have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: domestic and irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: July, 1961; continuously used since said date.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 800 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 10 acres; owners, Joseph C. and Marie V. Roma

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Free flowing cased well

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Commenced July, 1961 and completed September 1, 1981

8. The depth of water table: Approximately 64 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: six-inch casing, 84 feet deep

10. The estimated amount of groundwater withdrawn each year: continuous flow from 400 to 500 gallons per minute.

11. The log of formations encountered in the drilling of each well if available: Not available
