have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

Developments for this declaration have been marked A, B, and C for reference.

21 & 22
1/4 Sec. 22 T15N R. 16E.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres. Sections marked at centers.

2. The beneficial use on which the claim is based. Domestic use and water for livestock. Irrigation for garden and yard.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Previous to 1910 when first settlers filed claims on this land. Use has been continuous for livestock. B, redeveloped with tile and pipe in 1961, June. C, developed July 1958 with tile, pipe and trough.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) A, six gallons per minute. B, three gallons per minute. C, four gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Only irrigation was small gardens and yard at buildings at A and B. Possibly one tenth acre. By Henry Wannebo and August Peterson.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. (all gravity) A, concrete box around spring with gravity flow through pipe to buildings and stock troughs by August Peterson. B, by Peterson and

redeveloped by Angus McMillan June 1961 with tile and pipe. C, tile, pipe and trough, Gravity

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. A, unknown but before 1920, by August Peterson. B, first development by Peterson or Wannebo, date unknown, redeveloped by Angus McMillan June 1961. C, developed by Angus McMillan July 1958; however waters were used at homestead cabin many years before.

8. The depth of water table. All were natural flowing springs. Now dug out one to four feet below surface at B, and C.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. A one foot. B, three feet. C four feet.

10. The estimated amount of groundwater withdrawn each year. Six acre feet.

11. The log of formations encountered in the drilling at each well if available. All from sandy formation above limestones.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. Dates of original and first filings on land should be on record at general land office.
