NAME OF APPROPRIATOR: Kelvin E. Boulton and Ruth Boulton

ADDRESS: Of Route 5, Kalispell

TOWN: Kalispell

COUNTY: Flathead

STATE: Montana

I have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based.
   
   Domestic and farm use, with some irrigation.

3. Date or approximate date of earliest beneficial use, and how continuous the use has been.
   
   Earliest use about 1897 and used continuously since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute).
   
   15 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.
   
   Five (5) acres around the building, lawn, garden, and pasture.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.
   
   Deep well pump in one well at the building site.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.
   
   Completed about 1897 and deepened sometime in the early 1900s.

8. The depth of water table.
   
   Twelve (12) feet below ground surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater.
   
   Drilled well with six-inch casing, about 165 feet deep.

10. The estimated amount of groundwater withdrawn each year.
    
    About 1,000,000 to 2,000,000 gallons, varying.

11. The log of formations encountered in the drilling of each well if available.
    
    Log not available to us, as it was done so long ago.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
    
    None known to us.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been

June 1956

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 200 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal

Electric motor and pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater

June 1956

8. The depth of water table

540 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater

10. The estimated amount of groundwater withdrawn each year

7,000,000 gallons

11. The log of formations encountered in the drilling of each well if available

log attached

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner
