**NOTICE OF COMPLETION OF GROUNDWATER APPROPRIATION WITHOUT WELL**

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater December 30, 1963

Owner G. H. Perry, etal

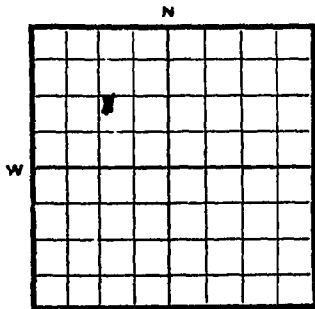

Address Box 1194, Great Falls, Montana

Contractor (if any) Unknown

Address of Contractor .....

Date Started Unknown Date Completed Unknown

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. Spring opened and ditched to supplement the run-off to an earth filled dam carries about 12 ft. of water at the high mark but gets down to a limited amount with out sufficient rainfall.

7/8 SE 1/4 Sec. 35 T. 24 R. 9 E

Indicate point of appropriation and place of use, if possible.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use .....

For livestock use mostly during summer months and some years for winter use too.

Signature of Owner G. H. Perry

Date Dec. 30, 1963

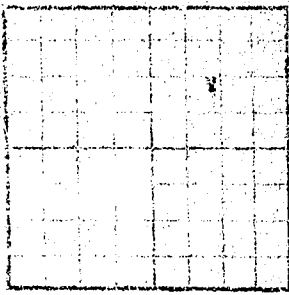

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quathuplicate for the Appropriator.

1. G. K. Leundy, of Leona  
(Name of Appropriator) (Address) (Town)

County of Chouteau State of Montana  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4 SW 1/4 Sec. 6 T25N R10W

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based Domestic Household-stockwater-irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1949-continuous use thereafter.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 100 miner's inches

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof adjoining land- 1 acre.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal 500 gpm electric pump, 1/2 inch pipe to well

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater 1949-42 inch concrete casing, 25 feet in depth

8. The depth of water table 20 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater 42 inch concrete casing, 25 feet in depth.

10. The estimated amount of groundwater withdrawn each year 6 million gallons

11. The log of formations encountered in the drilling of each well if available not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record none

Signature of Owner G. K. Leundy

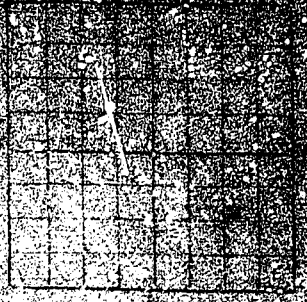

Date 30 December 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. - If not applicable, so state, otherwise the form will be returned.

DECLARATION OF VESTED GROUNDWATER RIGHTS  
(Under Chapter 237, Montana Session Laws, 1961)

1. Mary E. Bogner of Foot Benton, Mont  
(Name of Appropriator) (Address) (Town)

County of Chouteau State of MONTANA  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4, Sec 12, T24N R10W

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based STOCK WATER

3. Date or approximate date of earliest beneficial use; and how continuous the use has been SEPT. 1962  
INTERMITTENT

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 2 gals per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof NOT APPLICABLE

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal GASOLINE ENGINE AND PUMP

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater AUG. 1962

8. The depth of water table GROUND LEVEL TO 3 FT.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater SHALLOW WELL, 2 1/2 inch GALVANIZED  
CULVERT CASING, 15 FT. DEPTH

10. The estimated amount of groundwater withdrawn each year APP. 20,000 gals

11. The log of formations encountered in the drilling of each well if available SAND & GRAVEL

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record NOT APPLICABLE

Signature of Owner Mary E. Bogner  
Date Dec - 30 - 63

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

26164

1. The amount of groundwater pumped (in gallons) during the period of construction and completion of the well, water or other source for the well.

2. If used for irrigation give the acreage and name of the farmer to which water has been applied and name of the contractor.

3. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

4. The amount of groundwater pumped (in gallons) during the period of construction and completion of the well, water or other source for the well.

5. If used for irrigation give the acreage and name of the farmer to which water has been applied and name of the contractor.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

7. The date of construction and completion of the well, water or other source for the well.

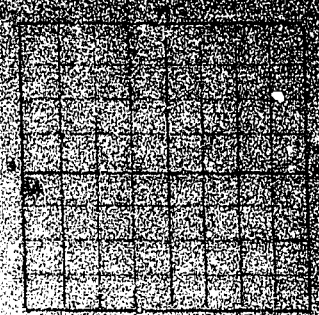

8. The depth of water table.

9. So far as it may be available the type, size and depth of each well or other source for the withdrawal of groundwater.

10. The estimated amount of groundwater withdrawn with each well.

11. The use of formation water in the vicinity of each well, if available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act.

2. The beneficial use on which the claim is based  
STOCK WATER

3. Date or approximate date of earliest beneficial use; and how continuous the use has been  
1915

4. The amount of groundwater claimed (in miner's inches or gallons per minute)  
6 GAL. PER MIN.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal  
ELECTRIC PUMP

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater  
NOT KNOWN

3. The depth of water table  
30 FEET

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater  
120 FEET DEEP

10. The estimated amount of groundwater withdrawn each year  
300,000 GALS.

11. The log of formations encountered in the drilling of each well if available  
NOT KNOWN

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner Clarence Bailey

Date Dec 31, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1982, as follows:

- 2. The beneficial use on which the claim is based
- 3. Date of approximate date of earliest beneficial use; and how you know the use has been made
- 4. The amount of groundwater obtained (in miner's inches or gallons per minute)
- 5. If used for irrigation give the acreage and description of the lands to which water has been applied and name of the owner thereof
- 6. If the use is for other than irrigation, give the location and the location of each well or other source of withdrawal

Section 10  
 Township 10 N  
 Range 10 W  
 This diagram indicates point of application and place of use if possible. Each well or other source represents 10 acres.

- 7. The date of commencement and completion of the construction of the well, water or other works for which claim is made
- 8. The depth of each well
- 9. So far as it may be available, the flow and depth of the well or the general specifications of any other works for the withdrawal of groundwater
- 10. The amount of groundwater withdrawn each year
- 11. The date of the most recent withdrawal

12. The date of the most recent withdrawal

**NOTICE OF COMPLETION OF GROUNDWATER APPROPRIATION WITHOUT WELL**

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater October, 1953

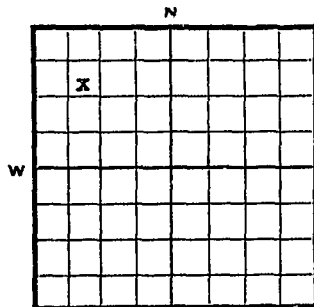

Owner Boyd F. Crawford

Address Fort Benton, Montana

Contractor (if any) Eddie Albers

Address of Contractor Fort Benton, Montana

Date Started Oct. 1953 Date Completed Oct. 1953

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. Sub-irrigation from natural flowing spring, dug out, water 2 feet below surface

SE 1/4 NW 1/4 NW 1/4 Sec. 21 T24N R10

Indicate point of appropriation and place of use, if possible.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use 1/2 Gallon per minute, 700 gallons per day - 8 months per year

Signature of Owner Boyd F. Crawford  
Date 12-26-63

This form to be prepared by contractor (if any), otherwise by the owner.

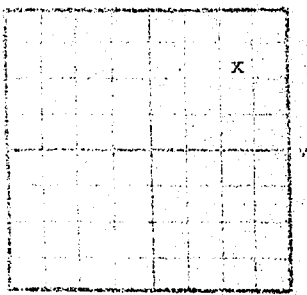

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

Date of Application of Ordinance (to be filled in)  
Owner (to be filled in)  
Address (to be filled in)  
Location (to be filled in)  
Address of Ordinance (to be filled in)

How a better use of the land can be obtained, including a well as in the ordinance and other "beneficial" uses, shall be stated below

Quantity of water proposed and used with explanation of method of measurement of water available to be used by

Additional information of parties to ordinance shall be stated below

Date

This ordinance is hereby adopted (to be filled in) and the same shall be in full force and effect from and after the date hereof

### Notice of Completion of Groundwater Appropriation by Means of Well

(Under Chapter 237, Montana Session Laws, 1961)

Owner K. C. Tayer Address Fort Benton, Montana

Driller E. D. Rafferty Address Great Falls, Montana

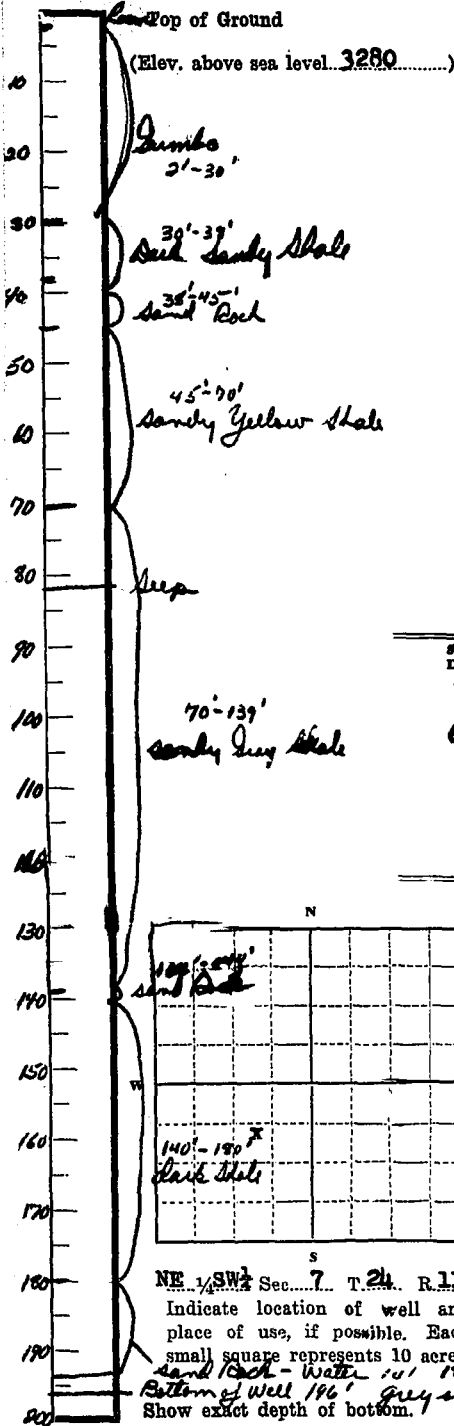

Date of Notice of Appropriation of Groundwater December 19, 1962

Date well started May 7, 1962 Date Completed May 10, 1962

Type of well Drilled Equipment Used Spud Drill  
(dug, driven, bored or drilled) (Churn, drill, rotary or other)

Water Use: Domestic  Municipal  Other  Irrigation   
Industrial  Drainage  Stock

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which water rises in the well.

Size of Drilled Hole	Size and Weight of Casing	Pipes (Feet)	To (Feet)	CONNECTIONS		
				Kind Size	To (Feet)	To (Feet)
6"	5 1/2" o d per Ft	0	196	Slot 1/2" x 10"	182'	192'

Static Water Level for non-flowing Well 116 feet.

Shut-in Pressure for Flowing Well .....

Pumping Water Level 171 feet at 12 gal. per minute.

Discharge in gal. per min. of flowing well .....

How Tested Balor Length of Test 1 hour

Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of acres irrigated, if used for irrigation) not applicable

#28  
Driller's License Number

E. D. Rafferty  
Driller's Signature

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.
