Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1908 through present time, constant use

Owner: Margaret Robinson
Address: Conrad, Montana

Contractor (if any): None
Address of Contractor:

Date Started: 1908
Date Completed: Continuing to build

Describe means of obtaining groundwater without a well “as by sub-irrigation and other natural processes”. Include depth to water when applicable. Groundwater surging at spring concrete collection point diverted to ditch conveyed to reservoir.

Quantity of water developed and used, with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use:

3 inches through pipe

Signature of Owner: Margaret Robinson
Date: December 19, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.

I have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Agricultural, sub-irrigation, stock water, reservoir.

3. The date or approximate date of earliest beneficial use: 1905 or earlier.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 119 gals. per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

Sub-irrigation, stock water.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:

Natural spring, percolating water (Item of Sec. 15, well drilled in 1915).

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1905 and prior.

8. The depth of water table: In the well at 50 ft.; and in springs water in gravel 10 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:

7 inch steel casing in well and springs developed by natural flow in gravel and reservoir in pit.

10. The estimated amount of groundwater withdrawn each year: 30,000,000 gals.

11. The log of formations encountered in the drilling of each well if available:

Address: Conrad, Montana

Contractor (if any) ________________________________

Address of Contractor ________________________________

Date Started: 1912 Date Completed ________________________________

Describe means of obtaining groundwater without a well, "as by sub-irrigation and other natural processes." Include depth to water when applicable. Water obtained by natural percolating effect sub-irrigation and spring surfacing. Actual depth of ground water unknown but apparently groundwater feeds surface flow at point where springs appear. Catch basin and earth work has been built to establish small reservoir.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use. Unable to estimate amount of water developed by percolating effect.

All water appearing is utilised in natural irrigation and other agricultural use.
