44, 276
STATE OF MONTANA
COUNTY OF FULLERTON

Filed on the day of April, 1987, at 9:00 a.m.

By:

[Signature]
County Clerk and Recorder
Mr. Warren Hogue  
Route 1  
Bigfork, Montana 59911  

Dear Mr. Hogue:  

This is in response to your letter written sometime ago in reference to your filed ground-water right appropriation on a developed spring or well.

From your letter it is difficult to definitely determine if you developed a spring or if it would be considered just a well without actually looking at the site in the field. The main thing to remember is that you did file on the ground-water development according to the law at that time and used the form which you believed to fit your situation.

For your information only, we are enclosing a pamphlet titled, "A Rancher's Primer - Meet the New Water Law."

If you have any questions or we can be of further service, feel free to contact us at your convenience.

Sincerely,

Ronald J. Guse, Assistant Chief  
Water Rights Bureau

Enclosure  
RG/31p

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.
Received
Nov 26 1973

Montana, please take

Dr. S.,

I don't know whether I have
developed a spring or well. We
had a seep on our property and
our land. We had a back hoe
dig a 11' hole to bed rock and
we installed 4 sections of 36" dia. concrete
valve. The water has a 9' head in this
12' casing and runs 4 gallons a minute by gravity. Flow
with a field. I imagine
it meets your attached
definition as a well.
We used the water to

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the
works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana
Bureau of Mines and Geology and quadruplicate for the Approprior.
Water our horses and some use in watering the gardens.

Period of use was June 1972 until July of 1973.

We built a small house next to the water supply the fall of winter of 1972 and moved in in July of 1973 and this well is our total domestic water supply.

I hope this adequately answers the questions to bring this form properly.

Sincerely Yours

Clarence J. Hagen

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.
As the Administrator of the Groundwater Code for the State of Montana, please take note of the following special instructions, in order to properly protect your groundwater right.

Special Instructions: Please provide, as indicated in red on the attached form, the claimed groundwater use. Is this a developed spring?

NOTE: A well is defined as, "any artificial opening or excavation in the ground, however made, by which groundwater can be obtained or through which it flows under natural pressure or is artificially withdrawn."

Thank you.

Describe means of obtaining groundwater, without a well, such as by sub-irrigation and other natural processes. Include depth to water when applicable. Dug 12' hole to bedrock: Installed 4 sections of concrete culvert: diameter 36" length 36'. Water develops a g' head in the 12 casing, developed spring or well?

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use. Installed a siphon hose. Has been running at a rate of 15 gallons a minute with water level at full head.

Measured by knowing size of container and timing. Water used for:

Deputy
STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER
Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Arthur H. Weaver, of .Rd. H. 
(State of Flathead (Town))
County of State of have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Domestic and Irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1943 Continues

4. The amount of groundwater claimed (in miner’s inches or gallons per minute): 100 gallons

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Electric Pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater

8. The depth of water table: 145 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater

10. The estimated amount of groundwater withdrawn each year: 540,000

11. The log of formations encountered in the drilling of each well if available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner: Arthur Weaver
Date: 10 Dec. 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.
