STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Clifford M. Trudell of St. Ignatius
   (Name of Appropriator) (Address) (Town)
   County of Lake State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based: Domestic, livestock, water, and irrigation.

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been: Precise to June 20, 1947 has been continuous.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): 12 gallons per minute.

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 40 acres.

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.

   8. The depth of water table.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater.

   10. The estimated amount of groundwater withdrawn each year.

   11. The log of formations encountered in the drilling of each well if available.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

   Signature of Owner: Clifford M. Trudell
   Date: Dec 26, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology, and quadruplicate for the Appropriator.

Notice of Completion of Groundwater Appropriation
Without Well

(Under Chapter 237, Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1961
Owner: Ann Marie Low
Address: St. Ignatius, Mont.

Contractor (if any)
Address of Contractor

Date Started: Date Completed

Describe means of obtaining groundwater without a well “as by sub-irrigation and other natural processes”. Include depth to water when applicable. Water from flowing springs is used for irrigation, filling of ponds, water to the corral.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use. Water from springs is estimated to have a total outflow of 0.64 m³ per second. It was measured by closing the outfall on the main spring well, and checking the time to fill to known volume. The quantity of secondary springs was made by comparison with the main spring.

Signature of Owner: Ann Marie Low
Date: December 13, 1961

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based

3. Date or approximate date of earliest beneficial use, and how continuously the use has been. Well, 1950; Spring - at least fifty years. Both used continuously since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute), Forty (40) inches, each on well and springs.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Not used for irrigation purposes at present, but the right reserved.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. The well by power pump. The spring is gravity.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Well completed and used continuously since 1950. The spring has been used indefinitely, at least fifty years however, for livestock and domestic.

8. The depth of water table. The well is 100 feet. The spring surfaces.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Claim water from the above well and springs. Water from well removed by power pump.

10. The estimated amount of groundwater withdrawn each year. Forty (40) inches for each.

11. The log of formations encountered in the drilling of each well if available. There is no log available. This well and spring have been used continuously and water has, at all times, been available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

   State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based: Livestock watering

   3. Date or approximate date of earliest beneficial use: 1940

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): 5 gals. per minute

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1940

   8. The depth of water table: 40 ft.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 130 ft. deep with 6 inch casing

   10. The estimated amount of groundwater withdrawn each year: 500,000 gal.

   11. The log of formations encountered in the drilling of each well if available: Not available

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: Not recorded

   Signature of Owner: William Delaney
   Date: 12-10-63

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

[Form filled out by Robert Hoge]

1. Robert Hoge, of Bozeman, Montana, have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: domestic use

3. Date or approximate date of earliest beneficial use: 1935-continuous since well was drilled

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 30 gpm

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: not applicable

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: deep well with pressure pump system

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: about 1935

8. The depth of water table: about 40 ft

9. So far as it may be available, the type, size and depth of each well, or the general specifications of any other works for the withdrawal of groundwater: 12 HP motor, 150 ft of 2" pipe + 30 ft

10. The estimated amount of groundwater withdrawn each year: 1,660,000

11. The log of formations encountered in the drilling of each well if available: not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: none

Signature of Owner: Robert Hoge
Date: Dec 31, 1962

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

NOTICE OF COMPLETION OF GROUNDWATER APPROPRIATION WITHOUT WELL

Developed After January 1, 1962

(Under Chapter 237, Montana Session Laws, 1961, as amended)

This form to be prepared by contractor (if any), otherwise by the owner.
Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.
Please answer all questions. If not applicable, so state, otherwise the form may be returned.

File No. 20677 Location
120814, 1973
GW 1.205, p.m.

For Administrator's Use

Owner: Charles J. Lemm
Address: Lame, Montana
Contractor (if any):
Address of Contractor:
Date Started: May 1956 Date Completed: June 21, 1973

1. Describe means of obtaining groundwater (as by sub-irrigation, developed spring, drains, etc.)
   Dam (P.S.C. Level?)

2. Means of withdrawing water (gravity, pump, canal, etc.)
   Gravity flow

3. Depth of water table
   About 15 feet

4. Use of the water
   Irrigation, fish pond, and stock water

5. Amount of groundwater claimed (in miner's inches or gallons per minute)
   About 120 inches

6. If used for irrigation, give number of acres and description of land
   160 acres farm - 60 acres can be irrigated from water in dam. 10 x 10 ft. channel land

7. Estimate amount of water used each year
   About 1500 acre feet

8. Months of year spring flows
   12 months

Signature of Owner: Charles J. Lemm
Date: April 7, 1973

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater:

Joseph C. Romsa and Marie V. Romsa
Owner Address: St. Ignatius, Montana

Contractor (if any) (None) Owner:

Address of Contractor:

Date Started: Date Completed:

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes." Include depth to water when applicable. Natural spring permits subirrigation and is supplemented by diesel pumping unit from spring and unnamed creek formed from a series of springs.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use. Approximately 1200 gallons per minute, used intermittently during summer growing season, measured by capacity of pump.

Joseph C. Romsa Signature of Owner: Marie V. Romsa

Date: Nov. 30, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

County of Lake
State of Montana

I, have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based:
   apartment, greenhouse, lawn, hotel

3. Date or approximate date of earliest beneficial use; and how continuous the use has been:
   May 1935

4. The amount of groundwater claimed (in miner's inches or gallons per minute):
   30 gallons

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:
   only for lawn
   Mrs. Zula P. Cherry

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   electric well, pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   April 1935, May 14, 1935 completed

8. The depth of water table:
   40 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   Drilled 100 feet, deep, pumped

10. The estimated amount of groundwater withdrawn each year:
    Not known

11. The log of formations encountered in the drilling of each well if available:
    Not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including references to book and page of any county record:
    No record of book, except the above.

Signature of Owner: Mrs. Zula P. Cherry
Date: Dec. 30, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Edwin G. Linderman, of St. Ignatius, Montana, have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is household, poultry water, yard and garden irrigation.

3. Date or approximate date of earliest beneficial use: November 1956.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 800 gallons per hour.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 100 acres, house, yard, and adjacent gardens owned by Edwin G. Linderman.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Deep well jet pump, about 1/4 mile from highway, about 30 feet from County Road.

7. The date of commencement and completion of the construction of the well, walls, or other works for withdrawal of groundwater: Started drilling Oct. 1956, completed Nov. 1956.

8. The depth of water table: 107 feet below the water level at 20 feet depth.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Drilled well, 6-inch casing, 107 feet depth.

10. The estimated amount of groundwater withdrawn each year: 800 gallons per hour.

11. The log of formations encountered in the drilling of each well if available: Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: Not available.

Signature of Owner: Edwin G. Linderman.

1. 

- Name of Appropriator: George E. Brooks  
- Address: St. Ignatius  
- Town:  
- County of: Lake  
- State of: Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based... Household

3. Date or approximate date of earliest beneficial use and how continuous the use has been... 1942 and Continuous

4. The amount of groundwater claimed (in miner's inches or gallons per minute)... 20 gal per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof... Farm only

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal... Electric motor or jet pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater... The year 1942

8. The depth of water table... 40 ft

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater... Pipe liners drilled to the depth of 65 ft

10. The estimated amount of groundwater withdrawn each year... 15,000 gal

11. The log of formations encountered in the drilling of each well if available... Surface to 40 ft then clay and gravel

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record...

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Lloyd H. Smith, of St. Ignatius, Mont.
   (Name of Appropriator)
   (Address)
   (Town)

   County of Lake
   State of Mont.

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based:
   Domestic

3. Date or approximate date of earliest beneficial use; and how continuous the use has been since 1950:
   Has been used

4. The amount of groundwater claimed (in miner's inches or gallons per minute):
   3/4" pipe for out lot

5. If used for irrigation, give the area and description of the lands to which water has been applied and name of the owner thereof:
   ...used for garden
   N.W. 1/4 SW. 1/4

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   With electric pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   8/20/1950

8. The depth of water table:
   5 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   Well is 58 feet deep, water rises to
   16 inch casing
   5 ft. of top, 6 inch casing

10. The estimated amount of groundwater withdrawn each year:
    1000,000 gals.

11. The log of formations encountered in the drilling of each well if available:
    Clay, gravel and rock

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:
