of Notice of appropriation of groundwater: January 21, 1966

Date well started: January 4, 1966
Date completed: January 14, 1966

Type of well: Drilled
Equipment used: Churn drill
(Churn drill, rotary or other)

Water use: Domestic • Municipal • Stock • Irrigation • Industrial • Drainage • Other •

Depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well:

Level of Groundwater:
- Static Water Level for non-flowing well
- Shut-in Pressure for flowing well
- Pumping Water Level
- Recommended intake

Bottom of casing:
- 44.6 ft.

Static Water Level for non-flowing well: 12 feet
Shut-in Pressure for flowing well: 0 psi
Pumping Water Level: 37 feet
Discharge in gal. per min. of flowing well: 22 gal.

How Tested: Pumped
Length of Test Bailed: 3 hrs

Remarks: Gravel packing, cementing, packers, type of shut-off

USE—If used for irrigation, industrial, drainage or other. Explain, state number of acres and location or other data (i.e.: Lot, Block and Addition).

Analysis of water:
- Ph 6.8 due to carbon dioxide (CO₂)
- CO₂: 6.8 p.p.m. soluble in water
- Phenoethylamine: 0
- Alkalinity: 157 mg/l of CaCO₃
- Total Hardness: 214 mg/l of CaCO₃

None required

Driller's License Number: 4963

Driller's Signature: [Signature]

File No.

County: Beaverhead

County Clerk and Recorder: [Signature]

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located, three copy be retained by driller.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.
