DEC 11 1969

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

**Notice of Completion of Groundwater Appropriation
Without Well**

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater.....

Owner Joseph W. Burk Address Tray, Montana

Contractor (if any)

Address of Contractor

Date Started..... Date Completed.....

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.....

portable pump on
Seventeen Mile Creek
on owner's property

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent

estimate approximate lengths of periods of use.....

2 hours per day during
summer months

..... 1/4 Sec. 26 T. 34N R. 33W

Indicate point of appropriation and place of use, if possible.

Signature of Owner Joseph W. Burk

Date Sept. 20, 1969

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

STATE ENGINEER

1. United States of America, Sylvanite Ranger Station
(Name of Appropriator) (Address) (Town)

County of Lincoln State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4 Sec. 9 T34R33
Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based Domestic use at Ranger Station
3. Date or approximate date of earliest beneficial use; and how continuous the use has been First buildings on site in 1911. Use has been continuous.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) The flow of the Crawford Creek drainage. Approx. 10 gal. per min. maximum.
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof Station lawns 2 acres
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Perforated pipe in creek behind small dam in the NE NE Sec. 16 (unsurveyed) T34N R33W.
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Begin April 1934 - completed same year.
8. The depth of water table 3 feet
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater Perforated pi. 6" in diameter.
10. The estimated amount of groundwater withdrawn each year 750,000 gallons
11. The log of formations encountered in the drilling of each well if available None
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record The water is withdrawn from the underground flow of Crawford Creek. A minor tributary of the Yeak River

Ant Flat Ranger Station

Fortina, Montana

(Town)

County of Lincoln State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

Sec. 7 T34R25
Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based domestic
3. Date or approximate date of earliest beneficial use; and how continuous the use has been January 1954 continuous use until the present.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) 70 gal. per minute maximum - 2 gal. per min. average.
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof Approximate 1 acre lawn and domestic
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal January: 5 HP jet pump Model #5752M120 - Model 57A-17 Single phase

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. 1953 - January 1954

8. The depth of water table 48'

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater 6" inside diameter well cased w/100' of 6" standard weight pipe - 8WJNH Section 7, T34N, R25W, 4PM

10. The estimated amount of groundwater withdrawn each year 1,000,000 gallons

11. The log of formations encountered in the drilling of each well if available (Not available here but JLA said they drilled through 200' of clay and 17' of gravel)

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record Recorded: Lincoln County, Records Office, Libby, Montana Book 51 Page 601, 602

(Under Chapter 237, Montana Session Laws, 1961)

I, O. V. and Evelyn G. McCurry, of Box 22 Trego
(Name of Appropriator) (Address) (Town)
County of Lincoln State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NE
1/4 Sec. 19T34 R. 25-W

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based..... Use in home.
3. Date or approximate date of earliest beneficial use; and how continuous the use has been..... June 1959
continuous use.
4. The amount of groundwater claimed (in miner's inches or gallons per minute)..... 15 Gal. per minute.
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
None
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.....
Electric Pump
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. June 1, 1959 commenced, July 1, 1959 completed.
8. The depth of water table..... 10 Ft.
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater..... Hand dug, 12 Ft. deep, 33 inches diameter concrete lined.
10. The estimated amount of groundwater withdrawn each year..... 21,900 Gals.
11. The log of formations encountered in the drilling of each well if available. Old Alluvium out wash.
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record..... Page Vol. 127 Page 91 and 92.

Signature of Owner

O. V. & Evelyn G. McCurry
Date Dec. 22 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

STATE ENGINEER

William Stiffin of Trego
(Name of Appropriator) (Address) (Town)
County of Lincoln State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

N.E. 1/4 Sec. 4, T. 34, R. 25.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based.....
Domestic use

3. Date or approximate date of earliest beneficial use; and how continuous the use has been.....
June 1962 - Daily

4. The amount of groundwater claimed (in miner's inches or gallons per minute).....
Well pumped at 600 gal per hr. 24 ft. from bottom

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.....
Lawn + Garden 1 acre
William Stiffin
Trego, Montana - Owner

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.....
Submersible pump set at 350 gal per hr

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.....
Work started Aug 22, 1961 - completed Aug 29, 1961

8. The depth of water table.....
Static water level 25 ft from bottom Aug 29, 1961

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater.....
Drilled with casing 174 ft. Casing with 7" O.D. 22 lb. pipe casing

10. The estimated amount of groundwater withdrawn each year.....
730,000 gal

11. The log of formations encountered in the drilling of each well if available.....
0 to 152 ft Sandstone
157 to 173 ft dark clay - 173 to 174 ft Water bearing sand + gravel

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.....
Original Water Well log retained by owner

Signature of Owner William Stiffin
Date March 2, 1962

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state otherwise the form will be returned
