**WATER WELL LOG**

**Location:** Sec. 10N. T. 10W.  R. 19W.  
**County:** Ravalli  
**Sec. 7-10N.19W.**

**Owner:** H. Stanley Antrim  
**Address:** Stevensville, Mont.

**Driller:** Glenn Camp  
**Address:** Missoula, Mont.

**Date Started:** March 14, 1958.  **Date Completed:** March 25, 1958.

**Type of Well:** 
- Drilled

**Equipment Used:** Churn drill

**Water Use:**
- Domestic
- Municipal
- Stock ✓
- Irrigation ✓
- Industrial
- Drainage
- Other

**Casing:**
- 0 ft. to 70 ft. 8 in.  
  Type: Solid steel  
  Welded joint  
  Size: 12 inch diameter

**Perforated or Screened:**
- 45 ft. to 65 ft.

**Type of Screen or Perforations:** perforations made with cutting torch, size 1/8 x 6 in.

**Static Water Level:** 28 - 33 ft.

**Shut-in Pressure:** 240 lb./sq. in.

**Pumping Water Level:** 55 ft.  
240 gal. per min.

**How Tested:** Turbine test pump and again with permanent installation, at end of 8 hr continuous run.

**Length of Test:**

**Remarks:** (Gravel packing, cementing, packers, type of shut-off, depth of shut-off)

**Casing set 5 ft. into clay.**

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODES
OFFICE OF STATE ENGINEER

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: March 1, 1926

Owner: Mr. Stanley Antrim  Address: Stevensville, Montana

Contractor (if any)  NONE

Address of Contractor: NONE

Date Started: March 1, 1926  Date Completed: December 10, 1963

Describe means of obtaining groundwater without a well “as by sub-irrigation and other natural processes”. Include depth to water when applicable. The ground water is obtained from an area of many springs emerging from an escarpment for a distance of approximately 80 rods. Development of this source has been made by digging channels into the springs and collecting the water in an open ditch running along the base of this escarpment. The escarpment rises 15 to 20 feet above the ground level through which the ditch has been excavated an additional depth of 4 to 16 feet.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent

From this spring area, said ditch carries the water westward estimate approximate lengths of periods of use reaching the top of the escarpment approximately 10 rods east of the west line of the B-17 SW-1-1-2 Sec 8 T. 10 N R. 1 W. Here domestic water is provided for the dwelling and camp house and the flow is further distributed for stock water and irrigation water as needed throughout the year. Readings of the flow at this point of distribution, made by a weir properly placed in the headgate, indicate maximum yearly and seasonal fluctuations between 125 and 350 gallons per minute.

Signature of Owner:  

Date: December 28, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.
I certify that I received and filled this
instrument on this 30th
day of December, 1906.

STATE ENGINEER

1. **Leon C. Hunt**, 761 Eureka Ave., Missoula
   (Name of Appropriator)  
   of State of Montana
   (Address)  
   (Town)

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is:
   - **Residential, Domestic, and Farm**

3. Date or approximate date of earliest beneficial use; and how continuous the use has been:
   - **March 1930 through June 1962**

4. The amount of groundwater claimed (in miner's inches or gallons per minute) as follows:
   - **No gallons**

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:
   - **1/8 Acre, Present owner: Leon C. Hunt, Apr 1930, Place of Use: 046-3, Section: 16, T23N, R9W**

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   - **Electrical pumps or house**

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   - **Not known**

8. The depth of water table:
   - **Not known**

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   - **Not known**

10. The estimated amount of groundwater withdrawn each year:
    - **Est. 1250 1/2 Million Gal.**

11. The log of formations encountered in the drilling of each well if available:
    - **Not available**

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:
    - **Not applicable**

Signature of Owner:

Date:

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

[Recorded by]
Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Wesley Woodard
   112 Logan Ave., Glasgow, Mont.
   (Name of Appropriator) (Address) (Town)

   County of Ravalli, State of Montana, have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based ........................................
   House, well, or domestic use .................................................................

3. Date or approximate date of earliest beneficial use; and how continuous the use has been .................................................................
   

4. The amount of groundwater claimed (in miner's inches or gallons per minute) .................................................................
   Cemtial or well; location .................................................................
   

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof .................................................................
   

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal .................................................................
   Pump; well; location; indicated on map .................................................................

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater .................................................................
   

8. The depth of water table .................................................................
   

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater; additional information .................................................................
   

10. The estimated amount of groundwater withdrawn each year .................................................................
    Not in use at this time .................................................................

11. The log of formations encountered in the drilling of each well if available .................................................................
    

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record .................................................................

   

Signature of Owner

Date: December 5, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the School of Mines and quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Wesley Woodard
   (Name of Appropriaor)
   112 Lomond Ave., Glasgow, Mont.
   (Address) (Town)

County of Ravalli, State of Montana, have appropriated groundwater according to the Montana laws in
effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based
   house, well, for domestic use

3. Date or approximate date of earliest beneficial use; and how continuous the use has been:
   unknown

4. The amount of groundwater claimed (in miner’s inches or gallons per minute) and size of well, or other
   means of withdrawal:
   not known

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and
   name of the owner thereof:
   none

6. The means of withdrawing such water from the ground and the location of each well or other means of
   withdrawal:
   pump - well located as indicated on map

7. The date of commencement and completion of the construction of the well, wells, or other works for
   withdrawal of groundwater:
   not known

8. The depth of water table:
   not known

9. So far as it may be available, the type, size and depth of each well or the general specifications of any
   other works for the withdrawal of groundwater:
   not available

10. The estimated amount of groundwater withdrawn each year:
    not in use at this time

11. The log of formations encountered in the drilling of each well if available:
    not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including
    reference to book and page of any county record:
    not available

Driller: Liberty Drilling Co. Address: Missoula, Montana

Date of Notice of appropriation of groundwater. None filed.

Date well started. 4/28/69  Date completed: 4/30/69

Type of well: Drilled Equipment used: Cable Tools
(Dug, Driven, bored or drilled) (Churn drill, rotary or other)

Water use:  Domestic ☑  Municipal ☐  Stock ☐  Irrigation ☐
Other ☐

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as sand, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

Water rises in the well 36 feet from surface.

Static Water Level for non-flowing well

Shut-in Pressure for Flowing Well
Non-flowing
Pumping Water Level: 69 feet at: 75 gal. per minute.
Discharge in gal. per min. of flowing well

Non-flowing

How Tested: Air-Lift Pump
Length of Test: Two hours

Remarks: (Gravel packing, cementing, packers, type of shutoff) All water entering well is coming through the open bottom of six inch casing. Wells in this area can be depended upon to produce clear sand free water year after year as long as they are not overpumped, i.e., they should be pumped at rates not in excess of 20 percent of the tested capacity of the aquifer. If used for irrigation, industrial, drainage or other, explain, state number of acres and location or other data (i.e.: Lot, Block and Addition).

Approx. 10 acres.

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located, tissue copy to be retained by driller.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

   State of 
   Montana  
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based
   Irrigation, stock and other beneficial uses

3. Date or approximate date of earliest beneficial use; and how continuous the use has been since
   April 1959; continuous use after this date.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 60 miners inches

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof 127 acres (approx.) Fred and Mary Bartels — North 2/4 of NE/4, Sec. 26, T. 13 N., R. 19 W., M.P.M.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
   Electric pump and pipe

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater
   August, 1959 — commencement and April, 1960 — completion

8. The depth of water table
   40 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
   Pump well, 20 ft deep, 3 ft diameter casing, 4" (in-h)

10. The estimated amount of groundwater withdrawn each year
    110 million gallons

11. The log of formations encountered in the drilling of each well if available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

   **Signature of Owner:**  
   **Mary Bartels**

   **Date:**  
   7/12/65

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located. Please answer all questions. If not applicable, so state, otherwise the form will be returned.
