STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

LUCIAN B. BEARDSLEY, of FINLEY POINT
(Address) (Town)

County of LAKE

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1963, as follows:

1. Name of Appropriator, Address, and Town

1. Name of Appropriator

<table>
<thead>
<tr>
<th>N</th>
<th>W</th>
<th>E</th>
<th>S</th>
</tr>
</thead>
</table>

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based

3. Date or approximate date of earliest beneficial use; and how continuous the use has been

4. The amount of groundwater claimed (in miner's inches or gallons per minute)

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater

8. The depth of water table

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater

10. The estimated amount of groundwater withdrawn each year

11. The log of formations encountered in the drilling of each well if available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner

Date

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology; and Quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. J. E. Betzing of Finley Point, Pocola
   (Name of Appropriator) (Address) (Town)

   County of Lake, State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   N
   W
   S
   E
   
   Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

   2. The beneficial use on which the claim is based: domestic use

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been: September 1952
   continuous from date

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): 200 gallons per minute

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:
   Two acres - garden and lawn owned by J. E. Betzing

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: pump

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: September 1952

   8. The depth of water table: 151 feet

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 6 inch casing, drilled well, depth 174 ft.

   10. The estimated amount of groundwater withdrawn each year: 2

   11. The log of formations encountered in the drilling of each well if available: not available

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

   Signature of Owner: J. E. Betzing
   Date: November 14, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology, and quadriPLICATE for the Appropriator.

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: June 22, 1966

Owner: Goldie E. Brujord
Address: Polson, Montana

Contractor (if any): James A. Hyer
Address of Contractor: Polson, Montana

Date Started: 6-22-66 Date Completed: 6-25-66

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.

There are springs on the edge of the lots at the Flathead lakeshore. A dome-shaped concrete enclosure was made over a spring about 2 feet deep and piped to the two cottages for household use. This was done to keep the lake water out of the spring.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use.

Set NE4 Sec. 19 T.23 R.19
Indicate point of appropriation and place of use, if possible.

Signature of Owner: Goldie E. Brujord
Date: June 19, 1966

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.
STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Notice of Completion of Groundwater Appropriation Without Well
(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1960
George M. and Florence Clark
Owner: Havre, Montana
Contractor (if any): Irving Ball
Address of Contractor: St. Ignatius, Montana
Date Started: March 15, 1960
Date Completed: March 15, 1960

Date
Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use.

Water used in spring, summer, and fall for irrigating garden and orchard; and used throughout the year for household and domestic purposes.

N
W

Indicate point of appropriation and place of use, if possible.

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

MAIL GRANMA

(Name of Appropriator)

of. 721 E Front. Missoula, Montana

(Address)

(Town)

County of Lake, location of this property in Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. Name: Mail Granna
   Address: 721 E Front, Missoula, Montana
   Town: Missoula
   County: Lake

2. The beneficial use on which the claim is based:
   Domestic

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1947 continuous since then

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 600 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:
   1 acre. Used for small vegetable garden, balance in lawns and shrubs

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   1 1/2 HP electric for each of 2 wells

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   1947 first well
   1948 second well

8. The depth of water table: 61

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   No. 31 well
   3 square
   6' deep
   No. 32
   3' x 4' deep
   6' 4"

10. The estimated amount of groundwater withdrawn each year: Property is used only
     9 months of year.

11. The log of formations encountered in the drilling of each well if available:

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

   Signature of Owner:
   Date: 12-21-63

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

DECLARATION

1. James K. Montgomery

2. The beneficial use on which the claim is based: Domestic.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: June 14, 1961

4. The amount of groundwater claimed: (in miner's inches or gallons per minute) 15 g.p.m.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: June 12, 1961 - June 14, 1961

8. The depth of water table: 52

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Drilled - 6" welded casing

10. The estimated amount of groundwater withdrawn each year: 12,000 gallons

11. The log of formations encountered in the drilling of each well if available:

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

Signature of Gazette: Phoebe Montgomery

Date: Dec 21, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

### Location of well

That part of lot seven (7) of Clifford Beach Orchard Homes, Lake County, Montana, described as follows:

Commencing at the Southeasterly corner of said lot 7 and proceeding thence in a northerly direction along the east line of said lot 7 150 feet, thence westerly and parallel to the south line of said lot 7 a distance of 216 feet, thence southerly and parallel to the east line of said lot 7 150 feet to the south line of said lot 7, thence easterly along south line of said lot 7 a distance of 216 feet to the point of beginning.
STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Charles M. Adams & Wanda L. Adams, of Finley Point, Polson,
   County of Lake, State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: domestic and irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: August 30, 1951

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 1500 gallons per day

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 2 1/2 acres

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: concrete cribbing and electric pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: August 30, 1951 to May 31, 1952

8. The depth of water table: three feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: spring area three feet in depth and ten feet in circumference

10. The estimated amount of groundwater withdrawn each year: average 1500 gallons per day

11. The log of formations encountered in the drilling of each well if available: (none)

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

Signature of Owner: Charles M. Adams
Date: December 21, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
 Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. **BARTO J. HURFENING**
   (Name of Appropriator)
   of Finley Point Rd.,
   Folkston
   (Address)
   (Town)

   County of Lakes
   State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based: Household and irrigation.

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been: Prior to 1947 and used continuously since that date.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): Eighty-five (85) gallons per minute.

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: Five (5) Acres, orchard, lawn and garden, owned by BARTO J. HURFENING.

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Three (3) Electric Pumps on the above described property in Town (2) wells.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Prior to 1947.

   8. The depth of water table: Approximately Seven (7?) Feet.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: One well is Six (6) feet in Diameter, Ten (10) Feet Deep, Steel casing: Second well is Four Feet by Four Feet by Ten Feet Deep, (144,020) and Concrete Wells.

   10. The estimated amount of groundwater withdrawn each year: 6,320,000 Gallons.

   11. The log of formations encountered in the drilling of each well if available: Clay and Gravel.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None.

   Signature of Owner: BARTO J. HURFENING
   Date: December 31, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1945

Owner: Evelyn Rehn Cortlandt
Address: W 32 W. Cortlandt

Mail Correspondence to: C. A. Rehn
Address of Contractor: 4th St., Roscoe, Mont.

Date Started: Date Completed:

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use.

Indicate point of appropriation and place of use, if possible.

Signature of Owner: Evelyn Rehn Cortlandt
Date: Aug 13, 1965

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology; quadruplicate for the Appropriator.

pump clear sand free water year after year as long as they are not overpumped, i.e., they should be pumped at rates not in excess of 40 to 50 percent of the tested capacity of the aquifer.
As the Administrator of the groundwater Code for the State of Montana, please take note of the following special instructions, in order to properly protect your groundwater right.

Special Instructions:

Please check the well location, as indicated in red on the attached form. Range 10 west would locate the well in Western Teton County. Should not the correct range 19 west?

Thank you.

Yes the correct range is 19 west instead of 10 west. Thank you Nick M. Ellis.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

James V. C. Carter of 4032 Emma Lane Atlanta, Ga., and
Hilda McSally of 211 Dough Ave.,经开区, Indiana.

1. County of ____________________________ State of ____________________________
   (Name of Appropriator) (Address) (Town)

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Used each year for period of about 6 months
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 20 gallons per minute
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Approx. spring of 1955
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

8. The depth of water table. 200 feet
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Drilled and fitted with one inch pipe approximately 200 feet deep
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

10. The estimated amount of groundwater withdrawn each year. 7,500 gallon
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

11. The log of formations encountered in the drilling of each well if available
    Not Known

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. E. I. and Harold J. Hyer, at Finley Point, Belton
   (Name of Appropriator) (Address) (Town)
   County of Lake, State of Montana.

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1963, as follows:

2. The beneficial use on which the claim is based. House, Doll and irrigation of orchard

3. Date or approximate date of earliest beneficial use, and how continu-ous the use has been. 1937 and each year thereafter

4. The amount of groundwater claimed (in miner's inches or gallons per minute). Thirty gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Two and one-half acres of orchard

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Electric piston pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Aug 1936 completed Sept 1936

8. The depth of water table. Unknown

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Depth of well 15 ft. depth of each well defined in the description of the lands

10. The estimated amount of groundwater withdrawn each year. 500,000 gal.

11. The log of formations encountered in the drilling of each well if available. Course sand

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner: E. I. and Harold J. Hyer

I have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Home Water Supply, Irrigation, Village, or other use.

3. Date or approximate date of earliest beneficial use, and how continuous the use has been: Nov. 1, 1940, and in continuous use.

4. The amount of groundwater claimed (in miper’s inches or gallons per minute): 100 gal. per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 1 A. of farm land.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Byst. Well.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: June 21, 1940, started. Oct. 18, 1940, completed.

8. The depth of water table: 13’.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Drilled well, 163 feet deep. 84'

10. The estimated amount of groundwater withdrawn each year: 50,000 gal.

11. The log of formations encountered in the drilling of each well if available: Drilled well 163 feet deep. 84’.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None.

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. The beneficial use on which the claim is based:
   - Domestic
   - Irrigation

2. Date or approximate date of earliest beneficial use:
   - July 12, 1954

3. The amount of groundwater claimed (in miner's inches or gallons per minute): 50 cfs, per minute

4. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:
   - 2 acres cherry orchard
   - Ray E. Larson

5. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   - Electric powered jet pump

6. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   - June 15, 1954
   - July 15, 1954

7. The depth of the water table:
   - 66.2 ft

8. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   - Drilled 6 inch casing, 91 ft. deep

9. The estimated amount of groundwater withdrawn each year:
   - 500,000 cfs

10. The log of formations encountered in the drilling of such well if available:
    - 0 to 15 ft., sand & gravel, 15 ft. to 60 ft., sand & gravel & gravel
    - 60 ft. to 81 ft., silt, sand & gravel, 81 ft. to 93 ft., mostly gravel
    - 93 ft. to 118 ft., sand, some clay breaks & good wash, gravel

11. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Deputy
Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1962)

1. LORRAIN J. LUGER and RACHEL O. LUGER (Name of Appropriator)
   (Address) Polson
   (Town) Finley Point

   County of Lake State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based: domestic and irrigation

   3. Date or approximate date of earliest beneficial use, and how continu-ous the use has been: about 1938; continuous

   4. The amount of groundwater claimed (in miner's inches or gallons per minute) capacity of 1" discharge pipe:

   From pump: 20 gals. per minute

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

   water used on orchard and garden about... acres in area; owned by appropriators

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

   electric pump

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: about 1938

   8. The depth of water table: approximately 8 feet

   9. So far as it may be available, the type, size, and depth of each well or the general specifications of any other works for the withdrawal of groundwater: dug well approximately 8' x 8' x 15' in depth; cement lined

   10. The estimated amount of groundwater withdrawn each year: 5,000,000 gals.

   11. The log of formations encountered in the drilling of each well if available: not available

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

   not applicable

Wells in this area can be depended upon to produce clear and free water year after year, as long as they are not overpumped, i.e., they should be pumped at rates not in excess of 50 to 60 percent of the tested capacity of the aquifer.
