STATE ENGINEER

1. Clarence Anderson, of Helena, Montana  
(Name of Appropriator) (Address) (Town)

County of Judith Basin State of Montana  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

Section 14, Sec. 2, T. 13 N. R. 2 E.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based  
Domestic and irrigation water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1921; continuously beneficial

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 20 g.p.m. per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof  
Not applicable

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal  
Pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Start of date unknown; approximately 1921

8. The depth of water table 10 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater Just well

10. The estimated amount of groundwater withdrawn each year 1,100,000 gallons per year

11. The log of formations encountered in the drilling of each well if available  
None available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record None available

**Notice of Completion of Groundwater Appropriation Without Well**

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater 1935

Owner George K. Lillegard and Elizabeth D. Lillegard  
Address Geyser, Montana

Contractor (if any) None

Address of Contractor None

Date Started Date Completed

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.

Pipe leading from Spring to the house  
and also used for irrigation.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use

Flow of water from Spring Approximately  
400 gallons an hour.

Signature of Owner

Date January 2nd, 1962

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

(Under Chapter 237, Montana Session Laws, 1961)

1. Frank and Mary Bedosky of Gayser  
(Name of Appropriator) (Address) (Town)  
County of Judith Basin State of Montana  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

Well #1 NE 1/4 Sec. 17T 18R 9.  
Well #2 NW 1/4 Sec. 17T 18R 9.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based  
Well #1 is used for Stock water  
Well #2 is used for Domestic use.
3. Date or approximate date of earliest beneficial use; and how continuous the use has been  
1949 for both wells and used continuously since that time.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) Both wells approximately 15 gallons per minute.
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof Well #2 is used to irrigate the yard and garden in the NW 1/4 Sec. 1809
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal  
Well #1 has an electric pump installed  
Well #2 has an electric pump installed
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Commenced and completed in 1949
8. The depth of water table
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater  
Both of these wells are drilled wells and both are approximately 60 ft. deep.  
Both wells have 6 inch casing installed.
10. The estimated amount of groundwater withdrawn each year Not known
11. The log of formations encountered in the drilling of each well if available  
Drilled by E. L. Flood but logs are not available. Mr. Flood is deceased.
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record  
None

Signature of Owner Frank and Mary Bedosky

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based Domestic use
3. Date or approximate date of earliest beneficial use; and how continuous the use has been Drilled in 1948 and is in continuous use.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) 12 gallons per minute
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof No irrigation
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Electric pump installed
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Started in 1948 and completed in 1948
8. The depth of water table
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater Drilled well-- 60 ft. in depth. 6 inch ga pipe 20 lbs per ft. Perforations Slots from 19 to 21 ft. and 1/2 x 10" 40 to 42 ft. Joints in casing--Threads and collars.
10. The estimated amount of groundwater withdrawn each year Not known.
11. The log of formation encountered in the drilling of each well if available Not available
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner

*Arthur W. Anderson*

Date. Feb. 6th, 1963.

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

(Under Chapter 237, Montana Session Laws, 1961)

1. Arthur W. Anderson of Gayser  
(Name of Appropriator) (Address) (Town)  
County of Judith Basin State of Montana  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SW 1/4 Sec. 19 T. 18 R. 9

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based Used for stock
3. Date or approximate date of earliest beneficial use; and how continuous the use has been Drilled in 1960 and used continuously since that time.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) Approximately 40 gallons per minute
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof No Irrigation
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Electric Pump, well located in SW 1/4 Sec. 19-18-9
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Started in 1960 and completed in 1960, well drilled by Poole Drilling Company.
8. The depth of water table
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater Drilled well - Drilled with a Rotary drill and is 140 feet in depth. 1 1/2 in galvanized pipe installed.
10. The estimated amount of groundwater withdrawn each year Not known
11. The log of formations encountered in the drilling of each well if available Log not available.
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None

## Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

1. Mrs. Frances K. Colarchik, of Geyser  
(Name of Appropriator) (Address) (Town)

County of Judith Basin State of Montana  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based. 1-2-3-4  
Stock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Purchased from 1949  
State to use water from 1938  
continuous since

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 1-2-3-4  
20 gal per min  
2-3-4-10 gal per min each

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof  
Not used for irrigation

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. 1-2-4  
Surface gravity flow  
3-hand pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. 1938

8. The depth of water table. 1-2-4- Surface 3- water levels reaches 15 ft from top

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. 3- Dotted, Cased approx 50 ft deep  
Hand pumped

10. The estimated amount of groundwater withdrawn each year. 1-2-3-4- 100,000 gal for 132 da

11. The log of formations encountered in the drilling of each well if available. Log unavailable

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. 4- Book 75 Page 320  
Judith Basin County
