Mr. Dennis K. Rasmussen
Route 3
Kalispell, Montana 59901

Dear Mr. Rasmussen:

The enclosed GW-3 form, Notice of Completion of Groundwater Appropriation Without Wall is not the proper form to use for filing on groundwater taken by means of a wall. (A wall is defined as, "any artificial opening or excavation in the ground, however made, by which groundwater can be obtained or through which it flows under natural pressures or is artificially withdrawn.")

The GW-3 form, which you filed on January 12, 1972, at 10:53 AM (document number 14375) is intended for groundwater taken by developed springs, drains, and sub-irrigation.

The proper form for you to file on is the GW-2 form, Notice of Completion of Groundwater Appropriation By Means of Wall.

Enclosed is one set of the GW-2 form and a pamphlet entitled, Appropriation and Regulation of Ground Water. The first three and one-half pages of the pamphlet should be of most interest to you.

When you have completed the form, it should be recorded and filed with the Flathead County Clerk & Recorder at Kalispell.

Note that the GW-2 form has five (5) pages to a set. You may discard or destroy the last page or green sheet, since it is usually kept by the licensed commercial well driller. Since this is a dug type (dragline) well, you should complete the form as the person doing the wall construction in this case.

Take the remaining four pages with you to the courthouse for filing.

The first page (white) or original is kept in the courthouse for a permanent record; the second page (yellow) or duplicate is sent to this office by the Clerk & Recorder; the third page (blue) or triplicate is sent to the Montana Bureau of Mines and Geology in Butte by the Clerk & Recorder; and the fourth page (pink) is your copy for your own records.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.
Mr. Dennis E. Rasmussen  
May 30, 1972

The purpose of this letter is to inform you of the proper filing procedures and to protect your groundwater right.

If we can be of further service, please feel free to contact us at any time.
