3. Date or approximate date of earliest beneficial use; and how continuous the use has been: We have no dates of use on this well.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): This well should be capable of producing approx. 90 gals. per min.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: At the present time it is not used for either irrigation or any other use.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: There is no means of water withdrawal equipment on this well at this time.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: The date of this well being drilled is unknown. Other than we do know was drilled in the early 1920s.

8. The depth of water table: approx. 40 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: This is drilled well. approx. 70 ft deep with a 6" casing.

10. The estimated amount of groundwater withdrawn each year: Presently is not in use.

11. The log of formations encountered in the drilling of each well if available: Log of formations are not available at this time. We are planning to reopen this well and make it fully operational in the very near future. We will be happy to furnish complete data on this well at this time.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: We have no further information on this well.

Signature of Owner: Frank Stronk
