STATE OF MONTANA

ADMINISTRATOR OF GROUNDWATER CODE

OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

JOHN TOWN and DUGAL MARKS

(Name of Appropriator)

of Bridger

(Address)

Town of

County of Carbon State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is for irrigation of agricultural crops and domestic use.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been since

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 400 miner's inches

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. This water

consists of springs whose waters are collected in ditches and an artesian well.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Springs were used from date of 1895. Artesian well was completed February 17, 1950. Waters of all are used for these beneficial uses.

8. The depth of water table varies. Some of land has to be drained. Water table then varies from the surface to 786 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. In 1950 a well was drilled prospecting for oil. It hit an artesian flow at 786 feet and flows approximately 330 miner's inches. Of this claimed rights are 150 miner's inches. The 250 additional inches are from springs. The waters of the springs are collected by pipes and ditches.

10. The estimated amount of groundwater withdrawn each year. Use of claimants is 400 miner's inches

11. The log of formations encountered in the drilling of each well if available. No complete log. At 631 feet small show of oil and gas, more gas at 642 feet. Not commercial quantities. Artesian well was drilled at 786 feet

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. We believe that the foregoing shows and establishes the nature and extent of our claims.

Signature of Owner Dugal Marks Date December 17, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Otto F. Vedlicka and Mayes Vedlicka (record titleholders)
1. James J. Vedlicka and Edward Vedlicka (contract for deed titleholders)
   County of CAREG.. Town of Probes, State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based
   water for livestock

3. Date or approximate date of earliest beneficial use; and how continuous the use has been claim based on claims and predecessors' use continuously since year if 1/2

4. The amount of groundwater claimed (in miner's inches or gallons per minute) spring No. 1 - 4 to 6 gal per min.
   spring No. 2 - 2 gal per min.
   spring No. 3 - 2 gal per min.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof free flowing

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal free-flowing
   springs, with name,占地, to keep their clean

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater no wells

8. The depth of water table not least

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
   2-inch pipes
   series of 3/4-inch pipes
   2-inch pipe

10. The estimated amount of groundwater withdrawn each year throughout the year, estimate of 2,000,000 gal per year

11. The log of formations encountered in the drilling of each well if available no drilling

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner Edward Vedlicka
Date October 21, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Notice of Completion of Groundwater Appropriation by Means of Well

Developed after January 1, 1962

(Under Chapter 237, Montana Session Laws, 1961)

Notice of appropriation of groundwater is hereby given of a well drilled on the following date and location:

Date of Notice of appropriation of groundwater: 6/10/65

Date well started: 6/4/65

Date completed: 6/4/65

Owner: U.S. Forest Service

Address: Dept. H. Drilling

Equipment used: Churn Drill

Water use: Domestic

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock, sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: Feb. 27, 1937
Contractor (if any): None
Address of Contractor:
Date Started: 1929
Date Completed: Spring - 1937
Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. Dug out spring - Curbed and piped it - about 125 feet Northwest of Cabin location.
Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use. Being used during entire year - sufficient water to supply Cabin use.

Signature of Owner: Ethel A. Lee
Date: August 19, 1963.

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

V. Notice of Completion of Groundwater Appropriation Without Well
(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater August 21, 1965

Contractor
Edwin S. Koch

Address
East Rosebud Lake
Butte, Montana

Address of Contractor
Ruth M. Koch

Date Started
July 26, 1964

Date Completed
August 17, 1964

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes", include depth to water when applicable.
Developed two (2) small springs by excavation (approx. three feet) and connecting to previous water supply ditch, catch basin and pipe system. Water is for domestic use.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use.
Estimated quantity developed is about 12 gpm.

Supply ditch is shut off in winter and used during spring, summer and fall.

Notice of Completion of Groundwater Appropriation
Without Well
Developed After January 1, 1962
(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: March 12, 1970.
Owner: RICHARD POPELOCA
Address: 392 Lake Elmo Road, Billings, Montana
Contractor (if any): None
Address of Contractor: None
Date Started: March 12, 1970
Date Completed: May 6, 1970

1) Describe means of obtaining groundwater (as by sub-irrigation, developed spring, drains, etc.). Spring, seepage, and winter runoff from an unnamed coulee, said water to be accumulated in dam to be built.

2) Means of withdrawing water (gravity, pump, canal, etc.). Gravity or pump.

3) Depth of water table: 3 feet.

4) Use of the water: Irrigation and stock water.

5) Amount of groundwater claimed (in miner's inches, or gallons per minute): 100 miner's inches.

6) If used for irrigation, give number of acres and description of land: 120 acres in the South West Quarter of the Northeast Quarter (S, 4NE) and the West Half of the Southeast Quarter (S, 6SE) of Section 13, Township 7 South, Range 19 East, M. & M.

7) Estimate amount of water used each year: 100 inches for period of three months, and lesser amounts for stock water year round.

Signature of Owner: Richard Popelka
Date: May 6, 1970

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Notice of Completion of Groundwater Appropriation Without Well
(Under Chapter 237 Montana Session Laws, 1908)

RECEIVED
JAN 26 1968

Date of Appropriation of Groundwater.
7-19-35
Owner, Property, Section, T. 26 N., Sec. 1
Contractor (if any) None
Address of Contractor None
Date Started 7-19-35 Date Completed 7-20-35

Describe means of obtaining groundwater without a well as by sub-irrigation and other natural processes. Includes depth to water when applicable.

Natural Springs
1. #1 is pipe to house for domestic purposes and for stock and irrigation

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use.

1. SESE 1 7-20 4000 gpd, continuous
2. NESE 1 7-20 500 gpd, continuous
3. SESE 1 7-20 500 gpd, continuous

Signature of Owner
Date 12/31/68

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

Static Water Level for non-flowing well: 22 feet.

Shut-in Pressure for Flowing Well:

Pumping Water Level: 80 feet at 35 gal. per minute.

Discharge in gal, per min. of flowing well:

How Tested: Bailer

Length of Test:

Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of acres irrigated, if used for irrigation)

Indicate location of well and place of use, if possible. Each small square represents 10 acres.

Show exact depth of bottom.

This form to be prepared by driller. Three copies to be filed by the owner with the County Clerk in the county in which the well is located.

Please answer all questions. If not applicable, write "none," otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the School Board and Quadruplicate for the Appropriator.

Driller’s License Number: No. 57

Driller’s Signature
