have appropriated groundwater according to the Montana laws in effect prior to January 1, 1963, as follows:

2. The beneficial use on which the claim is based.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been.

4. The amount of groundwater claimed (in miner's inches or gallons per minute).

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.

8. The depth of water table.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater.

10. The estimated amount of groundwater withdrawn each year.

11. The log of formations encountered in the drilling of each well if available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Administrator of Groundwater Code

Office of State Engineer

Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

Albert S. Brubaker, President of State Bank of

Terry, a Corporation of Terry

(Town)

County of Prairie State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based—Artesian well for bank building.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. In 1917 an artesian well was drilled in Lot 7 Block 40, Original Townsite of Terry, and said use has been continuous since that time. For drinking and sanitary purposes, and for steam heat.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 5 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof—No Irrigation.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal—Artesian well in Lot 7, Block 40, Original Townsite of Terry, Montana, fed by underground pipe to bank building on Lots 8, 9 and 10, Block 40.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater—Summer of 1917.

8. The depth of water table—Exact depth unknown—approximately 80 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater—Well is located on plot of ground two feet square. In Lot 7 of Block 40 of Town of Terry, beginning at a point 38 feet south of South line of Laundra Street and 104 feet west from West line of Logan Avenue, thence south 2 feet, thence east parallel to Laundra Street 2 feet, thence North parallel to Logan Ave., 2 feet, thence West 2 feet to point of beginning. Five and five-eighths inch casing, 2 inch well pipe, perforated at bottom.

10. The estimated amount of groundwater withdrawn each year—Approximately 20,000 gallons.

11. The log of formations encountered in the drilling of each well if available—Not Available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record—
