   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: **USUAL SCHOOL PURPOSES**

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: **WELL WAS FIRST USED IN 1945 AND THE USE HAS BEEN CONTINUOUS**

4. The amount of groundwater claimed (in scincher's inches or gallons per minute): **30 gallons per minute**

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: **not applicable**

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: **WATER IS DRAWN BY A PUMP LOCATED IN THE OLD SCHOOL BUILDING**

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: **WELL WAS COMPLETED IN 1945 AND COMPLETED IN 1945**

8. The depth of water table: **approximately 40 feet**

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: **WELL IS APPROXIMATELY 36 FEET DEEP**

10. The estimated amount of groundwater withdrawn each year: **400,000 gallons**

11. The log of formations encountered in the drilling of each well if available: **not available**

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record and it is believed that at the time the well was completed, complete information about the well and water sample was given to State Board of Health, Helena, Montana.

[1] Highland Company, Inc. of 309 First Avenue North
(Great Falls)

(Name of Appropriator) (Address) (Town)

County of Cascade State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based. Use incidental to domestic use, industrial use, irrigation and municipal use. See reverse.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Initial appropriation made on July 16, 1953; use continuous since that date.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 85 gallons per minute approximately.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Usages made of said water in the lands described on the reverse hereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Three wells, located as indicated in accompanying diagram.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Construction of initial wells completed in July of 1953; improvements, changes in detail, etc., done at intermittent dates since that time as necessary to achieve above water usage.

8. The depth of water table. Not precisely known, but not less than 3 feet nor more than 40 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. One well approximately 57 to 69 feet deep, with 8 inch casing. Remaining two wells concrete crib and gravel construction. Water from three wells to point of utilization by gravity flow.

10. The estimated amount of groundwater withdrawn each year 30 to 40 million gallons.

11. The log of formations encountered in the drilling of each well if available. None available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. No other comments. Continuation of existing water rights, filed in Book 322 of Misc., at page 232.
