Date of Appropriation of Groundwater: 1945

Owner: 

Contractor (if any): 

Address of Contractor: 

Date Started: Date Completed: About 1946

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use.

Indicate point of appropriation and place of use, if possible.

Signature of Owner: 

Date: 

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

(Under Chapter 237, Montana Session Laws, 1961)

1. Austin L. Elliott, of Conrad, State of Montana,
   County of Pondera, Montana,
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is:
   Agricultural farm use, stock water, domestic, irrigation water, from three wells and one spring.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Natural flow from 1962 homestead days and wells dug in part five years, continuous use of spring and underground water found in previous wells and new wells.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 60 gals. per minute divided between three wells and spring.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Irrigation incidental to gardens, lawns, in vicinity of wells and sub-irrigation from spring.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Electric pump located in three wells, 24th, Sec. 22, and spring located 24th, Sec. 32 by underground collection channel into artificial gathering place.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Constant repair and rewiring since early days, latest wells dug in 1958 and work on spring as recent as 1963, continuous process.

8. The depth of water table water reached approximately 10 ft. from surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Bag wells curved usual depth 35 ft. Sprinkling collection pit with coarse aggregate.

10. The estimated amount of groundwater withdrawn each year 3,500,000 gallons

11. The log of formations encountered in the drilling of each well if available. No log available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
