have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Domestic use, lawn, watering, and garden.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been since 1940 and use has been continuous.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 8 gal. per minute per well.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of owner thereof:

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

7. The date of commencement and completion of the construction of the wells, or other works for withdrawal of groundwater:

8. The depth of water table:

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:

10. The estimated amount of groundwater withdrawn each year:

11. The log of formations encountered in the drilling of each well if available:

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. The wells are noted for domestic use or principal property on le different leases.

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Operating slaughterhouses, rendering equipment, etc., also residential and irrigation purposes and livestock watering.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. To have used since 1924. (Former owners since 1905)

4. The amount of groundwater claimed (in miner's inches or gallons per minute). Approximately 200 gallons.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 20 acres in Kirtland section, at railroad tracks 2, 3, and 4, section no. above, lat. question.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Pump location on No. 2 question. Electric pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Drilled well prior to 1905.

8. The depth of water table. Depth of well is 110 feet, water holds up, usually to within 10 feet of top.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Well casing in 6 inches, 110 drilled.

10. The estimated amount of groundwater withdrawn each year. If operating, to full capacity 300,000 gallons as of No. 2 question.

11. The log of formations encountered in the drilling of each well if available, not available, but believe it to be sandy.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. Flathead County Register of Assessor. Page 1013, line 8a.

How Tested: Air Lift Pump
Length of Test: Four hours

Remarks: (Gravel packing, cementing, packers, type of shutoff), all-water-entering well is coming through cracks and seams in the rock below 211 feet. Wells in this area can be depended upon to produce clear and free water year after year as long as they are not overpumped.

USE: If used for irrigation, industrial, drainage or other. Explain, state number of acres and location or other data (i.e.: Lot, Block and Addition).

Approx. 12 acres

Show exact depth of bottom.
Bottom of hole 265 ft

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located, tissue copy to be retained by driller.
