Gentlemen:

I know this should have been filed four years ago and told the lady as much. However, since the well had been drilled before the law took effect and since it had been done by a registered driller, I accepted the appropriation.

If this is not permissible, please contact CHARLES MILLER, JR., Box 53, Silver Star, Montana - 59751.

Sincerely,

Loraine P. Molitor

County Recorder

By: Deputy
Mr. Edwin E. Drake  
Pony  
Montana 59747

Dear Mr. Drake:

This is in response to your September 29, 1972, letter requesting forms for registering your household well, which has been on the property for sixty years.

The only available and presently legal groundwater right appropriation form for your purpose is the GM-2 form, or Notice of Completion of Groundwater Appropriation By Means of Well.

Enclosed are two complete sets (5 sheets to a set) of the GM-2 form for your use. Complete the form as much as possible and have it recorded and filed at your local County Clerk and Recorder’s office in the County in which the well is located. According to the Groundwater Code, your date of priority will be the day you file the appropriation (GM-2) form; therefore, you may want to attach and file additional proof with the GM-2 form, if available, that the well was actually drilled and the groundwater put to beneficial use some sixty years ago.

Also enclosed is one copy of the pamphlet, Appropriation and Regulation of Ground Water. The first three and one-half pages of the pamphlet should be of most value to you.

If we can be of further assistance, please contact us at any time.

Sincerely,

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

William G. & Laura E. Forbes, of Box 156, Pony

(Name of Appropriator) (Address) (Town)

County of Madison State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based:
   Mining, Milling, domestic use, irrigating and stockwater

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. May 1, 1866 and continuously since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). The total water flowing from a spring is located upon the premises where the mining claim and the beneficial use are located, and the department of conservation shall decide the proper flow of water. The total of all such springs shall be divided among the user.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. May 1, 1866.

8. The depth of water table. Variable.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater.

10. The estimated amount of groundwater withdrawn each year. Total flow of each spring.

11. The log of formations encountered in the drilling of each well if available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. The lands upon which said springs are appropriated and used are described in paragraph four above.

Signature of Owner: William G. Forbes

Date: 12-28-63

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.
