Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Hooker Cattle Co., of Jordan
   County of Garfield, State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Stock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: Aug. 20, 1950

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 15 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: none

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Windmill or gas motor

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal: Aug. 20, 1950

8. The depth of water table: 96 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 110 ft. deep, 4 inch casing, 30 feet to bottom

10. The estimated amount of groundwater withdrawn each year: 250,000 gallons per year

11. The log of formations encountered in the drilling of each well if available: not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: none

Signature of Owner: John R. Hooker
Date: Dec. 75, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located. Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology; and Quadruplicate for the Appropriator.

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: August 1950

Owner: Shell & Sons, Inc.
Address: Jordan, Montana

Contractor (if any): None

Address of Contractor: No applicable

Date Started: July 1952
Date Completed: July 1952

Describe means of obtaining groundwater without a well “as by sub-irrigation and other natural processes”. Include depth to water when applicable. Springs, ponds, packer test, etc. Water was later taken from a well in Jordan. Fill to tank below 300 odd feet.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use. Water flow is continuous and discharge pipe measured with "i" gallon pail and pocket watch. Flow: 10 g.p.m.

Signature of Owner: W. Carter Smell (Pres)
Date: Dec. 30, 1952

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Domestic

3. Date or approximate date of earliest beneficial use, and how continuous the use has been: 1948

4. The amount of groundwater claimed (gallons per minute, horse-power, etc.):

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1948

8. The depth of water table:

9. So far as it may be available, the type, size, and depth of each well or the general specifications of any other work for the withdrawal of groundwater:

10. The estimated amount of groundwater withdrawn each year:

11. The log of formations encountered in the drilling of each well, if available: Not Available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None

Signature of Owner:

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Small & Sons Inc. of Jordan

County of Gardiner State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based:

Stock Water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been:

June 1, 1960

Well is used in the milk only four years.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 36 gal/min.

Will feed 5 gal to 8 gal/min.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

Not Applicable

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal, water is withdrawn by windmill or pump:

Jack and Engine: 30 hp. 24 hp. 12 hp.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:

Started May 19, 1960 Completed May 12, 1960

8. The depth of water table:

Water sand from 108' to 130'.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:

Well Drilled to bottom with 4 inch Black casing at 133. 42.

10. The estimated amount of groundwater withdrawn each year:

575,000 gallons

11. The log of formations encountered in the drilling of each well if available:

76', 76. Rock - 76' to 100' Sand rock - 100' to 105' Hard rock - 105' to 130' Sand (water) - 130' to 135' Shale

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:
