STATE OF MONTANA

ADMINISTRATOR OF GROUNDWATER CODE

JAN 3 1964

## Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Gro	undwater		Control of the Control of Control
	Address.		
Contractor (if any)	Auntess.		
Address of Contractor			
Date Started 1950	Date Com	mleted	
Describe means of obtaining			a well "as by

SW. 14. Secal T. 37 RSOF Indicate point of appropriation

and place of use, if possible.

Describe means of obtaining groundwater withou; a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. The nears of obtaining ground water is by natural surface flow of a perched

water is by natural surface flow of a perched water table from a ledge near the bank of a small

dry water course. In which is used by the

livestock for watering. The depth of water table is unknown.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent

estimate approximate lengths of periods of use The Quartity of

water is unknown, except by wer of livestock of

165 head of cows & calves used from June through

Sept. One gallon per minute will supply water for this amount of cattle, seepage & evaporation. This spring is located 260' East & 410' North of the SE corner of the SW of section 247378850E. Signature of Owner Cattle S. Clegan.

Date Dec 30, 963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.
