Mr. John L. Lulf
Box 669
Fort Benton, Montana 59442

Dear Mr. Lulf:

This is in reference to the enclosed GM-4 form, Declaration of Vested Groundwater Rights, that was filed on July 13, 1972 at 2:10 PM (document number 367271) at Fort Benton, Montana.

The Declaration of Vested Groundwater Rights form was intended for appropriators to file on vested groundwater rights for a certain period of time only. That period was from January 1, 1962 to January 1, 1966. Therefore, after January 1, 1966, according to the Groundwater Code, the GM-4 form was invalid and could not legally be used as an appropriation form.

The proper form to use for completed wells, filed on or after January 1, 1966, is the Notice of Completion of Groundwater Appropriation by Means of Well, GM-2. One set of the GM-2 form is enclosed for your own use. Please complete all blanks as accurately as possible and attach any proof that the date of first beneficial use did actually date back to 1966 as indicated on the enclosed GM-4 form. It is to your advantage to file and attach additional proof, if available, in case there is a dispute over the groundwater in your area.

If we can be of further assistance, please feel free to contact us at any time.

Sincerely,

Ronald J. Guse
Groundwater Rights Coordinator
