Notice of Completion of Groundwater Appropriation by Means of Well
DEVELOPED AFTER JANUARY 1, 1962
(Under Chapter 237, Montana Session Laws, 1961)

Owner: James C. Holmberg & Rogers
Address: St. Regis

Driller: Kane Water Well Drilling
Address: St. Regis

Date of Notice of appropriation of groundwater: 3/14/65
Date well started: 3/16/65
Date completed: 4/16/65

Type of well: drilled
Equipment used: churn

Water use:
Domestic [X] Municipal [ ]
Stock [ ] Irrigation [ ]
Industrial [ ] Drainage [ ] Other [ ]

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

PERFORATIONS
does not apply

Static Water Level for non-flowing well: 100 feet.
Shut-in Pressure for Flowing Well:...
Pumping Water Level: 125 feet at 15 gal. per minute.
Discharge: in gal. per min. of flowing well...

How Tested: bored & pumped
Length of Test: 111 days

Remarks: (Gravel packing, cementing, packers, type of shutoff)

Indicate location of well and place of use, if possible. Each small square represents 40 acres.

Show exact depth of bottom.

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located, one copy to be retained by driller.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Joseph A. Magness Sr., of St. Regis, have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Irrigation

3. Date or approximate date of earliest beneficial use: March 15, 1960

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 2000 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:

8. The depth of water table:

9. So far as it may be available, the type, size, and depth of each well or the general specifications of any other works for the withdrawal of groundwater:

10. The estimated amount of groundwater withdrawn each year:

11. The geologic formations encountered in the drilling of each well if available:

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

Signature of Owner: Joseph A. Magness Sr.
Date: Dec. 30 - 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
I certify that I received and filed this instrument for record on this
20th day of Jan 1960,

APPROPRIATION BY MEANS OF WELL
Developed after January 1, 1962

(Under Chapter 237 Montana Session Laws, 1961, as amended)

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located, last copy to be retained by driller.

Please answer all questions. If not applicable, so state, otherwise the form may be returned.

Owner: Jose Hagera
Address: St. Regis, Montana
File: 29J60

Date well started: March, 1970
Completed: April, 1970

Type of well: Drilled
(Churn, driven, bored or drilled)

Equipment used: Churn Drill
(Churn drill, rotary or other)

Water use: Domestic [ ] Municipal [ ] Stock [ ] Irrigation [x]
Industrial [ ] Drainage [ ] Other [ ] Garden/Lawn [ ]

*Describe use if used for irrigation, industrial, drainage or other. Explain, state number of acres and location or other data (i.e. Lot, Block and Addition).

Estimated annual withdrawal: 60 acres in 100% irrigated

Water Use: Domestic [ ] Municipal [ ] Stock [ ] Irrigation [x]
Industrial [ ] Drainage [ ] Other [ ] Garden/Lawn [ ]

PERFORATIONS
Killed Sim [ ] Feet [ ] Tu [ ]

Static water level: 0 ft.
Pumping water level: 0 ft.

*Measured from ground level.

Well developed by: 400 hours.

Remarks: (Gravel packing, cementing, packers, type of shutoff)

Show exact depth of bottom

INDICATE LOCATION OF WELL AND PLACE OF USE, IF POSSIBLE. EACH SMALL SQUARE REPRESENTS 40 ACRES.

ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Notice of Appropriation of Groundwater
(Under Chapter 237, Montana Session Laws, 1961)

1. I, [Name of Appropriator],
   [Address], [Town], County of [County], State of Montana, do hereby inform you
   that I do intend to appropriate groundwater in accordance with Chapter 237, Montana

2. The beneficial use to which water is to be applied is [Beneficial Use].
   (describe lands to be benefited, if for irrigation)

3. The rate of use in gallons per minute or miner's inches of groundwater claimed:
   [Rate of Use]

4. The annual period (inclusive dates) of intended use:
   [Period of Use]—[Indefinitely]

5. The probable or intended date of first beneficial use:
   [Date]

6. The probable or intended date of commencement and completion of the well or wells:
   [Date]

7. The location, type, size and depth of well or wells:
   [Location], [Type], [Size], [Depth]

8. The probable or estimated depth of the water table or artesian aquifier:
   [Depth]

9. Name, address and license number of the driller engaged:
   [Name], [Address], [License Number]

10. Give such other similar information as may be useful in carrying out the policy of this act:
    [Information]

   [Map]

   [Signature of Appropriator]
   [Date]

As defined in the Code Sec. 1 (c) "Well" means any artificial opening or excavation in the ground, however made, by which groundwater can be obtained or through which it flows under natural pressures or is artificially withdrawn.

Three copies of this notice are to be filed with County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.

Pumped at 1250 G.P.H.
Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Charles H. Jensen, of St. Regis
   (Name of Appropriator) (Address)
   County of Mineral
   State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   NE 1/4, NW 1/4, Sec. 23, TWP R2PW
   Indicate point of appropriation and place of use, if possible.
   Each small square represents 10 acres.

2. The beneficial use on which the claim is based includes irrigated hay and grazing, to include a portion of the land's划定 to furnish for stock water.
3. Date or approximate date of earliest beneficial use; and how continuous the use has been since that time.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) from the sub-irrigated land would be about 15 miner's inches per acre.
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal (water table controlled by draw ditch).

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. First drain put in where ground was cleared the last extension completed in 1926.
8. The depth of water table 0 - 6 ft.
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. The water in the draw ditch can be maintained with an ordinary surface ditch, the deeper ditch has sides with 1:1 slope.
10. The estimated amount of groundwater withdrawn each year averages about 15 miner's inches the year around.
11. The log of formations encountered in the drilling of each well if available
   not applicable
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner

Date 12/28/62

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the School of Mines and quadruplicate for the Appropriator.
I certify that I received and filed this instrument for record on this day of June 1963 at [time].

DECLARATION OF VESTED GROUNDWATER RIGHTS
(Under Chapter 237, Montana Session Laws, 1961)

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

1. George and Janice Bare  
   (Name of Appropriator)  
   of St. Regis  
   (Address)  
   (Town)  
   County of Mineral  
   State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based—Domestic and irrigating purposes—household and motel units.

3. Date or approximate date of earliest beneficial use, and how continuous the use has been—approximately 10 years and use has been continuous.

4. The amount of groundwater claimed (in miner's inches or gallons per minute)—40 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof—Approximately 1 acre.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal—Electric pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater—Over 10 years ago.

8. The depth of water table—Not available.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater—6" casing, electric pump.

10. The estimated amount of groundwater withdrawn each year—2,000,000 gallons.

11. The log of formations encountered in the drilling of each well if available—Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record—None available.

Signature of Owner: Janice Bare  
Date: Dec. 31, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate to the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. George and Janice Bare, of St. Regis, State of Montana, County of Mineral, have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

<table>
<thead>
<tr>
<th>W</th>
<th>E</th>
</tr>
</thead>
<tbody>
<tr>
<td>N</td>
<td></td>
</tr>
</tbody>
</table>

2. The beneficial use on which the claim is based, domestic and irrigation purposes for household and grounds, and motel units.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Approximately 10 years and use has been continuous.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 40 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Approximately 1 acre, George and Janice Bare, owners.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Electric pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Over 10 years ago.

8. The depth of water table. Not available.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. 6' casing, electric pump.

10. The estimated amount of groundwater withdrawn each year. 2,500,000 gallons.

11. The log of formations encountered in the drilling of each well if available. Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None available.

Signature of Owner: Janice Bare, Date: December 31, 1963.

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. (Name of Appropriator) (Address)
   County of (Address)
   State of (Name of Town)
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based.
   House use

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. About 1958
   continuous use

4. The amount of groundwater claimed (in miner's inches or gallons per minute) About 8 gallons
   per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.
   Farm

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.
   Description of pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.
   Minimum

8. The depth of water table About 6-8 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. 2-in.-casing well with
   land grout

10. The estimated amount of groundwater withdrawn each year. 36,000 gallons

11. The log of formations encountered in the drilling of each well if available. Manuel - Clay

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. App

Signature of Owner Signed W. Johnson

Date Dec 24, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

COUNTY CLERK & RECORDER
MINERAL COUNTY
SUPT. MONTANA
STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER
Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

J.W. and Neauine Johnston, of St. Regis, Mont., have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. (Name of Appropriator) (Address) (Town)

County of Mineral State of Montana

N

W

E

S

2. The beneficial use on which the claim is based

Domestic and Irrigating lawn,

3. Date or approximate date of earliest beneficial use; and how continuous the use has been

1952 - steady

4. The amount of groundwater claimed (in miner's inches or gallons per minute)

25 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

Lot sixty-four, block six of St. Regis townsite.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal

Electric pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater

Oct. 10, 1952

8. The depth of water table

12 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater

2 inch driven well - 30 feet deep

10. The estimated amount of groundwater withdrawn each year

25,000 thousand gallons

11. The log of formations encountered in the drilling of each well if available

Not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Not available

Signature of Owner

Date

Dec. 31st, 1962

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

COUNTYCLERK & RECORDER
MINERAL COUNTY
SUPERIOR, MONTANA
Notice of Completion of Groundwater Appropriation by Means of Well

DEVELOPED AFTER JANUARY 1, 1962
(Under Chapter 237, Montana Session Laws, 1961)

Owner: Joseph Magura
Address: St. Regis
Driller: Rean Water Well Drilling
Address: St. Regis

Date of Notice of appropriation of groundwater: 7/11/68
Date well started: 7/12/68
Date completed: 7/17/68

Type of well: Drilled
Equipment used: churn
Water: Domestic [X] Municipal [ ] Stock [ ] Irrigation [X]
Industrial [ ] Drainage [ ] Other [ ]

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.
