# Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

1. United States of America

   (Name of Appropriator)

   County of ____________ State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   - Stock watering tank
   - Green Lake #2

2. The beneficial use on which the claim is based:

   Date or approximate date of earliest beneficial use; and how continuous the use has been. 1937; yearly May - November.

3. The amount of groundwater claimed (in miner's inches or gallons per minute).

4. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

5. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

   - Pipeline from a spring in the SW, Section 10, T2S, R7E, P6N, Upper Yellowstone River drainage.

6. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1937.

7. The depth of water table:

8. The depth of each well:

   - N/A

9. The general specifications of any other works for the withdrawal of groundwater:

10. The estimated amount of groundwater withdrawn each year.

11. The log of formations encountered in the drilling of each well:

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Very
Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: April 1, 1970...

Owner: Leslie F. Craft... Address: Box 328... Gardiner, Montana

Contractor (if any) .......... None...

Address of Contractor ...........

Date Started... 4/1/70... Date Completed... 5/1/70...

Describe means of obtaining groundwater without a well “as by sub-irrigation and other natural processes”. Include depth to water when applicable. Natural spring cleaned out, covered with wooden box frame, marker inst-
stalled, and about 600 feet of pipe laid to move water to tank used for stock watering.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use.

About one miner's inch of water.

Used for watering livestock.

Signature of Owner /s/ Leslie F. Craft...

Date: April 1, 1971...

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

Owner: Gordon D. and Beverly E. Boyd
Address: Box 84, Big Timber, Montana
Contractor (if any): None
Address of Contractor: None
Date Started: June, 1968
Date Completed: June, 1968

1. Describe means of obtaining groundwater (as by sub-irrigation, developed spring, drains, etc.)
   - Sump cleaned out with collection box, 100 feet of pipe and 100 gallon stock watering tank installed.

2. Means of withdrawing water (gravity, pump, canal, etc.): Gravity

3. Depth of water table: 12” to 36”

4. Use of the water: Stock water

5. Amount of groundwater claimed (in miner’s inches or gallons per minute): 4 Montana miners inches, or 45 gallon per minute

6. If used for irrigation, give number of acres and description of land

7. Estimate amount of water used each year: 100,000 gallons

8. Months of year spring flows: 12 months

(Under Chapter 237, Montana Session Laws, 1961)

1. Name of Appropnator: Jack McDonald, Jr.
   Address: Corwin Springs
   Town: County: Park

2. The beneficial use on which the claim is based:
   Stock water and irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been:
   since 1900

4. The amount of groundwater claimed (in miner's inches or gallons per minute): Fifteen Miners Inches

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner of the irrigator:
   Irrigate approximately 3 acres in the NE# of Section 33, T68S, R7E, which is owned by the appropriator

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. No artificial devices; however, there is excavation at the point the spring arises to the surface.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Not applicable

8. The depth of water table: Not applicable

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Not applicable

10. The estimated amount of groundwater withdrawn each year: Not applicable

11. The log of formations encountered in the drilling of each well if available: Not applicable

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: Not applicable

ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

I, W.R. Bailey and Jennie May Bailey, of Corwin, Montana,
(Name of Appropiator) (Address) (Town)
County of Park, State of Montana,
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based
   Domestic use, house and cabin.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been
   Well was drilled in 1946.

4. The amount of groundwater claimed (in miner's inches or gallons per minute)
   100 miner's inches.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
   No irrigation.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
   Electric pump, and 100-gallon storage tank.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater
   Day in 1946, has been used continuously since.

8. The depth of water table
   65 foot wall, water within 10 to 12 foot of top.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
   Wall in 65 foot deep, has 1/2 horse power electric motor, water is within 10 to 12 feet of top of well, always plenty of water in well.

10. The estimated amount of groundwater withdrawn each year
    About 120 gal. a day or 40,000 gallons.

11. The log of formations encountered in the drilling of each well if available
    Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner: W.R. Bailey

As the Administrator of the Groundwater Code for the State of Montana, please take note of the following special instructions, in order to properly protect your groundwater right.

Special Instructions:

Please provide, as indicated in red on the attached form, the spring development has completed and the means or method used to develop the spring.

Thank you.

50,485

1. Describe means of obtaining groundwater (drilled well, developed spring, drains, etc.)

2. Means of withdrawing water (gravity, pump, canal, etc.)

3. Depth of water table

4. Use of the water for House and Irrigation

5. Amount of groundwater claimed (in miner's inches or gallons per minute) Two Inches

6. If used for irrigation, give number of acres and description of land Two acres, Sec 5, T 9 S, R 8 E

7. Estimate amount of water used each year

10,000,000 Gal

8. Months of year spring flows All year
