   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   The beneficial use on which the claim is based is sub-irrigation.

   Date or approximate date of earliest beneficial use and how continuous the use has been: 1870 was first occupied as a ranch.

   The amount of groundwater claimed (in miner's inches or gallons per minute): 300 miners of sub-irrigated water.

   If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 25 acres in name of Kelly Dairy & Ranch Company.

   The means of withdrawing such water from the ground and the location of each well or other means of withdrawal is sub-irrigation coming in on west and south of said land.

   The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater...about 1870.

   The depth of water table...from 18 inches to surface.

   So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater is capillary action.

   The estimated amount of groundwater withdrawn each year: 500 acre feet.

   The log of formations encountered in the drilling of each well if available: none available.

   Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: Bureau of Reclamation has a survey.

   Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

   Please answer all questions. If not applicable, so state, otherwise the form will be returned.

      Household
      Garden, Irrigation

   3. Date or approximate date of earliest beneficial use; and how contiguous the use has been to all water on each
      farm. Used now as garden water.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): House pump 20 gal per Min., Garden pump 100 gal.

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof or half acre on property.

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
      Jet and one 2 inch Centrifugal pump.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
      1960 for house well & water for surface well, completed 1970

   8. The depth of water table:
      10 ft. for surface & 40 ft. for sub-surface

   9. So far as it may be available, the type, size, and depth of each well or the general specifications of any other works for withdrawal of groundwater:
      Pag well - 4 ft. diameter & 10 ft. deep.

   10. The estimated amount of groundwater withdrawn each year:
      600,000

   11. The log of formations encountered in the drilling:
      Surface well gravel to 15 ft., then hard pan
      Driven well, gravel to 15 ft., then hard pan to 40 ft.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
