County of Big Horn

The within instrument was filed in my office at Hardin, Montana, the

DEC. 27, 1966, day of

A.D. 19

at 12 o'clock, M.

J. H. Cole
County Recorder

(Township and Section)
Walter O. Green, Jr. of Lodge Grass

County of Big Horn, State of Montana have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based

3. Date or approximate date of earliest beneficial use; and how continuous the use has been prior to 1947 and since

4. The amount of groundwater claimed (in miner's inches or gallons per minute) approximately 40 gal. per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof not applicable

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal artesian well

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater 1947

8. The depth of water table 300 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater four inch cased well, 300 feet deep, artesian

10. The estimated amount of groundwater withdrawn each year approximately 21,024,000 gal.

11. The log of formations encountered in the drilling of each well if available.

1. Walter O. Green, Jr. (Name of Appropriator)
   of Lodge Grass (Address)
   County of Big Horn (State of Montana) (Town)

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based ____________________
   human and livestock watering

3. Date or approximate date of earliest beneficial use; and how continuous the use has been ______
   prior to 1937 and continuous use since ______

4. The amount of groundwater claimed (in miner's inches or gallons per minute) ____________________
   approximately 10 gal. per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof ______
   approximately 1 acre, home lawn and garden use

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal ______
   pressure system

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater ______
   1931

8. The depth of water table ______ 70 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater ______
   six inch cased well, 70 feet deep

10. The estimated amount of groundwater withdrawn each year approximately 5,256,000 gal.

11. The log of formations encountered in the drilling of each well if available ______
    not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record ______
    well was recorded with the state at one time

Signature of Owner ____________________________
Date December 25, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Notice of Completion of Groundwater Appropriation Without Well
(Under Chapter 297 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: June 1, 1959

Owner: Henry Weibert
Address: Garryowen, Mont.

Contractor (if any): Owner
Address of Contractor: 

Date Started: June 1, 1959 Date Completed: June 10, 1959

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. This is a dug spring, water at surface of ground.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use. Year around use.

Sign of Owner: 
Date: December 30, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.

County of Big Horn, State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based
   Household-Livestock Water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. June 1957, has been in continuous use every day.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 100 gal/min

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. None

   Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

   Sec 35, T4S., R.35E

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.
   Deep well electric pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. June 1957

8. The depth of water table 50'

9. So far as it may be available, the type, size and depth of each well, or the general specifications of any other works for the withdrawal of groundwater.
   6" hole and casing 85' deep, high pressure deep well electric pump
   Cap 1,000 gal/hr.

10. The estimated amount of groundwater withdrawn each year 355,000 gal.

11. The log of formations encountered in the drilling of each well if available.
   Sandy Loam 0'-40'
   Shale 40'-70'
   Bearpaw formation 70'-85'

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None

Signature of Owner

Date 12-4-63

OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Francis Cooley, of Kirby Rte., Busby
   (Name of Approprietor) (Address) (Town)

   County of Big Horn, State of Mont., have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based: barn, garden

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1950-continuous, another well was drilled in 1960, but not used.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): 10 gal per min.

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
      electric pump

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: one drilled 1950, the other 1960.

   8. The depth of water table: 40 ft. for both wells.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 4" casing, 40 ft.

   10. The estimated amount of groundwater withdrawn each year: 30,000 gal.

   11. The log of formations encountered in the drilling of each well if available: not available.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: wells were drilled by Henry Gray.

   Signature of Owner: [Signature]

   Date: August 8, 1965

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Approprietor.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Adeline L. Dahle, of Box 9, Busby

County of Big Horn State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Stock Water

3. Date or approximate date of earliest beneficial use and how continuous the use has been: Around Sept. 1936, had water in constant use had water on some days, used water on other days, several hrs.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): About 8 gals. per min.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: Not Applicable

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: By Electric Water Pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   - No. 1: Oct. 16, 1938
   - No. 2: Sept. 30, 1937
   - No. 3: Sept. 10, 1938
   - No. 4: Oct. 3, 1938

8. The depth of water table:
   - No. 1: 200 ft.
   - No. 2: 90 ft.
   - No. 3: 90 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:

10. The estimated amount of groundwater withdrawn each year: More than a Million

11. The geology of formations encountered in the drilling of each well if available: Not Available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None

Signature of Owner: Adeline L. Dahle
Date: 12/31/43

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the School of Mines and quadruplicate for the Appropriator.

Chancy W. Scheller, being first duly sworn, deposes and says that he is the well driller named above, that he has read the above report, and that the same is true of his own knowledge.

Subscribed and sworn to before me this day of July, 19__

(SEAL)
"AN ACT TO PROVIDE FOR THE CONSERVATION OF UNDERGROUND WATER; PROVIDING FOR THE CASING AND CAPING OF ARTESIAN WELLS; PROVIDING FOR THE REGULATION OF ARTESIAN AND DEEP WATER WELLS AND PROHIBITING THE WASTE OF WATER THEREFROM; PROVIDING A PENALTY FOR THE VIOLATION OF THE PROVISIONS OF THIS ACT AND PRESCRIBING THE DUTIES OF THE STATE ENGINEER IN RELATION THERETO."

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Any person owning land shall have the right to sink or bore an artesian well or wells on his land for the purpose of procuring water for domestic use, for the use of stock, or irrigation, or for manufacturing purposes.

Section 2. Every person sinking or boring an artesian well or well of more than 25 feet in depth in the State shall cause to be placed in such well a proper and sufficient casing arranged as to prevent the cave-in of such well and to prevent the escape of water therefrom through any intervening sand and gravel stratum and shall provide the necessary valves, plugs or other appliances to prevent or control the flow of water from such well, and prevent the loss of underground water above or below the ground surface.

Section 3. That the driller shall keep a log of the depth, thickness, and character of the different strata penetrated, together with the data pertaining to the work; when begun; when finished; the amount, size and weight of casing, and how placed; size of drilled hole; when sealed and type of seal; name of well driller and type of machinery used; the number of cubic feet per second or gallons per minute of flow from such well when finished, above the top of casing, and pressure thereof, if same be a flowing well; all of which shall be verified under oath on forms prescribed by the State Engineer and furnished to the State Engineer within thirty (30) days following completion of said well, and to be made a permanent record of his office.

Section 4. No person owning or controlling an artesian well shall suffer or permit the water thereof to flow to waste except so far as reasonably necessary to prevent the loss of underground water above or below the ground surface.

Section 5. That the State Engineer may require the users of underground water in any area or sub-area, to determine whether the water supply within such area or sub-area is used in compliance with this act.

Section 6. Any person violating any of the provisions of this act shall be deemed guilty of misdemeanor, and on conviction thereof shall be punished as provided by law.

Section 7. Such information as is required or secured under the provisions hereof shall constitute public records, and as such shall be available to the public at all reasonable times.

Section 8. It is the intention of the legislature, by the exercise of the police powers of the State, to prevent the waste of underground waters and pollution and contamination of the underground water supply, and provide for the administration of the provisions of this act by regulations as may be necessary for the proper and orderly execution of the powers conferred by this act.

Section 9. For the purpose of this act, an artesian well shall be defined as a well from which water flows naturally from the top of the ground.

Section 10. All acts and parts of acts in conflict with the provisions of this act are hereby repealed; provided that this act shall not constitute a repeal of Sections 2650.1, 2650.2 or 2650.3, Revised Codes of Montana, 1935.

This law becomes effective July 1, 1947.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, the undersigned would estimate that 20 gallons a minute is used.

Signature of Owner:  
December 31, 1963

Date: ___________

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder: duplicate to the State Engineer. Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.
STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1954

Owner: PRYOR LAND CO., a Montana Corporation
Address: Hardin, Montana

Contractor (if any): None
Address of Contractor: None

Date Started: 1954
Date Completed: 1954

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.

These springs are used for stock water. The groundwater is obtained by sub-irrigation and natural processes.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use.

Each spring is estimated to have a production of 10 gallons a minute
