Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

1. United States Government
Gustar National Forest of Camp Creek
(Name of Appropriator) (Address) (Town)
County of Harding State of South Dakota
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SW 1/4 Sec 34 T. 2S. R. 61E.
Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based.....
stock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been.....
Nov. 1, 1937 - continuous during winter months

4. The amount of groundwater claimed (in miner's inches or gallons per minute).....
1 gallon per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.....
not applicable

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.....
spring box

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.....
1938

8. The depth of water table.....
surface

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwaters.....
spring box with 1 1/4" pipe to water tank

10. The estimated amount of groundwater withdrawn each year.....
73,000 gallons

11. The log of formations encountered in the drilling of each well if available.....
not applicable

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.....
Recorded in files of U. S. Forest Service at Camp Creek, South Dakota

Signature of Owner U. S. Forest Service
Montez Lopez
District Engineer
Date 10-30-62

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

(Under Chapter 237, Montana Session Laws, 1961)

William F Tiensovd, of Mill Iron
(Name of Appropriator) (Address) (Town)
County of Carter State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NW 1/4 Sec 18 25 R62E

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based
1-2 Stock & House Use

3. Date or approximate date of earliest beneficial use; and how continuous the use has been
1- 1905
2- 1955

4. The amount of groundwater claimed (in miner's inches or gallons per minute)
1- 10
2- 10

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
1- Electric
2- Handmill

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater
1- 1925
2- 1955

8. The depth of water table
2- 40

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
1- 30ft Deep, 5" pipe casing 5"
2- 180ft Deep 5" pipe casing 5"

10. The estimated amount of groundwater withdrawn each year
1- 500 Gal Day
2- 400 Gal Day

11. The log of formations encountered in the drilling of each well if available
Not Available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner William F Tiensovd

Date 12-17-63

This declaration shall be filed by the owner with the County Clerk and Recorder of the county in which the well is located

and a copy of this declaration shall be filed with the State Engineer. If not applicable, so state, otherwise the form will be returned.

One copy of this declaration shall be filed with the County Clerk and Recorder, Duplicate to the State Engineer, Triplicate to the Montana Bureau of Geology and Mineral Industries, and one duplicate for the Appropriator.

Date of Notice of Appropriation of Groundwater

Date well started: Aug 29 Date Completed: Aug 30

Type of well: Drilled Equipment Used: Rotary
(dug, driven, bored or drilled) (Churn, drill, rotary or other)

Water Use: Domestic Municipal Stock Irrigation
Industrial Drainage Other

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

Size of Drilled Hole	Size and Weight of Casing	From (Feet)	To (Feet)	PERFORATIONS		
				Kind Size	From (Feet)	To (Feet)
5 1/2"	4" 11 pound pipe	0	90	round	48	90
4 3/4"	3" 7 pound pipe			hole		
4 1/2"	4" pipe			1/4"		

SW 1/4 SE Sec. 27 T 25 R 62 E

Indicate location of well and place of use, if possible. Each small square represents 10 acres.

Show exact depth of bottom.

90 ft Deep

Static Water Level for non-flowing Well ... 52 feet.

Shut-in Pressure for Flowing Well

Pumping Water Level ... 60 feet at 10 gal. per minute.

Discharge in gal. per min. of flowing well

How Tested: Surber Length of Test: 1 hour

Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of acres irrigated, if used for irrigation)

Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

United States Government
1. ~~XXXX~~ Custer National Forest of Cannock
(Name of Appropriator) (Address) (Town)
County of Harding State of South Dakota
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1/4 Sec. 29 T. 2S. R. 62E.
Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

- 2. The beneficial use on which the claim is based.....
stock water
- 3. Date or approximate date of earliest beneficial use; and how continuous the use has been. 1937 - continuous during the summer months
- 4. The amount of groundwater claimed (in miner's inches or gallons per minute)..... 1 gallon per minute
- 5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.....
not applicable
- 6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.....
tile and collection box and piped to stock watering tank
- 7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater..... completed 1937
- 8. The depth of water table..... surface
- 9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater..... not applicable
- 10. The estimated amount of groundwater withdrawn each year..... 200,000 gallons
- 11. The log of formations encountered in the drilling of each well if available..... not applicable
- 12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record..... Recorded in files of U. S. Forest Service at Cannock, South Dakota

1. United States Government
Chamber National Forest of LeFlore
(Name of Appropriator) (Address) (Town)
County of LeFlore State of South Dakota
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4 Sec. 34 T. 23, R. 22.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

- The beneficial use on which the claim is based. stock water
- Date or approximate date of earliest beneficial use; and how continuous the use has been. 1935 - continuous during the entire month
- The amount of groundwater claimed (in miner's inches or gallons per minute). 1 gallon per minute
- If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. not applicable
- The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Windmill
- The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. 1935
- The depth of water table. 151' to water, water depth 55'
- So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. 5" casing, 2" pipe 105' deep with 3" c. liner, windmill with 2' wheel
- The estimated amount of groundwater withdrawn each year. 150,000 gallons
- The log of formations encountered in the drilling of each well if available. 1-23' sand, 23-25' hard sand rock, 25-27' coal, 27-29' mud, 29-31' hard rock, 31-33' mud, 33-35' hard rock, 35-37' hard rock, 37-39' hard sand rock, 39-41' soft sand rock, 41-43' mud rock, 43-45' soft sand, water
- Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. see well record on file w. S. Forest Service, LeFlore, South Dakota
