Mrs. Eunice K. Staudacher
Chester
Montana 59522

Dear Mrs. Staudacher:

This is in reference to the two enclosed GW-4 forms, Declaration of Vested Groundwater Rights, that you filed on January 5, 1972 at Chester.

The Declaration of Vested Groundwater Rights form was intended for appropriators to file on vested groundwater rights for a certain period of time only. That period was from January 1, 1962 to January 1, 1966. Therefore, after January 1, 1966, according to the Groundwater Code, the GW-4 form was invalid and could not legally be used as an appropriation form.

The proper form to use for wells filed on or after January 1, 1966, is the Notice of Completion of Groundwater Appropriation By Means of Well, GW-2. Two sets of the GW-2 form is enclosed for your own use. Please complete all blanks as accurately as possible and attach any available proof that the date of first beneficial use did actually date back to 1945 and 1960 as indicated on the enclosed GW-4 forms. It would be to your advantage to file and attach additional proof, if available, in case there is a dispute over the groundwater in your area.

Also enclosed is a copy of the pamphlet, Appropriation and Regulation of Groundwater. The first three and one-half pages of the pamphlet should be of most interest to you. Underlined in red are specific items related to your particular case.

If we can be of further assistance, please feel free to contact us at any time.

Sincerely,

FOR: Orrin Ferris, P. E.
Chief, Engineering Bureau
