Gentlemen:

I know this should have been filed four years ago and told the lady as much. However, since the well had been drilled before the law took effect and since it had been done by a registered driller, I accepted the appropriation.

If this is not permissible, please contact CHARLES MILLER, JR. , Box 53, Silver Star, Montana - 59751.

Dear Mr. Drake:

This is in response to your September 29, 1972, letter requesting forms for registering your household well, which has been on the property for sixty years.

The only available and presently legal groundwater right appropriation form for your purpose is the GW-2 form, or Notice of Completion of Ground-water Appropriation By Means of Well.

Enclosed are two complete sets (5 sheets to a set) of the GW-2 form for your use. Complete the form as much as possible and have it recorded and filed at your local County Clerk and Recorder's office in the County in which the well is located. According to the Groundwater Code, your date of priority will be the day you file the appropriation (GW-2) form; therefore, you may want to attach and file additional proof with the GW-2 form, if available, that the well was actually drilled and the groundwater put to beneficial use some sixty years ago.

Also enclosed is one copy of the pamphlet, Appropriation and Regulation of Ground Water. The first three and one-half pages of the pamphlet should be of most value to you.

If we can be of further assistance, please contact us at any time.

Sincerely,

Ronald J. Guse
