Date of Appropriation of Groundwater Improved Summer 1962
Owner: Pete Kindsfather Address: Clyde Park, Montana
Contractor (if any) Self

Address of Contractor Self

Date Started 196 Date Completed Summer 1962

Describe means of obtaining groundwater without a well "as by
sub-irrigation and other natural processes". Include depth to
water when applicable. Perforated pipes; collecting
box and conveying pipe used in connection with
gravity flow. (Developed from just natural
flow spring). (NOTE: Spring was also filled
on Declaration of Vested Groundwater Form because
of use prior to 1961 and before improvement)

Quantity of water developed and used with explanation of
method used to measure or estimate such amount. If use is intermittent
estimate approximate lengths of periods of use Unmeasured.
By amount of flow out of one inch pipe - estimated
flow is approx. 6-8 gallons per min.

Signature of Owner Pete Kindsfather
Date December 27, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in
which the works are located.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Pete & Evelyn Kindsfather, of Clyde Park

(Name of Appropriator) (Address) (Town)

County of Park State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based. See reverse side

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. See reverse side

4. The amount of groundwater claimed (in miner's inches or gallons per minute) See reverse side

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. None except garden and lawn as explained on reverse side

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Collecting boxes and pipes as described on reverse side

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. See reverse side

8. The depth of water table. 1-12 feet on all springs

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Collecting boxes and pipes as described on reverse side

10. The estimated amount of groundwater withdrawn each year. Unknown

11. The log of formations encountered in the drilling of each well if available. None

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None except on Spring 3 which Owner has also filed Notice of Completion of Ground Water Appropriation Without Well Form 3 because completed since 1961.

Signature of Owner: Pete & Evelyn Kindsfather

Date: Dec. 31/1961

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
Spring 1. Beneficial use is based on continuous use for House, Stock and Garden water. Spring has been used as a natural flow spring since 1903 and an undeterminate number of years prior but was improved in the Summer of 1958. Collecting works and one inch pipe was installed in 1958 to bring water into house in the NE 1/4 of the NE 1/4 of the SW 1/4 of Section 2 T2N R9E. Water still used for Stock and also used to irrigate garden and lawn. (Gravity Flow)

Spring 2. Beneficial use is based on continuous use for Stock by natural flow spring since 1903 and an undeterminate number of years prior but was developed by Collecting works, perforated pipe and conveying pipe in 1945 for more efficient stock water use. Also piped into house. This spring is primarily used for household purposes, on premises described above. (Gravity Flow)

Spring 3. Beneficial use is based on continuous use for Stock by natural flow spring since 1903 and an undeterminate number of years prior. Was improved and developed by Collecting works, perforated pipe and conveying pipe in 1962. This is also used for Stock water, House and Lawn. Owner and affiant has also filed Notice of Completion of Groundwater Appropriation Without Well on this spring since it was improved since 1961.

All three springs with spring in section 11 T2N R9E (Separate filing) are used together to furnish year around stock water, household water and garden and lawn irrigation. Each spring is a basic unit to the Owners water system.

Spring 4. NE 1/4 of the NE 1/4 of the NE 1/4 of Section 2 T2N R9E. Spring is a natural flow spring. Beneficial use is based on continuous use for stock water by natural flow since 1903 and undeterminate number of years prior thereto. Amount of water claimed and used each year is unknown. Depth of water table is unknown. Not used for irrigation. Other questions not applicable.

Spring 4.
