STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Notice of Completion of Groundwater Appropriation
Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1930
Owner: Archie N. Hunt  Address: Monarch, Montana
Contractor (if any): Address of Contractor: 
Date Started: Date Completed: 

Describe means of obtaining groundwater without a well 
"as by sub-irrigation and other natural processes". Include depth to 
water when applicable. water percolates to surface in 
form of natural spring.

Quantity of water developed and used with explanation of method 
used to measure or estimate such amount. If use is intermittent 
estimate approximate lengths of periods of use. water used for 
watering livestock during all months of year except 
severe winter months. Estimated amount running and 
percolating from spring 100 gallons per hour which is 
picked up from basin and piped to watering trough.

Signature of Owner: Date: March 19, 1971

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

(Under Chapter 237, Montana Session Laws, 1961)

1. Name of Appropriate: Archie N. Hunt

2. The beneficial use on which the claim is based: Livestock watering and irrigation

3. Date or approximate date of earliest beneficial use: January 1936

4. The amount of groundwater claimed (in miner's inches or gallons per minute): Ten gallons per minute

5. If used for irrigation, give the acreage and description of the land to which water has been applied: 40 acres, Southwest Quarter Section 22, Township 15 North, Range 7 East, Cascade County, Montana.

6. The means of withdrawing such water from the ground: Natural spring percolating to surface, water is conveyed through a two inch pipe into watering trough.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Commencement and completion in January, 1936.

8. The depth of water table: Water percolates to surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Not applicable

10. The estimated amount of groundwater withdrawn each year: 500,000 gallons

11. The log of formations encountered in the drilling of each well if available: Not applicable

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: Not applicable

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

DR. ROBERT H. FARNSWORTH and
JAMES ENGEL
(Name of Appropriator) (Address) (Town)

County of Cascade State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based - Domestic use - Human consumption - General household use.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Approximately May, 1961 and continuously thereafter.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 2 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. None.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Natural spring. Concrete cistern - piped to dwelling.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. May 1961.

8. The depth of water table. Unknown. Estimated probable depth - 100 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. No well. Circular concrete cistern is approximately 4 ft. in diameter and 4 ft. high. Water is removed by a 1/4 inch pipe for diversion to point of use.

10. The estimated amount of groundwater withdrawn each year. 10,000 gallons.

11. The log of formations encountered in the drilling of each well if available. Not applicable. No well has been drilled as yet since there has been a natural flow to the surface through a natural spring. This spring has been developed by the construction of cistern and pipes as aforesaid.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. Appropriation is located on the Southside of Power Coulee, East of Belt Creek, Cascade County, Montana, approximately 1600 ft. more or less, from the SE corner of Section 23, T. 15N, R. 7E. Place of use is approximately 1500 ft. East of place of appropriation.

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

   W
   
   
   
   SE 1/4, SE 23, T. 15N, 7E

   Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

   2. The beneficial use on which the claim is based. Domestic use -
      Human consumption - General household use.

   3. Date or approximate date of earliest beneficial use; and how continu-
      ously the use has been. Approximately May, 1961 and
      continuously thereafter.

   4. The amount of groundwater claimed (in miner's inches or gallons
      per minute). 3 gallons per minute.

   5. If used for irrigation, give the area or description of the land
      to which water has been applied and name of the owner thereof
      None.

   6. The means of withdrawing such water from the ground and the loca-
      tion of each well or other means of withdrawal. Natural spring.
      Concrete cistern - piped to dwelling.

   7. The date of commencement and completion of the construction of the well, wells, or other works for with-

   8. The depth of water table. Unknown. Estimated probable depth - 100 ft.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other
      works for the withdrawal of groundwater. No well. Circular concrete cistern is approximately
      4 ft. in diameter and 4 ft. high. Water is removed by a 1½ inch pipe for diversion...to point of use.

   10. The estimated amount of groundwater withdrawn each year. 15,000 gallons.

   11. The log of formations encountered in the drilling of each well if available. Not applicable. No well has
      been drilled as yet since there has been a natural flow to the surface through a natural
      spring. This spring has been developed by the construction of cistern and pipes as
      forewaid.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including
      reference to book and page of any county record. Appropriation is located on the South side of Power
      Coulee, West of Belt Creek, Cascade County, Montana, approximately 1000 ft., more or
      less, from the SE corner of Section 23, T. 15N, R. 7E. Place of use is approximately
      1500 ft. East of place of appropriation.

JAMES ENGE

I. DR. ROBERT H. FARNSWORTH and/ of 2300 6th Avenue South, Great Falls
(Name of Appropriator) (Address) (Town)
County of Cascade State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Domestic use - human consumption - General household use.

3. Date or approximate date of earliest beneficial use; and how continuously the use has been appropriated in May of 1947 and used continuously thereafter.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 2 gallons per minute

5. If used for irrigation, give the acreage and description of the land to which water has been applied and name of the owner thereof. None

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Natural spring - concrete cistern - piped to dwelling - gravity flow.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: No well. Cistern completed in May 1947.

8. The depth of water table: Unknown. Estimated probable depth - 100 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: No well. Concrete cistern is approximately 8 ft. in length by 4 ft. wide by 4 1/2 ft. high. Water is removed by a 1 1/2 inch pipe for diversion to point of use.

10. The estimated amount of groundwater withdrawn each year: 10,000 gallons.

11. The log of formations encountered in the drilling of each well if available: Not applicable. No well has been drilled as yet since there has been a natural flow to the surface through a natural spring. This spring has been developed by the construction of cistern and pipes as aforesaid.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: Location of appropriation is approximately as follows: Beginning at the Southwest corner of Section 24, T. 15N, R. 7E, thence bearing North 12 degrees East a distance of approximately 1300 ft., more or less, to the place of appropriation, being on the south side of Power Coulee, West of Belt Creek, Cascade County, Montana. Place of use is approximately 150 ft. East of point of appropriation.

County of Cascade  State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. The beneficial use on which the claim is based Domestic use - human consumption - General household use.

2. Date or approximate date of earliest beneficial use, and how continuous the use has been Appropriated in May of 1947 and used continuously thereafter.

3. The amount of groundwater claimed (in miner's inches or gallons per minute) 3 gallons per minute

4. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof None

5. Point of appropriation and place of use, if possible. Each small square represents 10 acres.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Natural spring - concrete cistern - piped to dwelling, gravity flow.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater No well. Cistern completed in May 1947.

8. The depth of water table Unknown. Estimated probable depth - 100 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater No well. Concrete cistern is approximately 6 ft. in length by 4 ft. wide by 4 ft. high. Water is removed by a 4 inch pipe for diversion to point of use.

10. The estimated amount of groundwater withdrawn each year 15,000 gallons.

11. The log of formations encountered in the drilling of each well if available Not applicable. No well has been drilled as yet since there has been a natural flow to the surface through a natural spring. This spring has been developed by the construction of cistern and pipes as aforesaid.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record Location of appropriation is approximately as follows: Beginning at the Southwest corner of Section 24, T. 15N, R. 7E, thence bearing North 12 degrees East a distance of approximately 1300 ft., more or less, to the place of appropriation, being on the south side of Power Coulee, West of Belt Creek, Cascade County, Montana. Place of use is approximately 100 ft. East of point of appropriation.

Signature of Owner

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. NORMAN WOODAHL, 311 3rd Avenue North, Great Falls, Montana
   (Name of Appropriator) (Address) (Town)

   County of Cascade, State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based. Domestic use - human consumption - General household use.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been appropriated in May of 1947 and used continuously thereafter.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 2 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. None.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal - Natural spring - concrete cistern - piped to dwelling, gravity flow.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. No well. Cistern completed in May 1947.

8. The depth of water table. Unknown. Estimated probable depth - 100 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. No well. Concrete cistern is approximately 6 ft. in length by 4 ft. wide by 4½ ft. high. Water is removed by a 1½ inch pipe for diversion to point of use.

10. The estimated amount of groundwater withdrawn each year. 10,000 gallons.

11. The log of formations encountered in the drilling of each well if available. Not applicable. No well has been drilled as yet since there has been a natural flow to the surface through a natural spring. This spring has been developed by the construction of cistern and pipe as aforesaid.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record - Location of appropriation is approximately as follows: Beginning at the Southwest corner of Section 24, T. 15N. R. 7E, thence bearing North 12 degrees East a distance of approximately 1300 ft., more or less, to the place of appropriation, being on the south side of Power Coulee, West of Belt Creek, Cascade County, Montana. Place of use is approximately 150 ft. East of point of appropriation.

### Equipment and Water Use

- **Type of well:** Drilled
- **Equipment used:** Rotary (Drill, driven, bored or drilled)
- **Water use:** Domestic [x] Municipal [ ] Stock [x] Irrigation [ ]
- **Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc.**
- **Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.**

### Water Levels

- **Static Water Level for non-flowing well:** 68 feet
- **Pumping Water Level:** 110 feet
- **Shut-in Pressure for flowing well:** 10 gal. per minute
- **Discharge in gal. per min. of flowing well:**
- **How Tested:** Air Compressor
- **Length of Test:** 1 hour
- **Remarks:** (Gravel packing, cementing, packers, type of shutoff, etc.) Packers set at 60' and 20'
