1. Conducting in 1907 a very interesting conference for women's health, both at a general health conference and a special conference for the women of the United States. The conference was held at the Hotel Marlborough in New York City, and was attended by a large number of women of all ages, from the youngest to the oldest. The conference was held for the purpose of discussing the health of women, and the conference was very successful.

the results of the questionnaire at which time we also gave them a copy of the English version of questions of our study.
