   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Natural flow and pumping.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Date of Commencement April 1931. No wells.

   8. The depth of water table: Unknown.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Underground spring and flow from ore vein course.

   10. The estimated amount of groundwater withdrawn each year: Governed by operational requirements which are extremely variable.

   11. The log of formations encountered in the drilling of each well if available: None.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: Madison County, Montana, Courthouse records.
