Dear Mr. Heldner:

This is in reference to the enclosed GW-1 form, Notice of Appropriation of Groundwater, that was filed in the Roosevelt County Courthouse at Wolf Point, Montana on June 30, 1972 (document number 790-210350).

The Notice of Appropriation of Groundwater form is simply a "notice" form, which is filed in advance of the commencing of the well construction. Upon well completion the GW-2 form, Notice of Completion of Groundwater Appropriation By Means of Well should be filed.

The GW-1 form, that you have filed does not legally give you or protect your groundwater right. The Groundwater Code specifically states that, "No notice of completion (GW-2 in this case) is filed with respect to any use of groundwater instituted after January 1, 1962, no right to that use of water shall be recognized."

Enclosed is one set (5 sheets to a set) of the GW-2 form in order that you may file your groundwater right properly. Complete the form as accurately and completely as you can and take it to the County Clerk & Recorder for filing.

Also enclosed is a pamphlet entitled Appropriation and Regulation of Groundwater. Please pay special attention to the areas underlined in red in the first three and one-half pages.

If we can be of further assistance, please feel free to contact us at any time.

Sincerely,

R. J. Guse
